## Political Paragraphs．

 Prom Oar Wahhington Correspondent，Republican editors and stum Republican editors and stump
speakers have lieen saying that none er now than they were before the passage of the Mckinley bill． these gentlemen are honest in their statements they will find that some－
body has imposed on them，when body has imposed on them，when
they go to buy their winter carpets， as the prices of carpets are from 15 to 25 per cent．more this fall than they
were at the same time last year．This were at the same time last year．This
is a fact that any dealer in carpets is a fact that
will verify． Representative Mills about sized up
the financial situation when he sat the financial situation when he said
in his opening speech in Ohio：＂Let us not be deceived by superficial ap． pearances．It is not the scarcity of
money in the country，it is the scare money in the country，it is the scarc－
ity of money in the pockets of the people who earn it that produces the distress．If our circulation were to
day double what it is，and it was all in the pockets of a hundred thousand people，our condition would not only not be bettered，but it would be worse than it is．It is not the small circu－
lation，it is the small distribution lation，it is the small distribution
that plagues us，＂ that plagues us．＂ The republicans are sending cam－ aceompanied by the statement that it was made by Major McKinley personally．The Major certainly is not a skilled workman．If he，with－ out any previous experience，can make tin－plate，why should the al－
leged manufacturers of tin－plate wish leged manufacturers of tin－plate wish
to import skilled workmen from to import skiled work？There is nothing but humbuggery in this tin
tin plate question，view it from any tin plate question，view it from any
standpoint you please，and the American，users of tin in，its various forms are today paying out a great
deal more money on account of the increase in the price of tin－plate
made necessary by the McKinley tariff，than will be necessary to pay the wages of all the American labo that will be employed in the tin－plate industry for five years to come．Oh
fraud！one of thy most seductive aliases is＂protective tariff：＂
It looks very much as if the Blaine boom was being manipulated solely
to keep other possible competitors off the track in order that Mr．Harrison may get all the necessary wires laid for a renomination．When this be－
comes certain look out for a mutiny in the republican camp，but it will be
too late unle at fault，to prevent the consumation of Mr．Harrison＇s designs．
would much prefer Mr．Harris would much prefer Mr．Harrison a
the republican candidate，as he repre the repubican candidate，as he repre
sents everything that is most vicious
in the republican creed more fully than any other one man in that party and will therefore be the easiest man
todefeat． Some people are disposed to criti

his reeent Ohio speech，which took the ground that the tariff is the su－
preme issue in the contest betwee the republican and democratic par－ ties and that all other issues are
secondary，but no good demoera should do so．Mr．Mills is right there is no division in the democratic ranks and for that reason，if for no
other，it must be kept at the front Let us get possession of all branchee
of the Government first，then we can take up and settle inside the party all
the other questions he other questions． ter that is far from taking the rosy view of the republican prospects in Ohio that is prevalent，in the re publican press，It was written to
republican departmental official，an republican departmental official，and
was intended to be personally shown by the receiver to every republican
from Ohio that is employed ty Goverument．In it the Senator says that he regards it as imperatively necessary that every republican voter
of the State of Obio，now temporarily in Washington，shall at once return the weak－kneed members of the
party who are showing a disposition party who are showing a disposition
either to vote against their old party
or to stay at home．In consequence of this letter it is said that the depart－
ment officials have intimated all Ohio voters employed therein may take thirty days leave with pay
whether their annual leave has all been used up or not．Evidently Senater Sherman isn＇t figuring on
any fifty thousand majority． speaking of Ohio，it is creditable
