**\$100 Reward, \$100** The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. J. CHENEY, CO., Toledo, Ohio. Sold by all druggists. Take Hall's Family Pills for constipation.

**GORGAS PLANS PEST WAR.** Back From Guayaquil With Scheme For Cleaning Port. Washington.—Colonel William C. Gorgas, head of the sanitary work in the Panama canal zone, has presented recommendations for the sanitation of Guayaquil, Ecuador, known for many years as the "pesthole of the Pacific," to Secretary Knox. Colonel Gorgas said: "I found conditions at Guayaquil similar to those which we met at Havana when we went there some years ago to rid it of fever and infection. There seems to be no reason why Guayaquil cannot be made safe as a harbor from a health point of view as any other. The people there realize the importance of cleaning up if they want to enjoy the benefits to be derived from the commerce of the canal. 'The city has a partial water supply and the first thing it needs is a pipe line giving a fresh, pure water supply. I found in the hospitals seventy cases of plague, and this would disappear with the yellow fever if better sanitation were secured. 'Guayaquil,' added Colonel Gorgas, 'is in a strategic position, being the only port in Ecuador to get a large trade from the surrounding upland country, which is thickly populated and rich in resources that will make commerce.'"

**NO TAIL—NO CASH.** Atlantic City Will Not Pay More Than Once For Cremated Animals. Atlantic City, N. J.—Hereafter Mayor Riddle declares this city will pay only once for the killing of stray dogs which find their way to the pound and not, as heretofore, several times to the pockets of "grafters." In the future, the mayor announces, each dog to be cremated will have its tail cut off first. This will be handed over to the secretary, when payment will be made. The poundkeeper has suggested that as the tail seldom wags the dog and is not therefore indispensable to the canine's existence the city may become one of tailless dogs.
