Every member of Cosgrove's orchestra is an artist. The different selections were highly appreciated and elicited well earned encores. Morden people often get fooled in concerts but this is one time when they would have been well satisfied had they all turned out. Morden, Manitoba, Chronicle.

Col. Thos. R. Hamer left yesterday morning for his old home in Illinois where he will join Mrs. Hamer and two daughters, one of which the Colonel has never seen. They will visit the World's Fair at St. Louis, and return home about June 1. Mrs. Hamer has been visiting at the old home since last fall.

A telephone message from Blackfoot says that the Bingham county convention in session there instructed for Judge Stevens for delegate to the National Convention from the Sixth district. As figured there, Judge Stevens has Bingham, Lemhi and Custer counties, a total of 29 delegates, against Fremont county, 23 delegates for Ben E. Rich. This does not look very promising for Fremont county's candidate.

Adjutant General Vickers visited St. Anthony and Rexburg local militia company's the first of the week for the purpose of advising them in regard to preparation for the Grand Encampment at Tacoma in July. We understand that the St. Anthony band has been made the Regimental Band and will accompany the Idaho boys on their trip to the coast. While here General and Mrs. Vickers, who accompanied him, were guests of Mr. and Mrs. L. S. Borrows.

Last week Mr. H. H. Previous to this he had ridden the range for ten days trying to find his horses. "It pays to advertise."

## PRESBYTERIANS.

Do not forget the congregational meeting at the Presbyterian church Saturday evening at 8 o'clock.

A speaker at a farmers' institute will sometimes lead his audience up to the desired point and then stop without finishing. His object is to induce the listener to go on and think the answer through because the speaker knows that in this way more good will be done. We have heard men who listened to such talk say "That man had a chance to clinch his argument, but did not do it. I can see what he was at, but he did not seem to have power enough to clinch it." That man did not see that he would have forgotten the point if the speaker had "clinched" it for him. The effort required to reason it through fixed it securely in his brain. We do not find many institute speakers who will practice this highest type of their art when it means a reputation for inability to "clinch."

MARKET LAKE, IDAHO.

It was Josh Williams who said: "My son, observe the postage stamp. Its usefulness depends upon its ability to stick to one thing until it gets there." While stick-to-itiveness is a good thing, it is sometimes over-developed with many farmers and their wives. They stick so close to the farm they finally get the idea in their heads that they cannot get away. This is a good time to pay that long-delayed visit to wife's folks or husband's mother. Do not be like a certain wealthy farmer's wife who refused to go with her husband on a few weeks' visit for fear the chickens would all disappear during her absence.
