

IDAHO COUNTY FREE PRESS
A Weekly Newspaper
Founded June 18, 1886

J. C. SAFLEY, Publisher

Entered as second-class mail matter at the postoffice in Grangeville, Idaho. Subscription price, to be paid in advance, \$1.50 yearly. Official newspaper of Idaho county.

LICENSING AGENTS

Moscow's city council has passed an ordinance requiring a heavy daily license payment by agents canvassing the town. The position Moscow has taken in this regard could well be emulated by other towns. The ordinance is calculated, of course, to protect established merchants from competition by house-to-house canvassers. The purchaser, also, is protected by the ordinance, for merchandise sold in this manner often is of questionable value.

At the present time, Grangeville is infested by several persistent agents, whose activities could well be curbed by a requirement that, before entering upon their work, they purchase a municipal license costing, say, \$20 a day, for the privilege of peddling their wares.

The Moscow ordinance exempts from the license fee, and rightfully so, farmers who sell the products of their farms and gardens. Traveling salesmen, selling to the retail trade, also are exempt. But book agents, silk-stocking canvassers, brush peddlers and others of their style, are taboo, unless they have first taken out a municipal license, which course most of them are disinclined to follow. Rather, they move to the next town, where easier sailing is found.

The merchant who is established in a town, who enjoys a reputation of selling dependable goods, who employs local labor, who pays taxes and contributes liberally in time and money to all public enterprises, surely is entitled to this small measure of protection.

VOTE ROAD BONDS

Taxpayers who are qualified voters in the Fenn Highway district will, on March 25, have the opportunity of asserting themselves on the \$35,000 bond issue as the district's comparatively small share in cost of construction of the North and South highway.

Early completion of the state highway from Lewiston to Welser hinges on the action to be taken in the Fenn district, a week from Saturday. In the Fenn raises \$35,000 for this work, the federal government gives assurance of \$48,330 additional, to be spent on the road within the district, and the state of Idaho also probably will aid. Although some dissension has arisen in the district over location of the highway, this matter is of small consequence, compared with the fact that completion of the highway will open the most important and only direct artery of transportation between north and south Idaho, and at a really small cost to the Fenn people. The North and South highway is the greatest improvement ever undertaken in the state of Idaho, and now, that so near completion, it would be a pity to have a calamity to hold up the work because of purely local and personal differences.

Grangeville and Cottonwood highway projects are ready and eager to proceed with the North and South highway to connect with Fenn. The Fenn district is one of the wealthiest high-roads in Idaho county, and it can afford, and will do its share in building the North and South road.

ALREADY THE BUCKEYES ARE LOOKING UP.

BOOST WHEAT TARIFF 12 CENTS A BUSHEL

Increase of 12 cents a bushel in the tariff rate on wheat has been ordered by President Coolidge.

Acting under the flexible provision of the tariff act and on the basis of the tariff commission's recent inquiry, the president at the same time ordered an increase of 50 percent in the ad valorem rate on mill feeds.

The new rate on wheat will be 42 cents a bushel as compared with the present rate of 30 cents; the new rate on flour will be \$1.04 a hundred pounds as compared with 78 cents, and the rate on mill feeds will be 7 1/2 percent ad valorem as against 15 percent.

The new rates as ordered by the president and set forth in a final proclamation will become effective in thirty days, in time to be applied to the flood of Canadian wheat that descends on the United States about the middle of April each year with the opening of navigation of the Great lakes.

The advance in rates was sought to aid particularly the hard wheat growers of the northwest, but the resultant increase in the price of spring wheat is expected to be reflected in the market quotations on winter wheat raised in the middle western and other states.

U. S. DISMISSES INDICTMENTS AGAINST BOISE BANKERS

All indictments charging former officials of the Overland National bank, at Boise, with violations of the national banking law were dismissed by Federal Judge F. S. Dietrich on motion of U. S. Attorney E. G. Davis. The defendants were R. F. Bicknell, president; J. H. Black, vice president, and G. R. Hitt, cashier.

"I do not believe that a jury at this late date would look with favor on prosecution of the case and I doubt the ability of the government to get a conviction," U. S. Attorney Davis said. "I made the move for dismissal to save the expense and trial of the case."

The Overland National bank closed its doors May 1, 1921. The federal grand jury in the fall of 1922 returned four indictments against the officials. Two of the indictments charged the three officers jointly with misapplication of funds and the making of false entries in reports to the comptroller of currency. The third was against Mr. Hitt separately and the fourth against Mr. Bicknell.

COTTONWOOD HAS NEW COP

Cottonwood Chronicle: B. C. Eller was appointed city marshal by the city fathers Monday evening to take the place of A. H. Nau, who has held the position for several years. Mr. Eller offered to do the work for less and it was for this reason that the change was made, so it is stated. Mr. Nau was drawing \$75 a month and was to receive a \$10 raise March 1. Mr. Eller will receive a salary of \$75 a month and besides doing police duty he is also expected to do other work for the city.

"MERRY GO ROUND"

The aftermath of the fall of the European nobility from its snobbish heights is pictured dramatically in "Merry Go Round," which will be shown at the Lyric theatre the latter part of March. Yet the chief interest in the picture does not center around the destinies of the nobility, but revolves about the little girl who turns the organ on the merry go round. The tense, story interest of the picture, and not the magnificent settings with which it is surrounded, is said to be responsible for the tremendous acclaim the picture has received.

TEACHERS MARRY

Cottonwood Chronicle: Clayton B. Westover, principal in the Cottonwood high school, and the popular coach of the Cottonwood basketball team, and Miss Sarah Frances Allen, primary teacher in the Cottonwood school, were married at Dayton, Wn. March 1.

Typewriter ribbons, 75 cents, at the Free Press office.

FAILING VISION

is denoted by printed matter running together and blurred letters—the eyes become incapable of encompassing what they seek to embrace. Reading becomes difficult, headaches and nausea ensue and a sort of misery possesses the whole body. All this most often results simply because the eyes are not able to focus to the normal reading distance of fourteen inches. Distant objects may be seen distinctly but when the vision suddenly reverts to some nearby subject the instantaneous focus of the eye necessary to see it distinctly refuses to operate. This is the cause of the ofttime hard-to-understand headache. Glasses are the only cure for this condition; neglect means deeper seated defects and worse vision, then eye diseases. To try and fit your own eyes from an assortment of glasses for this trouble will often result in one of the eyes losing its sense of vision; eyes are very seldom alike and need expert attention for proper preservation as age advances.

A momentary realization of your helplessness without the use of your eyes will aid you to a greater appreciation of their worth. As an essential, then, to a happy existence, give your eyes the attention their importance demands. SEE DR. JACKSON, the eye-sight specialist, office in the Smith Jewelry store, opposite the Bank of Camas Prairie, Main St., Grangeville, Idaho. 43-4

BRISBANE

(Continued from Page 1)
reject fifty million dollars worth of free advertising?

If Florida sends William Jennings Bryan to the national Democratic convention he will go at his own expense and Florida will get free of charge in all newspapers in the United States advertising that could not be bought for fifty or a hundred million dollars.

If Florida allows herself to be deceived by political gentlemen who belong to the East Coast railway, which doesn't want Mr. Bryan to go to the convention, then Florida will lose very valuable advertising.

President Coolidge asks thirteen millions for the coast guard to deal with smugglers. The authorities intercept 5 percent of the whisky now. Spending ten millions more might intercept 7 percent of it. They can't stop it. Smuggling cocaine and other drugs is a part of run running.

The questions are, what is this government going to do about it? And how long will the public be content to let things drift?

The house of representatives passed a bill for \$729,000,000 to provide funds for the postoffice and the treasury, and strikes out an item allotting \$1,500,000 to maintain an aeroplane service between New York and San Francisco.

That piece of unfortunate, petty, narrow-minded, short-sighted, false economy reminds you of the day when members of congress were defeated for reelection because they voted money "for such a nonsensical scheme as trying to send messages on telegraph wires."

That item of a million and a half for a flying service between New York and San Francisco would be the best possible investment that the country could make. We appropriate tens of millions for old-fashioned ships of the navy and their upkeep. Five millions spent on the development of the flying machine and on marksmanship in bomb dropping would make our naval collection of floating steel junk unnecessary and enable us to sink any fleet approaching this shore.

Flying ships above the water, invisible submarines below the water, will supply all the protection this country needs at sea. And every congressman that votes against American development of the flying machine votes against the welfare and safety of his country.

HELPFUL HINTS by A. Leda

Mrs. Housewife: This newspaper will publish "Helpful Hints" in this form at regular intervals. We suggest you clip this column and paste it in your recipe book.

Blueing Spots—If the blueing stains an article when washing, wash the spot in alcohol and it will disappear.

Silks—Always wash your white silk gloves, stockings, etc., in cold water. Otherwise they will turn yellow.

Salty Ham—If a salty ham is soaked in milk it will remove a great deal of the salt, as well as improve the flavor.

Culinary Success—Nearly everyone likes grated cheese on their macaroni. If one is desirous of saving labor, cut the cheese in small pieces and put them through the potato ricer.

Drying Dainty Materials—Remove dainty lawns, organdies, etc., from the line as soon as dry, as the wind will make them limp.

Starch Substitute—Borax is a very good substitute for starch. A teaspoonful of borax used to each gallon of water will stiffen curtains sufficiently yet not have the cloudy appearance given by starch.

Wall Paper Paste—A good wall paper paste can be made by using rye flour and water. Take some flour and stir in warm water, then boil and cool, stirring constantly. No exact recipe can be given for the quantity of flour to use as different flours vary in different paste-making qualities. A few drops of carbolic acid will help preserve the paste.

"Table of Baking"—Bread, 40-75; Biscuits, 10-20; Piecrusts, 30-40; Puddings, 30-60; Custards, 15-20; Cake, 30-60; Gingerbread, 20-30; Beans, 8-10; Potatoes, 30-45.

CARD OF THANKS

To the friends whose timely aid and sympathy helped so much to ease our burden in our hour of trial, we wish to express our sincere appreciation and thanks. We can never forget their great service when we were forced to give up our beloved husband and father.

Mrs. Lucy Kirkham,
Earl Kirkham,
Lee Kirkham.

CARD OF THANKS

We gratefully acknowledge our thanks to the many friends for their kind deeds and loving sympathy in our recent bereavement in the loss of our beloved wife, mother and sister. Also for the beautiful floral offerings.

TANLAC FINEST TONIC FOR ELDERLY PEOPLE

H. Munich Tells of Recovery
from Run-Down Condition,
Was as Weak as Baby;
Tanlac Restored Strength.

Tanlac is the finest tonic on earth for elderly people and I'll bet I have recommended it to a hundred of my friends," is the characteristic statement of H. Munich, highly respected citizen of San Francisco, residing at the Fairfax hotel, 3900 Third. "Sometime ago a severe cold left me in an awfully run down, weakened condition. My appetite was knocked out completely, there was hardly a thing that I could eat and I was not only considerably off in weight, but I came near being as weak as a baby.

"Well, if anything builds up old folks and makes them feel young again, Tanlac sure does. It gave me such a rousing appetite I can hardly eat enough to satisfy me and I have gained seventeen pounds. My strength has also come back and I'm so hale and hearty that I feel like working all the time. Tanlac beats anything I ever saw."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Take Tanlac Vegetable Pills.

RUDOLPH SCHROEDER IS BADLY INJURED

Cottonwood Chronicle—Rudolph Schroeder received a broken arm, broken ribs, ligaments torn from his shoulder and several nasty gashes on the face as a result of his four horse team becoming unmanageable and throwing him from the seat of his wagon on Main street near the Cottonwood garage, Thursday.

Mr. Schroeder was driving his team down Main street when a truck belonging to the Lewiston Transfer company came down King street at which one of the horses became frightened and started the other horses on the run. As the horses came to the turning post on the intersection of Main street and King street the leaders started up King street and the wheels drove down Main street. The leaders broke loose from the outfit and ran very swiftly up King street running through the Hatrup back yard and on toward the John Hoene home where they were stopped by Ben Albers and John Hoene.

The wheelers, with the wagon, ran down the street, the wagon swaying from one side to the other threw Mr. Schroeder and Orville Uhl, his companion, with the seat from the wagon with terrific force. As Mr. Schroeder hit the ground the front wheel hit him slightly and as the wagon again swayed the right hind wheel passed over his arm and shoulder.

He was taken to the office of Dr. Orr where he was given medical attention by Drs. Orr and Shinnick.

While Mr. Schroeder was in great pain he exhibited steel nerve and is

getting along as well as could be expected.

Mr. Uhl received a severe shaking up and a large bump on the head and for several minutes after the accident he said he could see black spots before his eyes.

Rudolph Schroeder is a son of County Commissioner and Mrs. August Schroeder.

For Sale—Alaska peas, 4 cents a pound, delivered in Grangeville in 500 pound lots or more. P. E. Sherwin, Grangeville. 42-3*

For Sale—or trade for hogs, wheat and headless barley. Inquire of A. C. McCoy, Canfield, Ida. 41-4

Recovery From Influenza
Hastened by

PE-RU-NA

Mr. C. A. Allen, R. R. No. 2, Bondurant, Iowa, gives testimony to the healing power of Pe-ru-na. Influenza left him much run down in health with catarrh of the nose, throat and bronchial tubes punctuated with attacks of asthma. He writes:

"While recovering from the influenza I was so weak I could not gain any strength for two months. The latter part of the winter, I bought six bottles of Pe-ru-na and began taking it. My weight increased to 175 pounds, the most I ever weighed.

My usual winter weight is 155. If you can use this letter for any good, you are perfectly welcome."

Such evidence cannot fail to convince the rankest unbeliever of the merits of Pe-ru-na.

Insist upon having the old and original remedy for catarrhal conditions.
