**ANNEXATION OF CUBA.**

The democrats have been rather sharp in their criticisms of the late utterances of Senator Beveridge on the annexation of Cuba, but the precedent for annexation in instances like the present is of democratic origin. It came in the annexation of Cuba to the Union. This has been cited in congress. In the spring of 1902, Senator Elkins introduced in the senate a resolution styled after the resolution proposing the admission of Texas into the Union and in the discussion of his resolution recently said:

"I then predicted what has happened, and in order to protect order, peace and protection in the interest of the Cuban people I said Cuba should be annexed. From the time of Jefferson until now the annexation of Cuba has been favored by many leading American statesmen."

There was no more occasion to annex Texas at the time that independent government was taken into the Union than there is now to annex Cuba. But our hands are now tied by the Teller amendment and nothing more can be done until the people of the island confess their incapacity and ask for admission.

**A DISRUPTED DEMOCRACY.**

The rupture in the democratic party in Ada county is only what has been predicted for the whole democratic party in Idaho, which will sooner or later rise to repudiate Senator Dubois and the issues he seeks to raise. Democracy has been lost sight of in the interests of the candidacy of Senator Dubois for re-election. Old-time leaders are estranged and there are evidences everywhere of open disruption. The domination of Dubois is galling to the old-line democrats, and his signal defeat at the coming election will purge the party of his leadership. This is the attitude they are assuming, and the situation may develop into an open warfare with democrats going on the stump against the ticket. Democracy in Idaho, in the apt words of Colonel Watterson, is marching through a slaughter house to an open grave.

**Peck Roller Mills Resume.**

PECK, Idaho, Oct. 10.—The Peck roller mills are now grinding flour. The work of installing the big engine was completed Wednesday and when fires were built in the furnaces and the boilers filled with steam the engineer turned the whistle loose, its loud, shrill voice marking another step in the progress of the manufacturing interest of the town, says the Peck Sun.

WILL WED.—Marriage licenses were issued today to David G. Tucker and Minnie Parebsted, both of Joseph, Ore.; Peter F. Klaus and Mae J. Aldrich, both of Mohler; William Riggers and Elizabeth Oelschlager, both of Gifford.

TAKEN TO OROFINO.—P. McEwan, adjudged insane in Justice Hanlon's court, was taken to Orofino today by Deputy Sheriff W. E. Moore. McEwan was formerly an employe of the Rainey Lumber Co. at Nez Perce.

**Consistency of Idaho Democrats.**

Nampa Leader-Herald.  
 The sole important issue of the Dubois democracy for the campaign of 1906, is warfare on Mormonism and to this end the democratic state convention unseated Mormon delegates because they were Mormons, and made the Mormon issue the chief issue, yet Canyon county democracy, endorsing Duboisism and his Mormon plank, at its county convention, held at Nampa the 20th of last month, nominated a Mormon, J. G. Maughm, for the office of county attorney. It would seem to the uninitiated that Idaho democracy is hardly living up to its professed principles and platform.

**THINK IT OVER.**

Mr. Bryan thinks that tainted money is a bad thing for schools and colleges, but a good thing to run the government with.

With the weather man responding to his responsibility so handsomely, the further success of the fair is up to you. Don't put it on the management.

It has been suggested that Hearst is running on a double decked platform, doing the lightning change act with an elevator.

This is Derby day. Watch the crowds grow.

A California congressman has resigned, which is remarkable except from the fact that he is a nominee for governor on the republican ticket and sure of election.

The politician is up against a hard proposition in trying to campaign against the attractions of the fair.

Cuba is still flying the banner of distress, just as we were supposing that everything had been settled.

This is a good time of year to handle some of that elastic currency that the government talks about.

The pies like your mother used to make are the ones that did not come to the fair.

It is the money that is kept in circulation that tones up the financial system.

Bryan might go down to Texas and help Bailey fight the octopus. There is more danger there than in Kansas.

Bid skiddoo to trouble and care and go to the races. Tomorrow is Lewiston day.

Couldn't Mr. Pence et al. be consoled with the thought that Dubois is also as good a democrat as ever he was?

Political pies and Thanksgiving turkeys will be getting ripe about the same time.

**Potted Plants.**

Prizes for potted plants were awarded as follows:

Best floral display—First prize—(Division "S" Vineland products)—Mrs. F. E. Nuss and Mrs. David Gorcey shared the honors.

Best flowering plant—Mrs. S. G. Goheen, Clarkston; a red geranium won the prize.

Best ornamental plant—Mrs. Peter Hendricks, a palm winning the prize.

Best collection of potted plants (no less than 10 in any collection)—First prize, Mrs. C. B. Nelson, Lewiston; second prize, Mrs. N. O. Cox, Lewiston.

Professional exhibit—Potted plants—Mrs. S. Nuss of Clarkston.

**MAKE CONTRIBUTIONS.**

The banks and commercial institutions of the city are this morning contributing very freely to the fund for the support of the high school football team. The team is necessarily under a great expense by bringing the Couer d'Alene high school team to the city during fair week.

GET THE HABIT Its Reasonable That You Should, Isn't It

Top notch cloth from the splendid tailor shop of H. S. & M. and Stein-Bloch

You can't match 'em anywhere, we think. Take every good tall about our suits and compare 'em and you'll find that in more ways than one these two lines are superior to any other. Compare 'em like this: Look for the most stylish patterns. We show double twice what you'll find elsewhere. Take particular notice of the shoulders, do they have that athletic build to 'em or the snap to 'em like ours have? Are the linings the kind that wear? And the collars, the button holes, the stitchings and all those things that make good clothes, are they in your old suit? We'll take it for granted that small details make perfection in good clothes. We know we have it. Fifty-two years of knowing how has made our \$15 to \$30 Suits above comparison. Others at \$10 and \$12.50 that are world beaters for value. We want you to know it; also wear 'em once. They'll please you afterwards.
