THIRTY-FIRST YEAR—NO. 136.

LEWISTON, IDAHO, SATURDAY, JUNE 22, 1907.

CRAZY BARBER RUNS AMUCK

**Shoots Up Chair Car on
Rock Island Killing One
Wounding Others**

DENVER, June 22.—There was a shooting affray on the chair car of the west-bound passenger on the Chicago, Rock Island & Pacific railroad last night between Dresden and Selden, in which T. B. Topp, a tailor of Minneapolis, was killed and Mrs. Morris Oleson and her sister, Mrs. Harry Blakesley, of Arriba, Colorado, were wounded.

The shooting was done by an Italian barber named John Bells, of Boston, en route to San Francisco, who ran amuck. After most people were dozing in their chairs they were awakened from their slumber by frantic yells and pistol shots.

Bells fired five shots in rapid succession, taking accurate aim at one passenger after another. People fled from the car in a panic, except Charles A. Gilliat, of Denver, an employee of the Griffin Wheel Co., and D. R. Slawson, of Pueblo, Colo. Gilliat closed in with Bells and in a desperate struggle succeeded in wrenching the pistol from the Italian's hand, but not before he had fired two shots which did not hit anybody.

Bells then drew a razor and made a desperate but ineffectual effort to use it. A negro porter from the tourist car here joined in the struggle and succeeded in knocking the razor out of Bells' hand, who was then seized and bound by Gilliat.

The train crew stayed outside the car while the disturbance was in progress.

At Goodland the injured women were placed in the hospital, and Bells and his companion, Patsy Logansbradt, were locked in jail. Mrs. Bells said the men were drinking all day yesterday and Bells went to sleep and awoke with a start, imagined some one was trying to rob him and rushed up the aisle firing his pistol.

WILL CANCEL LAND PATENTS

PORTLAND, Ore., June 22.—The Oregonian said today that seeking to cancel six coal land claims in Lewis county, Washington, 40 miles east of Chehalis, patented to Portland men, the government yesterday filed suit in the United States circuit court at Tacoma, charging that the patents were secured by fraud.

The government alleges that E. E. Lytle, William Crooks, Joel M. Long and A. L. Mohler and others "entered into conspiracy to defraud the government out of the title to the aforesaid lands," and that they, "believing said land to contain large and valuable deposits of coal, procured and obtained certain persons to make filings thereon."

The lands in question were patented in 1903 to stockholders of the Portland Coal and Coke company, composed of nearly 50 men, nearly all of Portland. This company, the government alleges, is a "subsidiary of the O. R. & N.," meaning that it exists for the purpose of passing the land from the patentees to the O. R. & N. for whom it is charged the coal project has been promoted.

The Oregonian says that the complaint charges that the defendants had filed on 17 other claims, but these latter had been held up in the general land office.

Hyde-McGuire Wedding.
WINCHESTER, Va., June 22.—Christ church, this city, was the scene of a society wedding of note today, when Miss Lella Moss McGuire, daughter of Dr. William P. McGuire, became the bride of Lewis Livingston Hyde of New York. The ceremony was attended by guests from several states.

The bride is related to many prominent Virginia families and is a niece of Henry St. George Tucker, president of the Jamestown exposition. Mr. Hyde is a prominent lawyer and clubman of New York. The couple will spend the autumn and winter in Europe, and on their return will live in New York.

STRIKERS NOT DEMONSTRATIVE

**Companies Refuse to Confer
Are Bringing In Strike
Breakers**

SAN FRANCISCO, June 22.—The situation in connection with the strike of operators is quiet.

A conservative estimate of the number of men out is 200. The service is maintained in the offices of both companies by the officials, together with one or two men and women who remained loyal.

Superintendent Jaynes, of the Western Union, is accredited with the statement that the company hopes to be running fairly well in another week. It was learned last night that 15 operators for the Western Union were on their way from the East and had passed Rawlins, Wyoming. It is believed that others will follow.

Whether the strike will extend to other cities is undetermined. The companies will not hold conferences with the officials of the union and this may lead to calling a strike in other centers.

Superintendent May, of the Western Union, said today the company anticipated a strike and has between 50 and 60 men at work. A speedy increase of the number of men at work is anticipated. The company refuses to recognize the union in any manner whatever.

Superintendent Storer, of the Postal Telegraph company, said today that they were tiding over the trouble very well considering the circumstances, and had nearly one-third of their former force on duty.

Strike Breakers Are En Route.
OGDEN, Utah, June 22.—Two carloads of telegraph operators from Baltimore and Philadelphia in charge of five Pinkerton detectives passed through Ogden today for San Francisco to take the places of the strikers.

SUMMER SCHOOL FOR THE FARMER

MOSCOW, June 22.—The summer school connected with the College of Agriculture at Moscow opened Tuesday of this week. The program for the coming week of the school is as follows:

Monday, June 24.—The dairy cow; nursery methods and selecting beef; veterinary medicine; testing milk and cream.

Tuesday, June 25.—Dairy breeds; planting the orchards; veterinary dentistry; adulteration of milk; stock judging.

Wednesday, June 26.—Dairy breeds; care of orchard; diseases of alimentary canal; care of milk and cream on the farm; stock judging.

Thursday, June 27.—Dairy demonstration; no school work, 10 to 12 periods; fungus diseases; pruning bearing trees.

Friday, June 28.—The hog industry; cultivation and cover products; diseases of the respiratory organs; insects; care of milk and cream in the creamery.

All of the creamery work will be done in the fine new plant just installed in Morrill hall, while the stock judging will be done on the experimental farm.

The school will be of special benefit to farmers who wish to keep in touch with the solution of modern farm problems so as to make their farm produce the greatest possible returns. Young men who want to get the best methods of keeping flocks and herds, soil cultivation and intelligent farm management. Boys who feel the need of special work for entrance into the fall classes of the university. Teachers in farming communities who desire to make their classwork more successful by the introduction of nature study and elementary agriculture.

There will be a course of lectures on poultry raising and a still more complete course in veterinary science, which will continue for three weeks or more. The creamery will be ready for practical demonstrations and work in actual creamery practice will be arranged for the farmer who expects to make his own butter as well as those who contemplate operating creameries.

NEWS FORECAST COMING WEEK

**Peace Conference Will Divide
Space with Commence-
ment Colleges**

WASHINGTON, D. C., June 22.—During the coming week the International Peace congress, having completed its preliminary work and being ready to take up the more serious business at hand, will continue to attract a large share of the world's attention to The Hague.

The case of Judge Loving, charged with the murder of Theodore Estes, a case that has already attracted much attention, will be called for trial Monday at Houston, Va.

The week will witness the annual commencement exercises at Yale, Harvard and other of the big New England colleges. A similar event of interest to another section of the country will be the semi-centennial celebration of the University of the South, the historic institution at Sewanee, Tenn.

President Roosevelt is expected to attend the intercollegiate boat races at Poughkeepsie next Wednesday, in which the crews of Cornell, Columbia, Wisconsin, Pennsylvania, Georgetown, Syracuse and Annapolis Naval academy will take part.

Oxford university, on Wednesday, will confer honorary degrees on Mark Twain, Ambassador Reid, Rudyard Kipling and several other notables.

An event of interest to golf players throughout the country will be the annual open championship tournament of the United States Golf association, which will be contested Thursday and Friday at the Hinsdale club, near Chicago.

The same day will also witness the annual races between the crews of Harvard and Yale at New London, Conn.

A three-days' conference is to open in New Orleans Thursday for the purpose of giving definite shape to the movement inaugurated by the Progressive union of that city to hold a bi-oceanic exposition to celebrate the opening of the Panama canal in 1915.

Important questions are scheduled for discussion at the 10th annual convention of the Federation of American Zionists, which is to begin its sessions Friday at Tannersville, N. Y.

Saturday will be inauguration day in Georgia, when Hoke Smith will formally assume the governorship in succession to Joseph M. Terrell.

TELEPHONE PLANS FOR MINIDOKA

BOISE, June 22.—The government is planning to put in on the Minidoka project new telephone lines to the extent of 39 miles, a great deal of the material for which is now on the ground, and for the construction of which bids are being called for, says the Rupert Record.

It is the hope of the officials here that by this time next week work on the construction will be actually going on. The design is to so construct these lines that all the main and principal laterals will be coupled up with central at the offices here, and with this end in view they will be extended out in almost every direction from Rupert, either following or reaching to all the main laterals on the project.

On the south side, three stations will be put in; one at the upper end of the canal, one at the lower end and one at a point nearly the center, just south of and opposite the Montgomery ferry.

Of the poles secured from Sand Point, in the north part of the state, two carloads have already arrived, leaving two more to come. They are shipped in by way of Montana over the O. R. & N. and Utah Northern to Pocatello, thence to Rupert. The poles will be set 25 to the mile. Wire for the lines is now on the way, a portion of the instruments and the insulators and brackets are here and the rest of the instruments will be here in due time.

When this system is completed the government will have its irrigation works so complete in hand that the chances for damaging breaks in the canals will be minimized to the lowest degree, a condition that all will greet with hearty welcome.

Colorado Springs.—Anna Frizel, aged five years, met a most horrible death last night by being bitten by a rattlesnake.

SEMI-CENTENNIAL AND JUBILEE

**University of South Cele-
brates Golden Anniver-
sary Great Fete**

SEWANEE, Tenn., June 22.—Special trains from Atlanta, New Orleans, Memphis and other points are bringing large parties of alumni to attend the semi-centennial celebration of the University of the South. The jubilee is to be celebrated during the coming week, in connection with the annual commencement exercises.

The exercises will be formally opened tomorrow when the students, faculty and visitors will gather in St. Augustine's chapel to listen to the semi-centennial sermon, to be preached by Bishop Sessums of Louisiana. In the afternoon memorial exercises will be held at the historic corner stone of the university and will be participated in by many notables.

The event of Monday will be the laying of the new corner stone for the new home of the Phi Delta Theta, which is to be the finest fraternity house in the South. Tuesday the graduating exercises of the senior class will be held. Wednesday will be observed as alumni day. The semi-centennial exercises will be held Thursday, when addresses will be delivered by Governor Patterson, President Ira Remsen of Johns Hopkins university, Chancellor Kirkland of Vanderbilt university and others.

The University of the South was founded in 1857 by Southern leaders of the time, who saw the need for a great institution of its kind in the South. The university was completed at the time of the Civil war, when it became a camp for soldiers, and before the war ended the college was completely destroyed.

Immediately after the war a log house was erected, and, with nine students, the building of a great college for the South was resumed. Today it has many fine stone buildings, situated in the midst of a beautiful park of 8,000 acres. In recent years the college has been the recipient of large donations from several philanthropists, among the donors being J. Pierpont Morgan and Andrew Carnegie.

ASK GRANGEVILLE TO MAKE EXHIBIT

The people of Grangeville and Camas prairie will be asked to supply an exhibit of their products for the Lewiston Commercial club rooms by Secretary R. C. Rohrabacher, who left this afternoon for Grangeville.

It is believed such an exhibit would be of material value to the sections represented as many people will view the exhibit and thereby become interested in the country who otherwise would not know of the wonderful resources of the rich country occupying the highlands between the Clearwater and Snake rivers.

It is the purpose of those interested in the movement to make the exhibit most representative of the entire upper country.

There will be a complete exhibit of the agricultural and horticultural products; showing the excellent grains and grasses; the hardy winter fruits particularly adapted to the Camas prairie country and the excellent quality of vegetable products grown there. There will also be views of the wonderful water power of the Clearwater and Salmon rivers fully shown.

The proposition will be taken up with the Grangeville business men with the view of arousing an interest there in the collection of such an exhibit. It is the purpose of Mr. Rohrabacher to have the display properly labeled, showing the part of the country each product belongs.

New York.—Representatives of the big foreign shipping companies, accused of conspiracy in restraint of trade, deny the charges and state that they play a most prominent part in the prosecution.

Butte.—A Billings dispatch states that homeseekers by the hundreds are arriving there to participate in the drawing for land in the Hundley irrigation project. The opening will take place June 24.

FARMERS HAUL TO NEW TOWNS

**Save Money By Delivery to
Warehouses on the
New Line**

Special to Evening Teller.

VOLLMER, June 22.—The work of laying the cement foundations for the Northern Pacific bridge across Lawyer's canyon has been commenced with a large force and will be completed before the railroad is completed to this point in the fall. The excavations for the piers were completed last fall, but the cement work was postponed until after the dry season of summer set in.

The grain warehouses of the Vollmer-Clearwater Grain company are receiving last year's wheat at the rate of 30 loads a day. This company has completed two large warehouses 250x50 feet, and a large house is now under course of construction for the Kettenbach company.

All of the work now being performed, from the erection of a freight-house for the railroad company to the delivery of grain, points to the early completion of the road and the material relief afforded a country rich in resources, but embarrassed for a period of years by the absence of transportation.

Farmers of the prairie section have paid from 25 cents to 35 cents per sack for the delivery of grain to the railroad at Culesac, and under these circumstances an average of 50 per cent of the crop remained in the farmers' warehouses until the good roads of summer allowed the delivery to be again resumed. It is this part of the crop that is now being delivered to the Vollmer warehouses, and the delivery expenses for the prairie country will not exceed an average cost of 5 cents per sack.

MEMORIAL TO THOS. F. BAYARD

WILMINGTON, Del., June 22.—A bronze statue of Thomas F. Bayard, former United States senator, former secretary of state and first ambassador of the United States to the court of St. James, was unveiled today with interesting but modest ceremonies. Ex-President Grover Cleveland, in whose first cabinet Mr. Bayard was secretary of state and who appointed him ambassador to Great Britain, delivered the oration.

The statue is located at Woodlawn and Shalcross avenues, at the entrance to Rockford park, and it was here that the ceremonies of the day were held, in the presence of a large gathering that included state and city officials and other invited guests.

The absence of ex-President Cleveland, who was ill, was the cause of great regret. He was to have delivered the principal address. In his absence his address was read by John Bassett Moore, of Columbia university. Judge George Gray, of the United States circuit court, delivered an interesting address. His widow drew the cord which released the draping.

The memorial statue was modeled by Miss Effie Stillman (now Mrs. William Ritchie, of London, and was cast at a bronze foundry in England. It is about seven feet in height, and represents Mr. Bayard in a characteristic pose, with a cloak thrown over one arm and a roll of paper in the other hand.

MINERS CHANGE CONSTITUTION

DENVER, June 22.—The convention of the Western Federation of Miners today practically agreed upon the constitutional amendment providing a referendum vote by any local union before a strike is called, two-thirds of those voting to answer in the affirmative.

Under the present system a strike may be ordered by any union when three-fourths of its resident members vote in favor of it and this action is ratified by the executive board. General other minor amendments to the constitution were adopted.

PERFECT PLANS FOR CELEBRATION

**Cottonwood Has Fine Pro-
gramme to Offer on
4th of July**

Special to Evening Teller.

COTTONWOOD, Ida., June 21.—Committees on arrangements for the celebration of the Fourth of July report excellent programs arranged, a large number of entries of the best horses on Camas and Nezperce prairie for the racing events, and the assurance that all visitors to Cottonwood during the celebration days will be supplied with accommodations and at reasonable rates.

It is the purpose of the Cottonwood citizens to entertain the people of both prairies and in such a manner that all will be glad of having chosen this place to celebrate. The subscriptions of the people have been most liberal, and the distribution of the money has been such that all will find a feature of the elaborate program that is particularly entertaining to them, and the amounts of prizes are sufficient to insure the best events.

The music will be supplied by the two Cottonwood organizations, the ball teams will contest for a purse of \$100 each day, all sporting events are provided liberal prizes, and the horse racing will be the best ever witnessed in the prairie country.

BRADLEY WILL SEND DEPOSITION

SAN FRANCISCO, Cal., June 22.—Attorney Samuel M. Shortridge, of this city, was engaged yesterday in taking the deposition of F. W. Bradley, the former superintendent of the Bunker Hill and Sullivan mine, who, it is alleged, was run out of the Couer d'Alenes by members of the Western Federation of Miners, during the labor troubles of several years ago. Mr. Bradley was an occupant of the flat at No. 1404 Washington street in this city when Harry Orchard made the alleged attempt to blow him up with a bomb. Mr. Bradley's deposition will be used by the defense in the Haywood trial at Boise. Mr. Bradley's version of the explosion is that it was caused by gas.

Under direct examination by Mr. Shortridge he testified yesterday that his cigar apparently ignited a quantity of escaped illuminating gas as he descended to the front hall from his apartment on the third floor. The explosion was of such force that it wrecked the front part of the house. Mr. Bradley was hurled into the street and badly injured. In his testimony at Boise Harry Orchard has declared the explosion was the result of the setting off of a bomb placed by him under the front porch with the object of killing Bradley.

The cross examination of Mr. Bradley was conducted by Attorney Vandayn for the state of Idaho.

RABOIN ET. AL. ARE DISCHARGED

The case of the State of Idaho vs. Edward Raboin et al., charged with malicious destruction of property, was dismissed today in Probate Judge Hanlon's court upon motion of County Attorney Needham, who was prosecuting the case.

Raboin and associates were arrested for the specific charge of destroying buildings and improvements upon a piece of property held by Joseph Ziver by a patent from the commissioner of the general land office, but claimed by the Indian department as an Indian reserve.

The case has aroused much interest in Lewiston and the reservation country on account of the real contention being between the two departments of the government.

County Attorney Needham appeared in court today and asked for a dismissal of the case for cause.

Kiel.—Emperor William won the yacht race yesterday by better than three minutes with his American built yacht Meteor.
