It is understood that it is the intention of the President to reduce the clerical force of the White House, and to do away with the elaborate record of all business brought there. The Current asks: "Are the people of the United States reconciled to the idea of Mormonism? Shall they forever sit dumb and let this pestilence spread?" As far as it is a religion, yes! But as far as it affects the civil policy of the country, no! Polygamons Mormonism is a greater stench in decent nostrils today than ever before. The determination of the people to obliterate it grows stronger each day. The hour is not far distant when a patient people will prove to the world that there is a pass at which patience ceases to be a virtue. Ex.

The proceedings of the Nevada Silver Convention, held at Carson Cily, January 31st, have been published in pamphlet form, and copies distributed. It is a document of forty-six pages, and the typography reflects great credit upon State Printer Harlow. Five thousand copies will at once be put into circulation throughout the country. Cepies will be sent to every newspaper of influence in the South, West and East; to every Governor, Senator and Congressman, and into all channels where they will do the most good. Much is expected from the able paper by ex-Senator Farrell on the silver question, which fills thirteen pages of the pamphlet. The Constitution of the Nevada Silver Association is also to be found between the covers.

Pive-Cent Senators.

Although the Legislature just adourned passed what is known as "The Non-Treating" Act, it is a notorious fact that in the room of the Sergeant. at-Arms there is generally a corner where members resort to "liquor up." The Carson Appeal says the Sergeant-at-Arms of the House tells a story on three Senators, who one day approached that corner. The money drawer of the bar is locked, and the money goes in through a small slit over the box. It is not allowed to charge for liquor, but if anyone drinks, he slides his contribution to the "Mary Ann Fund" into the hole. Just before taking a vote on the "Non-Treating" bill, three pompous Senators took their whisky straight and made their contributions, and the Sergeant at-Arms thought they put in a five-dollar piece each. When he came to open the drawer, however, he was paralyzed to find that there were three Fine Blackborry Brandy at the Gem. which the three Schators contributed.

REMOVAL OF THE STATE UNIVERSITY

Denuis for the following particulars regarding the matter of the removal of the University from this place which will be of interest to our citizens generally:

ED. INDEPENDENT:-The bill authorizing the removal of the State University from Elko to Beno, has passed both Houses and will doubtless be approved by the Governor. By its provisions Elko county receives \$20,000 from Reno, and no removal can take place until such payment is made, nor until the Central Pacific Railroad Company conveys to Elko county the grounds and buildings which are to become the property of the county. In brief, before the removal, Elko must receive \$20,000 and a clean title to the University buildings and land. A bill removing the institution to

Carson, without re-irabursing Eiko to the amount of of a single dollar, was only defeated by one vote in the Senate last Friday, although the measure was opposed by one of the Senators from kind of work, considerable swapping, begging and buildozing on the part of the Liko delegation in the Senate to defeat the bill even by a single vote. There was no disguising the fact that the feeling of the Legislature was opposed to the University remaining at Elkogand it is in the wisdon of the Court having | was also evident that it was only a question of time when it would be removed, with the probability of its being done without re-imbursing Eiko for the money she had expended. It was regarded as en impounded, any swine, sheep, goat almost a certainty that the next Legislaor goals, shall just a notice that each ture would pass a removal Act, and the minal or animals are in his charge and Elko delegation concluded it was the if not taken out by the owner will be | best policy to let it go upon the most old. After the eppiration of ten days favorable terms that could be obtained for their county, rather than have it stolen from them two years hence, as

The renoval will probably not take place during the present year, and the mals have been taken up, describing the institution, satii removed, will continue ame, giving all marks or brands, if any, in operation as usual at Elko. The biand that such animal or animals will be | enial appropriation was obtained only by sold by him to pay the charges that have | the most persistent offerts upon the part and will have accrued against it and of the Elko members who finally succooled in getting it raised from \$4,700 to \$10,000 by the closest kind of a shave. Taking into consideration the feeling existing in regard to the institution throughout the State, and the strong probability of its removal by the next Legislature with at repayment to Elko county, I believe that a large majority of the people of that county will indorse the action of their representatives as wise and judicious, and for the best interest of their omstituents.
