### Could Have a Hospital.

The proposition of establishing a hospital in Montpelier, which has been agitated different times in the past, again being discussed some of the local physicians. It seems to the Examiner that there is a splendid opening for such an institution in Montpelier. Some years ago the Drs. Budge established a small hospital in Logan. For a year or two they did not do much business so we understand that today the hospital is taxed to full capacity most of the time, and there is scarcely ever a surgical case in Cache valley that goes to Salt Lake. A hospital in Montpelier would have a larger territory to draw from than the one at Logan, and there is no reason in the world why it could not be made a success. A hospital here would not only save the people of this valley and country tributary to it, hundreds of dollars every year, by keeping the money here that is spent in railroad fare to Salt Lake, but it would have a tendency to draw business to Montpelier. There is no proposition that we can think of, which is deserving of more serious consideration by the Commercial club and citizens generally than the establishment of a hospital in this city.

One hundred and three business and professional men of Pocatello have issued an address to the voters of Bannock county on the liquor question. The address is a plain, honest statement of facts, in which the signers express the belief that conditions in the Gate City will be better under well regulated saloons than they are at present. These men pledge themselves that, in the event Bannock county goes wet, they will use their influence with the city and county administrations to secure the passage of such local ordinances and regulations as will place the liquor business on a higher and better plane than it was in the past. Among the signers are a number of men who, two years ago, favored the closing of the saloons. In Canyon county a large number of the business men have formed a league and are exerting their best efforts to swing the county back into the wet column on the 6th of next month.

If anybody in Bear Lake county ever entertained the idea that Montpelier is not the commercial center of this fertile valley, they will quickly dispel that idea after a study of the figures on assessed valuations, which are published on the first page of this issue.

The difference between billboard advertising and newspaper advertising is just this—that with the first you have to go to the advertisement while in the other the advertisement goes to you. And that makes all the difference in the world with business.

When congress adjourns next week President Taft will no doubt feel like calling upon the people of the nation to join with him in singing, "Praise God from Whom All Blessings Flow."

"I was Crippled, could hardly walk and had to crawl down stairs at times on my hands and knees. My doctor told me I had an acute attack of inflammatory rheumatism. I was in the hospital for weeks, but was scarcely able to walk when I left it. I read about Dr. Miles' Nerveine

bought a bottle and began to get better from the start, and for the past six months I have had scarcely any pain and am able to walk as well as ever." J. H. SANDERS, P. O. box 5, Rockaway, N. J. Few medicines are of any benefit for rheumatism, but Mr. Sanders testifies plainly what Dr. Miles' Restorative Nerveine did for him. One ounce of salicylate of soda added to one bottle of Nerveine makes an excellent remedy for rheumatism, which is now known to be a nervous disease and therefore subject to the influence of a medicine that acts through the nerves, as does Dr. Miles' Nerveine.

Sufferers from rheumatism seldom fail to find relief in the use of Dr. Miles' Nerveine, with salicylate of soda.

Sold under a guarantee that assures the return of the price of the first bottle if it fails to benefit. At all Druggists.
