

# A GOOD CREDIT

Is the best capital a man can have and this is especially true of a farmer who only has cash coming in two or three times a year

To be able to secure what he wants, when he wants it, on his personal word or voucher is what every man is justly proud of, and the merchant who thus honors him and his word is worthy of his consideration.

October 1st. is the settling time for merchants, when harvesting accounts are due and heavy bills must be met.

and the minimum quantity is 25. The purpose is to connect the towns and residences of the Inland Empire, and the reservation with each other by wire. A man can become a patron by securing a phone and subscribing for not less than 25 shares or not more than 200. The phone will cost him \$12 per year. The amount he pays for stock will not be a charge for the use of the phone but makes him a stock holder in the company to that amount, and on any dividends paid he will receive his pro rata of the same. On subscribing for the phone a half of the stock is paid for the other is subject to the call of the secretary.

Every month a statement is mailed to the stock holders, that they may see how things are going, and at all times the books are open for their inspection.

Quite a number of American ridge farmers have invested in this project and we predict that quite a number more will do so, for it is not a graft. We have not investigated to see how successful a business venture it will likely be (may be couldn't tell if we did) but we do, after knowing the facts, commend it to our readers for their consideration.

You will find John Benjamin again on the Hog Market. See him before you sell ur Hogs.

Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many million bottles have been sold and used. It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during all this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by White & Co.

For fire insurance, field or warehouse, see T. B. West, and if you want anything in real estate, sell or buy, I am the person you want.

Thursday's Tribune announces a close corporation of that publishing house with a capitalization of \$50,000, actual \$35,000. We are glad to see such evidence of publishing prosperity and will not allow a germ of envy to creep into well wishes.

**Anent the Rural Telephone**  
 Some weeks ago we published an item regarding the rural telephone project for American ridge, and therein condemned the same. Were the project as we understood it we would still condemn, but as it seems that our information was not complete enough or our comprehension not acute enough to secure the correct idea, we condemned without sufficient justification and as is usual in similar cases, regret it. As we have, from direct sources, the idea as it is being carried out, we heartily commend it and believe it will be a benefit.

To put the project as pithily as possible: The concern is a co-operative corporation, capitalized at \$10,000, with head office and present board of directors at Moscow; according to the laws of
