

## THE PICCHE WEEKLY RECORD.

SATURDAY, JANUARY 11, 1879

## BULLION PRODUCT FOR 1878.

Wells, Fargo & Co. have issued their annual statement for precious metals produced in the States and Territories west of the Missouri River, including British Columbia, and receipts in San Francisco from the west coast of Mexico, during 1878, which shows aggregate products as follows:

Gold, \$38,956,231; silver, \$38,746,591; lead, \$3,452,000. Total result, \$81,154,822—being less by \$17,267,132 than for 1877.

California shows an increase in gold of \$2,068,000, but a decrease in silver, etc., of \$1,323,000—a net increase of \$745,000. Nevada shows a total falling off of \$16,393,341; the yield from the Comstock being only \$21,295,043 as against \$37,911,610 for 1877—a decrease of \$16,616,567 from that locality. The product of Eureka District is \$6,981,400 as against \$5,678,056 for 1877—an increase of \$1,303,344. Montana shows a marked increase, all in silver. Utah a falling off of over two millions, but nearly one million of it caused by the reduced valuation of silver and lead bullion. Although Colorado shows \$1,680,802 less than for 1877, the yield has been really greater, as reports to us for 1877 duplicated the product of certain localities, but the duplication was not discovered soon enough to be corrected in our statement for that year.

The production by States and Territories is as follows:

California	\$18,920,461
Nevada	\$3,181,949
Oregon	\$1,212,794
Washington	\$2,312,794
Idaho	\$1,868,232
Montana	\$9,768,540
Utah	\$6,981,400
Colorado	\$1,680,802
New Mexico	\$483,813
Arizona	\$2,287,983
Dakota	\$2,214,804
Mexico (W. Coast)	\$1,694,985
British Columbia	\$1,393,400

The production after deducting the amounts for British Columbia and the west coast of Mexico, is \$78,276,167, against \$95,811,582, in 1877.

The bullion from the Comstock Lode contained 45 per cent. gold and 55 per cent. silver. Of so-called base bullion from Nevada, 30 per cent. was gold, and of the whole product of the State, 35 per cent. was gold.

The Republican Senators of the Nevada Legislature held a caucus in the Senate Chamber on the evening of the 5th and selected the following named gentlemen as officers of that body: W. R. King, of Lyon, President pro tem.; George I. Lammon, of Storey, Secretary; Theodore S. Davenport, of Lyon, Assistant Secretary; C. C. Wallace, of Eureka, Sergeant-at-Arms; J. Morris, of Ormsby, Assistant Sergeant-at-Arms. Officers of the Assembly are: W. A. Gaston, of Storey, Speaker; Colonel U. E. Allen, of Lincoln, Speaker pro tem.; J. M. Woodworth, of Elko, Chief Clerk; C. H. Stoddard, of Washoe, Sergeant-at-Arms; Charles Kimball, Assistant Sergeant-at-Arms.

H. N. Maguire, at one time editor of the Record, and author of "The Coming Empire," a very valuable book giving a description of the Black Hills country, has again entered the newspaper arena and is now publishing a newspaper at Rockford, Dakota Territory, called the "Black Hills Central." We wish our old friend Mac the best of luck with his paper, hoping that he will soon grow great and prosper.

The New York Mining Record, one of the best mining journals published in the world, has ended its fourth volume. The Record is doing good work in exposing to the public worthless and valueless mines which scheming operators and rogues are attempting to defraud the public with by these misrepresentations. May it continue in its good work.

Another San Francisco woman has had triplets. The Reno Gazette says it's all right, of course, and commendable, but who can imagine a fellow worshipping a woman as an angel, or serenading her at the moonlit midnight hour, if he recognizes the possibility of three at a lick?

During the past fiscal year the total gross liabilities of bankrupts was \$219,387,873. Their assets amounted to \$53,800,624.99, about 24 per cent. of liabilities.

The S. F. Stock Exchange says that De Young and Pickering have quarreled the Old Year out and the New Year in for the fourteenth time.

The Virginia Enterprise, the best and greatest paper published on the Pacific Coast, has entered upon its thirty-eighth volume.

Senator Thurman refuses to allow his name to be brought forward as a candidate for the Governorship of Ohio.

## LATEST NEWS BY MAIL.

New York, January 7.

A supplement of the Panama Star and Herald, of December 28th, gives the story of an attempt at revolution on the night of the 27th. An attack was made on General Aispurn, ex-President of the State, and some friends, and that gentleman and others were wounded, and subsequently, Zengundo Pera, the newly appointed Governor of the District, while passing through the streets in charge of some policemen, endeavoring to restore order, was fired upon by parties concealed and instantly killed. The attack was made upon Cuartel outside, and two men lost their lives. The object of the revolution was to place in power a State Government which would be more in accord with the political views of General Turillo, President of the Republic. The scheme was exposed by one of its supposed friends, and in the attack friend and foe suffered alike.

The World says: To-day the last deposit of \$500 a side will be posted in the coming prize fight between John H. Clark, of Philadelphia, and Billy Edwards, the Unknown. Edwards yesterday declined to say whether Chambers was to be the unknown. The fight will be in Canada.

Jim Keene has bought the famous three-year old racers Spendthrift and Miser. The price is about \$20,000. The two horses are to come East at once. They are intended to form the nucleus of a racing stable, embracing twenty or thirty crack horses, and equal in extent and value to those of Messrs. Belmont and Lordard. Mr. Keene became a member of the Jockey Club shortly after his arrival in New York, some two years ago, and his advent in the racing turf is looked forward to with undisguised interest by members and friends in this city and elsewhere. The Herald says a preliminary meeting of Irishmen, most of whom held offices under the Federal Government, took place last evening at the Astor House, when a committee was appointed to take measures for the holding of a mass meeting at the Cooper Institute during the coming week, to protest against the insult offered to General Grant by the Council of Cork. Another meeting will be held on Wednesday.

Washington, January 7. In the Senate, to-day, a large number of petitions were presented, many being from women, asking that effect be given to the anti-polygamy laws of 1862, and others protesting against the so-called Patent Law bill, and against the transfer of the Indian Bureau to the War Department.

Bills were introduced and referred, as follows: By Mr. Booth—For the interchange of subsidiary silver coin and United States notes. By Mr. McDonald—To authorize the taxation of outstanding legal tenders. Mr. Edmunds submitted a resolution declaring that, in the judgment of the Senate, the Thirtieth, Fourteenth and Fifteenth Amendments to the Constitution of the United States have been legally ratified, and are as valid as the other parts of the Constitution; that it is the right and duty of Congress to enforce such amendments by appropriate legislation, and the duty of the Executive Department of the Government to faithfully and with diligence to enforce the same; and that it is the duty of Congress to appropriate money to that end; and instructing the Judiciary Committee to report a bill for the protection of the rights of citizens, and the punishment of infractions thereof. The resolution was laid on the table, at the request of Mr. Edmunds, to be called up hereafter.

Mr. Voorhees called up his resolution instructing the Judiciary Committee to inquire into the expediency of making the trade dollar a legal tender, and providing for its redemption into the standard silver dollar. He addressed the Senate at length, denouncing the trade dollar as fraudulent money, which, having failed in its mission abroad, had returned home to cheat the honest people of this country. The resolution was laid over.

The Supreme Court, to-day, decided the peculiar case that was argued by Senator Conkling a few weeks ago. Some years ago A. T. Stewart sold a bill of goods to an Alabama merchant who neglected to pay for them. Mr. Stewart brought suit against the merchant for obtaining goods under false pretences; and he being acquitted, turned round and sued Mr. Stewart for \$100,000 damages, for malicious prosecution. The Alabama jury gave him a verdict for \$20,000. Mr. Stewart carried the case to the Supreme Court, and while it was pending he died, leaving the judgment standing against his estate. The Supreme Court releases the judgment of the Lower Court.

London, January 7. The strike of the miners in North Yorkshire and North Derbyshire will not be near as large as anticipated. Not more than 600 will go out. A strike has begun in the wire trade at Warrington, and may assume serious proportions. The masters contend for a reduction of wages, and the workers must close, as German wire can be bought cheaper than the English can manufacture. The men say the reduction is excessive.

San Francisco, January 7. A short time ago W. N. Oasle, City Clerk of San Jose, absconded, defaulting to a small amount. A dispatch from Astoria, Oregon, reports that he was arrested there yesterday morning, whereupon he blew his brains out. S. W. Hall was arrested at Olympia, Washington Territory, yesterday, on a requisition from the Governor of Illinois, charging him with the embezzlement of seventy thousand dollars from the county of Macoupin, in that State, in 1872. His real name is said to be Geo. H. Halliday, and he has been a resident of Olympia since 1872.

Canon, January 7. A special to the Leader says: Senator Cassidy, at this morning's session, introduced a bill into the Senate to provide for the incorporation of the town of Eureka, and also a bill creating a special fund for the erection of a courthouse, and empowering the County Commissioners to proceed with the work. Both bills will undoubtedly pass the Senate.

Silver State: In Mount Rose Mining District, Paradise Mountains, a village has recently sprung into existence which can boast of having more names than any place of its size in the universe. The business men of the place call it "Spring City" and "Springville," the Postoffice Department named it "Siskron," the County Commissioners, following the example of the miners, named the precinct and township "Mount Rose," and people generally call it "Bung Eye." We are informed that a majority of the residents of the place are in favor of the name "Spring City," and in accordance with their desire Wells, Fargo & Co. have designated the place as Spring City, in their list of offices. Mount Rose, the name of the mining district and township, would be a very good name for the town, but hundreds of people prefer "Bung Eye" to any other name yet given the place.

A Colusa farmer experimented with wheat and found that it could be sprouted five times without losing its germinating powers.

The average woman is composed of 213 bones, 169 muscles and 210 hairpins.

A Chinaman, afflicted with leprosy, was bitten by a tarantula. The bug died.

A boy who was spanked said the sensation was thrilling to an extreme.

## STATE ITEMS.

Tasconora had a \$40,000 fire.

The Reno Record has again suspended. The daily yield of the Ophir mine, says the Enterprise, is 70 tons.

The Gold Hill News says work has been resumed on the old Occidental mine.

During the past year there were in Storey county 136 marriages and 35 divorces.

The rebuilding of No. 5 furnace at the Eureka Con., says the Leader is progressing nicely.

W. C. Devoy, late Superintendent of Schools in Lyon county, has been appointed Principal of the State University at Elko.

During the year 1878, says the Chronicle of Virginia City, 230 civil and criminal cases were disposed of in the First District Court.

The Sentinel of the 8th says the Richmond Company, of Eureka, shipped that morning 16 bars of bullion, valued at \$28,969.52.

A good many persons about Virginia City says the Enterprise of the 4th, are still industriously engaged in tapering off holiday "tights."

Silver State, 3d: Some 20,000 pounds of extraordinary rich ore from Silver City, Idaho, was shipped to San Francisco yesterday by N. Levy.

The Enterprise says the new Yellow Jacket shaft is now down 2100 feet. Another 100 feet will connect with the main east drift from the old works.

Virginia Chronicle: "There goes a man who has made bladders of money in the last few months." "How?" "By not buying Sierra Nevada at \$296."

Silver State, 4th: The Grand Prize Company of Tasconora shipped west yesterday by Wells, Fargo & Co's Express, fourteen bars of bullion, valued at \$24,712.45.

The Elko Independent says the preparatory department of the State University opened last Monday morning with W. C. Dovey as principal. There were thirty one pupils in attendance.

The Gold Hill News of the 31 says, H. R. Whitehill, Nevada's State Mineralogist, will settle in Gold Hill, as an attorney at law, at the expiration of his term of office, which will occur on the 6th.

Virginia Chronicle: A convict who has been confined in the Nevada State Prison for the past six years, recently wrote to the Sheriff who brought him there extending an invitation to call whenever he visited Carson, concluding the note by saying: "You will always find me at home."

Virginia Enterprise, 2d: About ten o'clock yesterday morning a quantity of giant powder exploded in the underground magazine of the Occidental Mining Company, instantly killing William M. Solomon and so badly injuring Delaware Sewell, the Superintendent, that he lived but a few hours.

Austin Reveille: The Downey Brothers furnace, at Downeyville, we understand, was to start up on the 2d inst. This will revive business in that section materially, as the shipment of bullion will give all a chance to get hold of a piece, and especially will it benefit a new camp like Downeyville, where all are poor.

Eureka Sentinel: Coroner Smith was called upon yesterday to hold an inquest on the body of Vincent Cleassey, a Frenchman, who died suddenly on Wednesday night. The evidence showed that his death was caused by hemorrhage at the base of the brain, superinduced by excessive drinking.

Ward Reflex: A woman known by the name of Fannie Taylor, died at the County Hospital, Hamilton, December 27th. A short time before dying, among other things, she stated that she was niece of Robert Bonner of the New York Ledger, which fact she had kept to herself through all the years. She has followed a calling which shall be nameless here.

Eureka Leader: The Picche United States Land Office, which was suspended September 15th, 1877, is just making its final returns. D. B. Lunsel received about \$15 worth of stamps varying in denomination from two to fifteen cents, from Mr. Hallock, who has been attending to the business of J. W. Wright, the former Receiver at that point.

The State Treasury contains at present—according to the figures supplied the Carson Appeal by State Treasurer Schooling—cash of \$713,051.58. Of this, \$702,997.11 is in coin, and \$10,054.47 in currency. The claims against the Treasury for which warrants have been issued amount to \$45,285.43. If all these were paid there would be yet a balance of exactly \$668,066.15. The State of Nevada pays annually on account of interest and sinking funds, \$51,193.36.

Carson Tribune: A miserable, childless married woman of very questionable antecedents has been found out to be the authoress of many scandals concerning respectable young ladies. The vile wretch is, to use the common phrase, spotted, and the sooner she leaves Carson the better for her and her other half. Surely there is nothing so despicable as a low bred scandal monger. The woman who would, without cause, attempt the defamation of a virtuous girl, should be made an example of such as would cause her kind to recollect what womanhood means.

## Died.

At Carson City, Nevada, January 7th, Robert L. Wash, a native of West Virginia, aged 47 years.

## NEW TO-DAY.

STORE.

## NOTICE.

ALL PERSONS INDEBTED TO THIS FIRM are requested to call and settle their accounts at once as collection of outstanding indebtedness will be enforced. Memory becomes short after goods are received. Pay and save costs. We mean what we say.

J. W. FEW, Secretary.

Raymond & Ely Mining Company.—Location of principal place of business, San Francisco, California; location of works, Ely Mining District, Lincoln County, Nevada.

Notice is hereby given that at a meeting of the Board of Directors, held on the seventh (7th) day of January, 1879, an assessment (No. 10) of One Dollar (\$1) per share was levied upon the capital stock of the corporation, payable immediately, in United States gold coin, to the Secretary, at the office of the company, room 17, No. 310 Pine street, San Francisco, California.

Any stock upon which this assessment shall remain unpaid on the Twelfth day of February, 1879, will be delinquent, and advertised for sale at public auction, and unless payment is made before, will be sold on Monday, the tenth (10th) day of March, 1879, to pay the delinquent assessment, together with the costs of advertising and expenses of sale.

By order of the Board of Directors  
J. W. FEW, Secretary.  
Office—Room 17, 310 Pine street, San Francisco, California. Jan-14
