## Bloomington Items.

May 11, 1897.

At 10 a. m. today Mary Mar-  
tha, beloved wife of Hyrum Thor-  
nock, of this place, passed away  
from earth, into the great beyond.  
Deceased had been ill for some  
time, and finally succumbed, it is  
said, to the combined effects of the  
deadly diseases, dropsy, pneumonia,  
heart disease, and blood poisoning.  
The case is a very sad one, as this  
is the second time the young man  
has been called upon to lose a wife.  
A number of small children sur-  
vive the departed mother.

It will doubtless be gratifying to  
the many friends of Wm. Hulme  
to learn that that estimable gen-  
tleman is recovering from his  
severe illness. The indications are  
that he will be himself again in a  
few days.

Elder N. C. Nelson, Jr., left a  
week ago Monday for his mission  
to the North Western States. He  
carries with him the benedictions  
of a united community.

If we may judge from the pro-  
gram that is being prepared by the  
various associations of the stake,  
the Y. L. M. I. A. entertainment  
to be given in the Bloomington  
hall, on the evening of the 22nd  
inst., will be unquestionably the  
grandest of the kind in the history  
of the county. The local officers  
are indefatigable in their efforts to  
have it come off a triumphant suc-  
cess.

Cases of measles were reported  
in diverse parts of town; but we  
understand the malady is now sub-  
siding.

## Against the Law.

There is a law on the statute  
books of Idaho forbidding the sale  
of cigarettes to minors. Every  
day, however, we see boys of four-  
teen or fifteen, even younger than  
that, with the accursed, illsmelling  
abominations between their lips.  
Cigarettes are publicly sold to boys  
every day. The officers of the law  
certainly often see these sales and  
and beyond question must see  
young children with cigarettes in  
their mouths every hour in the  
day. Parents must certainly know  
when their children contract this  
habit. Still it goes on without the  
least apparent attempt to check it.

All educators will tell you that  
when they notice a lack of mental  
quantities or of capacities for ap-  
plication in a pupil, they can al-  
most invariably trace its beginning  
to the commencement of the cigar-  
ette habit. Nearly every day the  
newspapers note cases of degener-  
acy and insanity among children  
due to the excessive smoking of  
cigarettes. They destroy mental  
and bodily force, weaken the char-  
acter and lessen the ability to re-  
sist other temptations. In fact  
the boy who smokes cigarettes has  
never been known to become a  
useful man.

If then we have a law against  
the sale of these insidious rolls of  
bad tobacco and paper, why not  
enforce it? Why do not parents  
and officers, if there is no other  
way to prevent this evil, see that  
the law is enforced? We should  
all have interest enough in our  
boys to see that they have at least  
a chance for useful manhood and  
that in the struggle of life, which  
at best is hard enough, they are  
able to look the world in the face  
with clear minds and strong bod-  
ies.—Pocatello Tribune.

## Special Rates.

For annual conference, Young Men's  
and Young Ladies Mutual Improvement  
associations to be held in Salt Lake,  
July 17, 18 and 19, 1897, a rate of one  
fare will be made by the Short Line  
railway.  
Selling dates for this and all points in  
Idaho July 28. Continuous passage  
both ways.

## FIVE MILLS.

### THE AMOUNT VOTED FOR.

### A Long Session Held by City Council.

The mayor and all the members  
were present at the city council  
meeting Thursday evening.

The finance committee reported  
as follows: That the income of  
the city from licenses, etc., was es-  
timated at \$1227. Taking out \$10-  
40 for salaries this would leave  
\$179 available for other purposes.  
The report placed the assessed  
valuation at \$200,000 and asked  
that the council fix the levy for  
the present year. After a long  
discussion a motion to levy five  
mills was carried, Mr. Perkins  
however, thought three mills would  
be sufficient. The finance com-  
mittee were instructed to report  
accordingly.

The members of the Montpelier  
Hook and Ladder Co., No. 1 were  
presented and accepted.

The improvement committee ad-  
vised the buying of the plat of  
ground next to Steven's Implement  
Co., on Washington avenue for the  
sum of \$250. This lot has 180 ft.  
frontage. The council acted ac-  
cordingly and the city will shortly  
own a good piece of property.

The bill of M. Malone for \$33  
for ground rent, was allowed as  
was also the clerk's bill of \$5.94  
for supplies.

Mose Lewis asked for an electric  
light franchise. Referred to special  
committee composed of Perkins  
Hansen, Hammond and the mayor.

Four dollars was allowed Mr.  
Hager for nippers and badges.

The dog ordinance was referred  
to that committee with instruc-  
tions to draft a substitute chang-  
ing the license to \$3 for male dogs  
and \$5 for female dogs.

The clerk was instructed to noti-  
fy parties to put down sidewalks  
where the city had ordered them.

The road overseer suggested that  
several articles necessary for street  
work was needed and \$25 will be  
expended for that purpose.

Eleventh street came up again  
and the street committee got the  
job of figuring out how the widen-  
ing process could be done at the  
least cost.

The mayor was asked to issue a  
proclamation calling for a mass  
meeting of the citizens looking to  
the celebration of the Fourth of  
July.

During the meeting discussion  
arose as to the advisability of ap-  
propriating some money to buy a  
hook and ladder for the fire com-  
pany. Nearly all of the councilmen  
favored an appropriation of \$250  
for this purpose and the boys will  
get that sum shortly.

Council then adjourned.

Reports come from Boise tha  
Postmaster Tage is in trouble and  
his office in the hands of Inspector  
Wayland. Mr. Tage makes a gen-  
eral denial of the charges against  
him.

Two new patients were received  
at the asylum Thursday morning,  
one a female from Mount Idaho,  
and the other a male from  
Bear Lake. The male is reported  
to be the father of fifteen children.
