Following data recorded at local office United States weather bureau at 3:30 o'clock this afternoon:
Maximum temperature, 58; minimum temperature, 44; mean temperature, 51; precipitation, none.
W. W. THOMAS,
Official in Charge.

BANKS AND THE PANIC.

For every bank that failed another has been organized to take its place, or the crippled institution has been reorganized with new capital and new management, which promises to evade the pitfalls which led to the recent panic and the wrecking of weakened institutions. This shows that there is capital in plenty and real need for such forms of investment. The country was not overstocked with banks any more than it was overstocked with products from its factories and mills. This has been cited as the saving clause in the survey of revival conditions.

Business is moving on conservatively, but it is moving on, and the progress is gradually removing all bad effects of the recent flurry, and further, it is emphasizing the good effects in the way of safety in banking methods. The wildcat banker with his get-rich-quick methods will not be countenanced in the near future.

BOTH ARE TRUST BUSTERS.

If the fight next November for the presidency shall actually simmer down to Bryan and Taft, what will the great corporations, the great trusts, the great capitalists and combined money powers do? They will know, of course, that Taft will carry on the policy of President Roosevelt—and that policy is antagonistic to every interest named. On the other hand, they know that if Mr. Bryan is successful he has already committed himself to many of the most pronounced doctrines of President Roosevelt—although Bryan claims that Roosevelt has "adopted" them bodily from Bryanism. Under such circumstances, the powers that have usually controlled presidential elections in the past will likely take to the woods and let Taft and Bryan fight it out before the people.—Seattle Times.

Having received the huddle, it will be easy for Schmitz and Ruel to furnish the ball.

The Light That's Bright

Under the glittering light of the electric lamp every thing is seen at its best. A poorly-furnished house becomes bright and cheerful in appearance with the introduction of electric light. The dark and dingy store once avoided by shoppers, quickly changes its character and becomes a busy mart of trade under the radiant brilliance of Electric Illumination.

Call at Electric Light Office

Think It Over

The Brownsville affair now seems to be a closed incident, especially so to Senator Joseph Foraker of Ohio, whose standing on the question consists chiefly in his sitting down.

Nature is a great banker. Although she has failed not only once but many times, the investor never hesitates to take another risk.

Getting back to democratic principles in Idaho would take the party so far Grover Cleveland-ward that it could not be in the Bryan column.

The busy bee is not in it with the official bee when it comes to working overtime.

The Ideal Education.

The Methodist church was well filled last evening when Dr. L. W. Riley, president of the McMinnville college, spoke on "The Ideal Education." The ideal education considers a threefold development, physical, mental and spiritual. Our public and state educational institutions are well equipped to provide for the first two, physical and mental, but unfortunately our educational laws will not permit of any emphasis on the religious or spiritual development. Dr. Riley dwelt on the importance of this latter aspect of an ideal education, and made a strong plea for the support of denominational colleges.

Mr. James Edmunds will preach tonight, using as his subject, "Why Did Eve Eat the Apple?"

Call for Bids.

The council of the City of Lewiston, Idaho, will receive sealed bids up to 8 o'clock p. m., March 17, 1908, for furnishing two vertical shaft centrifugal pumps, belt driven by electric motors, the capacity of each pump to be not less than 1200 gallons per minute against an 18 foot lift, four elbows and about 50 feet of discharge pipe to be 7 inches in diameter; together with all necessary appurtenances for complete installation.

Two 14 H. P. 60 cycle induction 440 volt motors, equal to General electric motors, with starting boxes. Successful bidder shall furnish complete plans for installation.

A certified check for 5 per cent of the amount bid, payable to the City of Lewiston, must accompany each bid.

The right to reject any and all bids is reserved.

Dated March 11, 1908.

JOHN E. NICKERSON, Clerk.
D. Mch 11-5t

Coming Events

Every afternoon at 3 o'clock and every evening, commencing at 7:30, there will be entertainments at the Pastime family theater in the Weisgerber block. Entrance on Fifth street.

Every evening commencing at 7:30 o'clock, there will be entertainments at the Pastime family theater. Matinees every Saturday at 2:30.

A meeting of the Commandry will be held at the Temple lodge rooms Thursday evening.

The Ladies' guild of the Episcopal church will meet Wednesday afternoon at the home of Mrs. C. V. Truscott, 320 Fourth street.

The Lutheran Ladies' Aid society will meet with Mrs. Berg Thursday afternoon at 1011 Main street.

The "Buster Brown" musical comedy will be the next attraction at the Temple theater. It is booked for Tuesday, March 17.

There will be a meeting of the Blue lodge at the Temple lodge rooms tonight.

Northwest Inland Notes

Colfax.—William Maxwell, formerly auditor for the Potlatch Lumber company at Potlatch, Idaho, was today arraigned before Judge Chadwick and pleaded guilty to the charge of obtaining money under false pretenses. He was sentenced to serve not less than one nor more than five years in the penitentiary.

Pullman.—The Washington State college experiment station has begun early this season the war on the ground squirrels, one of the worst pests the wheat growers of the Northwest have to contend with. Dr. W. E. Ralston, assistant professor of bacteriology and pathology, is in charge of the work, and it is thought the United States government, which has been working in co-operation with the college for the last several years, will again send S. E. Piper of the department of agriculture from Washington to Pullman to assist in the work.

North Yakima.—The executive committee of the Wesley L. Jones club of North Yakima today launched a statewide campaign for the congressman. The committee opened the headquarters of the club here in a downtown building. S. J. Cameron is chairman of the committee and L. O. Meigs is secretary. Additions to the office staff will be made in a short time. In all sections of the state supporters of Congressman Jones have been secured to co-operate with the club.

Walla Walla.—The first Eastern men coming West on the colonist rates are beginning to arrive here. Several have come to the city, looked around, and in most cases gone to some of the nearby irrigated districts to look over the situation before investing. Prospects are that a large number of men will come to this section during the next two months. Secretary Moore of the Commercial club has carried on a large correspondence for months with people who expect to come West.

Walla Walla.—With about 2,000,000 grain bags to sell this year the state board of control will meet April 1 to fix the price on the product of the penitentiary jute mill. The mill is running full time and with a full complement of men, and the best season's run in its history will certainly result. The season closes about October 1, when all the districts of the Inland Empire will have about completed harvesting the crop.

North Yakima.—Alfalfa hay is a drug on the market just now. One man who had fed stock 700 tons of alfalfa by this time last year says he has only used about 75 tons up to date because of the mild winter. Alfalfa is now retailing at \$9 a ton in North Yakima, as against \$16 at this time last year.

Grain and feed stuffs are higher than at the same time last year. Wheat is \$1.50 per 100 pounds, or about the same as last year. Barley

is a little cheaper and oats, \$31, or about the same, at retail. Shorts are \$29.50, which is higher, and bran is going at \$27.50, which is an advance.

Nezperce.—The farmers of Nezperce met Saturday night to discuss the grain sack question and, after an interesting discussion, they voted to call for bids for 400,000 grain bags for use during the coming harvest.

In order to secure competition they will invite bids from all sources. The old grain companies, the merchants the independent buyers and any responsible concern will be invited to submit bids, and from this spirited rivalry the farmers expect to secure their sacks for less than 8 cents each.

Wallace.—At a meeting of the city council held last night City Attorney A. H. Conner introduced an ordinance regulating the saloons in the city. There are now 33 saloons in Wallace, and the ordinance provides that all saloons in the city must have a municipal permit and that no more than 33 saloons shall be permitted until there are more than 3300 votes cast at a general election.

Walla Walla.—A campaign for good roads, or for much better highways, at least, is being inaugurated in Walla Walla county and results will be seen yet this year. A number of prominent men have purchased automobiles within the last year, and each man becomes a booster for good roads as soon as he starts to travel over hills and hollows at the rate of 30 miles an hour. The automobile owners have assisted greatly in urging better highways and in educating public sentiment up to the necessity for improvement all over the country, as well as in the near vicinity of this city.

Walla Walla.—C. E. Dimmitt, until recently proprietor of the Golden Rule department store, has been arrested on the instigation of Spencer E. Carr on the charge of obtaining money under false pretenses. The transaction involves a loan of \$2000 made just before Mr. Dimmitt's failure. A bond of \$500 was given.

Garfield.—Garfield retains its reputation, gained several years ago, as the greatest apple shipping point in Whitman county. The shipments from this point of apples of the crop of 1907 exceed 100 carloads, which is in excess of its nearest competitor. J. E. Trimble's orchard of 100 acres furnished 30 carloads last fall. Mr. Trimble sold his apples on the trees to the Blalock Fruit company of Walla Walla. His personal shipments were 40 carloads, and those from his orchard make a total of 70, besides those shipped by other buyers.

Walla Walla.—The Washington grand lodge, Independent Order of Odd Fellows, will convene in this city in June and the city, as well as the 800 Odd Fellows who reside here, has begun to prepare for the meeting. Three Odd Fellows' lodges are located here, as well as the Odd Fellows' home, a statewide institution, which is now caring for about

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Alias Summons.

In the District Court of the Second Judicial District of the State of Idaho, in and for Nez Perce County.

Leatha Raines, plaintiff, vs. Harry Raines, defendant.
The people of the State of Idaho send greetings to Harry Raines, the defendant.

You are hereby notified that there is on file in the office of the clerk of the above named court a complaint of the said plaintiff in an action brought against you to obtain a decree absolutely dissolving the bonds of matrimony now existing between the plaintiff and defendant herein and for general relief.

The grounds upon which said judgment and decree are claimed are that for more than one year last past the defendant has wilfully failed and neglected to provide for the plaintiff the common necessities of life, and that for more than one year last past the defendant has deserted the plaintiff and lived separate and apart from her, as further appears from the complaint filed herein, which is hereby referred to for more particularly.

And you are directed to appear and answer said complaint within twenty days if this summons is served within the district within which this action is brought, and within forty days if served elsewhere.

And you are further notified that unless you so appear and answer, the plaintiff will appeal to the court for the relief demanded in said complaint.

Given under my hand and seal this 11th day of February, 1908.
(Seal) W. L. GIFFORD, Clerk.

CLARKSTON HEIGHTS

- Low Taxes
- No Saloons
- No Alkali
- Low Water Rates
- Good Roads
- Easy Grades
- Pure Mountain Water, continuous flow under pressure
- Water Piped all the way from its source delivered on every tract
- Irrigation Service same system as a city water works

Successful scientific horticulturists pronounce Clarkston Heights practically perfect in soil, in elevation, in air drainage, in safety from frosts, in slope of ground, in freedom from Alkali, in length of season, to produce highly profitable crops of choicest fruits.

Home sites on Clarkston Heights command by far the finest outlook over this most beautiful valley. Snowy mountains, miles of sparkling blue rivers, thousands of acres of picturesque orchards and vineyards, nestling homes and a busy city comprise the view. As home sites alone these choice lots will be worth in a few years many times the present prices.

The March CENTURY magazine describes the now-famous "One Acre Ranch" of Clarkston, where a thrifty couple make a good living and save money every year.

Nowhere else can you find such favorable conditions for home making.
