To the People of Utah. Delivered at Salt Lake City on Saturday, June 16th, by the Territorial De coratic Conventio Resolved, That as the convention was not called to make nominations or formulate a platform of principles, the following be adopted as the sentiments of the convention to be presented in the form of an address to the people of

We, the democrate of Utah, in convention assembled, hereby declare our devotion to the time honored principles of the democratic party as enunciated in the national platforms and imbedded in the harts of its members.

We are emphatically in favor of equal rights to all and special privileges to none; of the greatest possible liberty to every individual compatible with the public welfare; of the advancement and support of home industries; of the maintenance of local self-govern-ment to the fallest rightful extent; and of a strict construction of the na ional constitution.

We are in tayor of such reform of the tariff as is consistent with the in terests of the consumer and the producer, and declare that duties upon foreign imports should be levied upon the luxuries, so far as possible, and not upon the necessaries of life, for the purpose of providing revenue for the necessary expenses of government, and not for the special benefit of any class or private enterprise. We are opposed to the bounty system, by which the many are taxed for the enrichment of

We demand the speedy passage of the bill for trriff reform now pending in the senate, including the provision for an income tax by which those large property holders who are best able shall bear their just share of the burden of taxation. And we denounce the obstructive policy of the republicans in congress, by which a heeded measure to provide public revenue is de-layed, causing uncertainty and doubt in commercial and manufacturing circles, and thus paralyzing industry and arresting trade. To the factious hindrances which are still thrown in the way of the Wilson bill by repablican senators are due to the slow progress it is making and the disasters that are consequent upon the delay.

We demand the restoration of silver

to the constitutional position it occu-pied as money previous to the act of 1873, by which the republican party cast down that historic and essential money metal, and caused the increasing disasters which, beginning with the panic of 1873 and bursting forth at intervals with terrible severity, de-pressing the agricultural interests of the country, creating unrest and dis-content among the oppressed laboring classes and increasing the armies of tramps which swarmed over the land, calminated in the panic of 1893 and still spreads its blight upon trade and

We call attention to the underiable fact that the republican party took the government from the democratic ad ministration in 1889, with more than a hundred million dollars in the national treasury and turned it back to the

democratic party in 1893 with a treasury practically bankrupt.

We denounce the silver policy of the tepublican party as a system of miser able makeshifts to palliate the republican financial crime of 1873, and de democratic party can the people of the United States expect the re-establish ment of true bimetalism, which in-cludes the free coinage of silver at the ratio of 16 to 1 with gold. We believe that this can be done with safety and profit to this nation by American ac-tion, independent of European agree-ment if international co-operation can-

not be immediately obtained.

We denounce the republican policy of protection as embodied in the infamous McKinley law and reaffirmed by that party in its most recent utter-ances. We regard it as an assistant agency to the prostration of silver in social calamities of various kinds which

still afflict our country.

We deny that the high tariffs placed upon lead and wool and other commodities have raised their price or benefited the producer of such materials, while they have been oppressive and detrimental to the consumer and the country at large. We cordially endorse the democratic

congress and administration: In repealing the obnoxious federal

election law and thus promoting the freedom of elections.

In formulating and endeavoring to enact a bill to reform the existing exorbitant eystem of tariffs. In revising the pension lists, so that

while all persons deserving the aid of the country for services in its defense shall be secured in their rights, imposters and fraudulent pension agents shall not be permitted to further bleed the body politic.
in the exercise of the federal forces

to suppress lawlessness where power to do so is clearly vested in the federal authority, and declining to interfere when it would intrude on the rights of a local

In the restoration to the church of Jesus Christ of Latter-day Saints property confiscated under the provisions of congressional law; and we favor the immediate restoration also of the real property se secheated in view of the now indisputable fact that no pretex: remains for charging that the imajority of the people of Utah are in opposition

to national authority.

In the passage through the house and its report in the senate of a liberal and excellent bill for the admission of Utah as a state on an equal footing with the existing states; and we urge its speedy enactment as a measure of simple justice to the oldest and most prosperous of the existing territories.

In the appointment of bona fide residents of the territory to the various offices in the gift of the government in stead of men from other sections of the country unfamiliar with our people and the situation of our affairs as was the rule under republican administra-

And we further endorse all efforts to msintain the dignity and authority of the government and remove the effects of over thirty years of republican mis-

We endorse the official acts of our delegate in congress, Hon. J. L. Raw-tins, and offer his able and successful services as evidence of democratic energy and fidelity to the interests of the

We denounce the hyprocrisy of that portion of the republican press and party, which infamously endeavors to charge the effects of the legislative errors of a third of a century upon a party which had but just entered into power when those terrible evils over-spread the country. The logic which argues that effects precede their causes, is fit reasoning for a party which af firms that the foreigner pays the tariff

tax on the imported goods purchased by the American people. We arraign the republican party for its treacherous course in relation to the so-called "industrial" armies. Having brought the laboring classes into the conditions under which they suffer through the vicious legislation of a

long career of power, republicans have FOR LITTLE FOLKS. ment upon Washington by thousands of the unemployed. They have inter-fered with the efforts of the judiciary and the executive in different places

administration, can relief be afforded to the oppressed and needy working

population and prosperity be assured to the toiling masses. We denounce the false pretenses re-

cently put forth by leaders of the re publican party, by which they seek to decieve the voters of the United States

into the belief that they are friends to silver by linking it with the heresy of

protection. The terms "bimetalism"

and "the enlarged ise of silver" by which they seek to dazzle the eyes of

They do not mean the free and un-

limited coinage of silver at the ratio

genuine bimetallic policy.

We denounce the national republican party: For its false pretenses of sudden regard for the people of Utah

against whom in its platforms and by extreme legislation it indicated intense

hostility from its inception. Its simu-

lated affection is co-incident with the

appearance of a possibility of republi-

For its opposition to the educational interests of the territory, by refusing to appropriate sufficient funds for the

We confidently appeal to the citizens of Utah to stand by and support the party of the constitution and the people of the constitution and the constitution and

which will maintain and bear off tri-umphant those sacred doctrines and in-stitutions for which the fathers of our

country fought and bled, and to which we hereby pledge our faith, our devo

efforts and Utah will enter the Union

as a free and vigorous democratic state.

Mand MacCarthy. Miss Mand MacCarthy, the child violinist whose successful appearance at the Prince's hall we recently recorded, is not, as has been stated in several journals, an Australian, but was born 10 years ago in the Emerald Isle. her parents, too, are natives of Ireland, though her father has been practicing

ical man. He is also a skillful pianist and composer as well as a capable sculptor and painter in oils, and several of his productions upon exhibition have been rewarded with gold medals. Beeing that little Maud's mother is also an accomplished singer, it is not surprising John R. Hindly that the child should have inherited an artistic temperament. Though 7rish by birth, it was in Australia Miss Mao-Carthy commenced the study of the violin. She received lessons on that instrument as far back as five years ago from Miss Pedley of Sydney, and in two years' time had made such progress that her teacher felt justified in giving a special "at home" in order that connoisseurs might listen to the phenome nal capabilities of the gifted little child. She has since studied with the well known Spanish violinist, Senor Arbos, who, by the way, has just joined the teaching staff of the Royal Academy of Music, but from whom she will no John Mendenhall doubt continue to receive the benefit of H. F. Thomas instruction. Among the treasures prized by Miss MacCarthy is a volume from Mr. Gladstone bearing an inscription in his own handwriting, and in which he describes the young violinist as "the dear little Irish musician."-London

Vacation Hints For Children.

If you will remember two little hints, children, you will have much less fear in going into the woods this summer. First, poison vines, such as the ivy, have three leaflets on one stalk. There-fore beware of touching any three leafed vine. Remember that the poisonous sumacs have white berries, those with red berries being harmless. It is safe for the city bred child never to eat any roots or berries found in the fields or woods without having them first looked over by somebody who knows about ward, 2 and 7 p.m.; Timpanogos ward, 2 and 7 p.m.; and in the Provo to know that snakes are so common in 2:30 p. m. that country that one of the first lessons a child learns is how to bind up a wound. It is taught in the primary schools, and in all the railway stations large placards are posted giving full particulars and with good illustrations showing how the arm or foot should be bound to prevent the poison penetrating the system. Basy to Make a Strong Cigar, A tobacco manufacturer who move

in a select coterie of tobacco loving friends was recently told by one of those connoisseurs that he had yet to find a eigar that was too strong for him to enjoy. Acting on the suggestion, the manufacturer took occasion to have a cigar specially constructed of stems and neatly covered with a rich, appetizing Ha-vana leaf, rolled into points at both ends. This he presented to his friend with the wish that it might prove strong enough to suit his taste. Suspecting nothing, the friend proceeded to smoke, and was soon surprised to see coals like redhot nails exuding from the end of the eigar. As the skin peeled off his tongue his brain began to reel, and he soon gave up in an old fashioned attack of nausea. He no longer boasts of his capacity before people who are in the business.—Philadelphia Record.
