AUGUST COTTON SELLS FOR 20c.

Urgent Demand From Speculative Shorts on New York Exchange.

New York, Aug. 29.—August cotton sold at 20c a pound in the New York cotton market today on urgent demand from speculative shorts who had postponed covering until the last minute in the hope that the increasing new crop movement might break the control of the bull leaders.

This price, highest reached for cotton for any delivery since the civil war, and exceeding by nearly 2 1/2c per pound, the highest figures reached in the famous bull year of 1903-04, which until now had stood as a standard of comparison, was regarded by many as the culminating of the bull movement in progress here for the last six months, during a season, which, when it ends next Thursday,

will go down as the most spectacular in the annals of the cotton trade since the civil war.
