KENDRICK, LATAH COUNTY. IDAHO. FRIDAY. DECEMBER I

## Ada Bell Daniel

A very sad death occurred last Sunday when the little daughter o
Mr. and Mrs. Warner Mr. and Mrs. Warner Daniels o
Cavendısh passed away very sud denly. Death was cause
child drinking kerosene.
tember 26, 1917 and died Sunday
December 8, at her home nea
Cavendish. The sorrow in her fam-
ily is born by her father and
mother, one brother and two sisters
For these bereaved ones much sym
pathy i
munity.
Short services were held in th
yard at the chil
remains laid to rest in the Cave charge of the services. O're the spoils that death has won
Calmly say. "Thy will be done." By thy hands the boon was given
Thou hast taken but thine own: Lord of earth and God of heaven

## Combat Bean Diseases

New diseases causing less than the same crop is grown for a fe
years continuously in a given loca

ticed in certain fields of Latab
county and has also been reported in Oregon. It does not cause the death of the plants as many other
diseases do, but generally stunts their growth. Often the plants
branch profusely, causing them to appear quite bushy. The leaves
are usually crinkled and the area are usually crinkled and the
between the veins swollen, w
suggests the name "curly leaf," suggests the name curly lear,
plied by some bean growers.
diseased plants seldom develop orously, lack some pods and ar
very late in maturing. The exa cause of the disease is not known,
but it is thought to be produced but it is thought to be produced
bacteria transmitted by means seed or diseased plants in the field.
The following methods of control
are suggested:

## are suggested: 1. Avoid planting seed of un- known origin.

## 2. When diseased plants are $n$ ticed in the field, remove at one

## and destroy them. 3. Select your seed from plan

## not effected and use a seed plat

 not effected and use a seed plat tsecure your seed for field planting,
The seed plat should be the best
ground that can be obtained, whic
has not grown beans for a few
