MONTPELIER, IDAHO, SATURDAY, MAY 31, 1902.

The Idaho Falls Register doesn't think that all the virtues of the republican party are wrapped in Joe Perrault, nor does it believe that he is entitled to a life tenure of the surveyor general's office. For party harmony and party success, it argues that a new man should be selected for the surveyor general's office, and the Register is never far wrong in looking out for its party policy.

The prompt action of Mayor Barrett and County physicians Drs. West and Poynter, in the smallpox case which developed in Montpelier this week, is commendable. No fear of the spread of the disease, is had by our people.

## The Boss Whistler.

Early last Wednesday morning the people of Montpelier were awakened by the continued whistling of the engine on passenger No. 5, at least investigation proved it to be this engine. The engine had to be "killed" before the deafening noise could be stopped.

## Hoboes at Granger.

A lot of hobos went out in Granger the other night, holding up and beating everybody they came in contact with. No less than four men were "stuck up," besides being beaten with link pins, rocks and other substances. Verily, Granger promises to be as "tuff" as ever this summer.

Those who have no care for the beauty of a healthy skin should care for it as an evidence of health. People are never really well if the skin is sallow or blemished by eruptions.
