RED CROSS IS AGAIN ACTIVE
(Continued from page 1)

Cross official and an advance agent. The Republican asks that every man in Clearwater County who has, or thinks he has, a claim against the government because of his service during the war, get in touch with the local Red Cross Chapter at once, so that his claim may be filed now, and followed up by the Clean Up Squad, thus bringing it to an earlier adjustment. Mr. Frank F. Kimble, the well-known attorney of Orofino, is the newly elected Chairman of the Clearwater County Chapter, and will be glad to file any and all claims for the ex-service men, who were disabled in the war, or who are suffering from the effects of service.

What would you think of an organization that spent FOUR MILL-

ION DOLLARS MORE last year on the disabled ex-service men of this country than was received from its annual membership dues? This is the record of the AMERICAN RED CROSS, for ten million dollars was spent in taking care of the disabled veterans, and only six million was received from the Fourth Roll Call last November. The Red Cross was officially designated by the United States government as the organization best fitted by experience, equipment, and personnel, to do for the disabled veterans the personal things listed below because the government can only handle the cases in groups. This personal touch of the Red Cross is saving thousands of men, more and more of their finding, as time goes on, that old wounds have opened, that tuberculosis has developed from exposure in the trenches, or that mental troubles are the heritage of gassing and over-taxed nerves. These men are the FIRST care of the Red Cross, and in 2400 Chapters in the Country, out of 3600 active chapters, this soldier work is going on.

What the American Red Cross Does for Disabled Veterans

1. HUNTS OUT the man entitled to government benefits, but who has not availed himself of them, and puts him in the way of compensation or treatment.
2. ASSISTS in obtaining necessary affidavits or additional medical evidence from doctors, employers and others.
3. ASSISTS in keeping up insurance and in reinstating insurance.
4. EXPLAINS to the families of patients the need for hospital treatment and gives information regarding hospitals.
5. PROVIDES the patient with necessary personal equipment.
6. ARRANGES for care of the family while the man is away.
7. OBTAINS SOCIAL HISTORIES for the use of the physician in diagnosis.
8. COOPERATES WITH Red Cross hospital workers to keep the man and his family contented while the patient is in the hospital.
9. SEES THAT a man discharged from the hospital has proper living conditions.
10. OBTAINS suitable employment.
11. SEES THAT a patient returned for the man discharged from the hospital reports regularly to his physician after discharge from the hospital.
12. MAKES CERTAIN that the man has the necessary appliances prescribed by the physician.
13. FOLLOWS UP the man who leaves the hospital against medical advice.
14. EXTENDS MEDICAL AND NURSING CARE to the incurable man remaining at home.
