The cold snap of last week resulted in a shut down of Roe's small copper furnace at Bristol last Thursday. During the night the water pipes froze and the tuyeres melted allowing the heat to penetrate behind the lining of firebrick, burning the furnace out. Nearly two-thirds of the ore on hand had been run through and a carload of copper bullion is ready for shipment.

Last night about 11 o'clock in Edward's saloon Toney Jacobson and James Giles had a slight alterestion over a game of cards. when Jacobson pulled a pistol and began to shoot. The first was a premature shot, the ball entering the floor. Bystanders then jumped in and a second shot also struck the floor. The affair created considerable excitement at the time. Thus far no arrests are reported in the matter.

The machinery at the Condor mill was put in operation last Friday evening and premises and who will shortly begin brew continued until about two c'clock the following morning when the intense cold froze the proved and next summer will make a better creek solid and no water could be obtained. The machinery was stopped and all pipes cleared without accident, and as soon as the weather moderates in this regard, a permanent start on ore will be made.

He and Pat Ryan have been working there recently, a short distance west of their discovery point and the indications for pay ore are said to be first class. This property adjoins the April Fool claim on the south and is regarded as good ground though but little work has been done on it

Monday night was the coldest of the season, the observatory showing 11 1-2 degrees below zero. It was destructive to animal life about town, two calves belonging to Peter Lynch being frozen, while a number of dead rabbits were found on the trail between here and the smelter. The cold wave was general and must have been hard on stock in the mountains.

Arrangements are about perfected for the daily service between here and Milford. Mr. Klinger, route agent of the stage company, is in town for that purpose. Stages will leave Milford daily, Monday's excepted, at six o'clock a. m. and arrive here the following morning at 8. Another important find is reported on the Monitor ground at Ferguson. The discovery was made on the surface of what is properly the Cliff location and near the top of the hill above the Monitor tunnel. Boulders weighing as much as two toos and upwards are found to carry gold to \$40 or more to the ton. This ground is beyond the disputed territory between the Monitor and the Jim Crow claims, but forms a portion of the ground on which S. T. Godbe holds his option. #### FERGUSON DISTRICT.

Assays of \$7 and \$11 have recently been obtained from surface croppings on the Minnesota claim owned by Lawry, Devlin and Osborne, and arrangements are made to begin work there next week. The claim lies about a mile east of the April Fool mine good surface showing.

Work on the Flagstaff continues and while the mine shows up a no greater amount of ore than it did a short time ago, all indications lead to the belief that a valuable mineral deposit exists thereabouts. Drifting northward on the vein continues with an average on the entire face of about 87. A winze started at about this same point is down now some twelve feet, where assays of the entire ledge bottom show somewhat higher than in the drift above. In almost any other camp than Ferguson this would he regarded as a good proposition, but at i Ferguson ore carrying less than \$30 to the ton will not pay to mine and work, and this value would require reduction works somewhere in the vicinity. Ten men are now engaged in the work and the next thirty days promise to open up a vaiuable ore deposit. About 350 feet of tunneling and

#### Southern Lincoln.

H. W. Torner and Wm. Culverwell returned Saturday from their second trip to the new gold finds in the southern part of the county. On this trip they landed at a point about eighteen miles east of the Vegas ranch where some gold bearing ledges have recently been located. Specimens are occasionally found containing small quantities of leaf gold but these are rare. The find is something entirely new and no work has been done. Two shafts are now being put down however and results will deter mine how long the work will continue. The surface samples brought back by the gentlemen contained gold, but not in any great

Another gold discovery is reported beween the Vegas ranch and Eldorado canyon about twenty-eight miles from the latter place. The mountain ranges thereabouts have been regarded for years as gold bearing but their situation renders it extremely expensive to prospect them.

The Vegas ranch, still run by Mrs. Stewart, is the general stopping place for all travelers in that section. About thirty way farers found themselves there at Christmas tide and a general feast, with two or three days dancing was gotten up, at which their isolation from the world in general, was for a time forgotten. Mrs. Stewart is ever ready to care for strangers and the ranch is always a welcome sight after a pilgrimage across any of the surrounding deserts.

The Nevada Southern, as projected will mountain range in the vicinity will receive active and thorough prospecting.

The Southwestern Mining Co. at Eldorado expected to resume work on the 1st inst. Everything was in readiness for ore hauling ten days ago and new wagons for this purpose were on the road then from the East. Of the wagons washed away by the floods of last August, only a portion have been recovered.

#### School Entertainment.

Friday evening's entertainment by the pupils of the school here, both departments being well represented, will probably conclude our holiday performances, and all the children have gone back to their studies again. The programme, which is too lengthy to reproduce here, was well rendered by al the children, the smaller members especially deserving great credit for the interest gene rally manifested. Recitations, dialogues songs, etc., made up the programme. Miss Courtney, the teacher, sparing no effort to make the affair a success. The musical portion of the affair was under the guidance of Mrs. D. McDonald, and the children, one and all were shown to have made materia progress in this desirable accomplishmen during the short time the lady has given them her attention.

JOHN SHIER, P. M. The murder of the two Liteter boys at Boone Canyon, Lander county, last week was, according to the report published in the Reveille, most unprovoked and cowardly. Two Vaughus and a man named Rast, who was with them when the murder wa committed are in jail.

The Ruby Dunderberg Mining Co., onof Eureka's old producers, has gone out of the business and its entire property will be turned over to bondholders.

#### Teacher's Exemination

The examination of applicants for teach er's certificates was concluded yesterday. Commencing Monday morning it was thought it would be concluded in two days but the questions sent down were to lengthy to admit of this. Five applicants presented themselves and all passed successon the south slope of the hills and has a fully. The examining board consisted of School Superintendent Wm. Culverwell, H. E. Freudenthal and N. P. Dooley. Following are the names of the applicants and the

> 88; Alice Findlay, Panaca, 89; Nellie Wedge, Panaca, 87; and Lizzie Lee, Panaca, 88. The examination covered the studies of reading, orthography, writing, written and mental arithmetic, geography, grammar, theory and practice of teaching current topics and physiology. A general average of 80 per cent in all studies was necessary in order to pass. This method of examination is superior in many respects to the old custom. Here no partiality is shown the examinations are thorough and better teachers is bound to be the result.

Luke Skinner, a timberman employed at the Keystone mine, Tintic, Utab, fell from the sixth level to the bottom of the shaft, a distance of 200 feet, on the 5th, and was instantly killed. No one saw the fall but the station tender saw him approaching the shaft with a lighted candle in his hands, stooping over as if looking for something. A coroners jury returned a verdict of accidental death

Reno Gazette, 2nd: Ed. Collum, a laborer, was found dead in his room at the Pyramid House yesterday morning. It is presumed he died the day before. Coroner Brown held an inquest this forenoon, and the verdiet of the jury was that he died from causes unknown to them.
