

## FIRE IN CLEVELAND, ETC.

Great fire in Cleveland 4-10-1854. Over 1,000,000. CLEVELAND, Oct. 28.—At 2 o'clock this morning, a fire broke out which consumed property considerably over one million of dollars. It originated in the stables of the New England Hotel, destroying the hotel and three entire squares. The insurance is heavy, but not yet ascertained.

This is the most destructive fire that has ever occurred in Cleveland.

**Large Yield of Wool.**  
Messrs. J. & W. D. Brady, of Brooke Co., Va., writes as follows to the Ohio Farmer.

We bought from J. D. Patterson, of Chataque Co., N. Y., an important French ewe in 1850; her first lamb was a buck. After breeding him we sold him to Messrs. Sharpneck and Berkley, of Fayette Co., Pa.; they cut from him at 19 months old 31 1/2 lbs. of fine clean, unwashed wool; and just a year and two days from the first shearing they took from him 25 1/2 lbs., which last fleece they sold for \$17, in Philadelphia, making in all 56 1/2 lbs. of wool from one sheep at 2 1/2 years old; the weight of carcass about 200 lbs. Can any one in the United States beat that; if there is any that can do it, we should like to hear of it.

Our clip of French wool, the present season brought clear money, 45 cents and a fraction per pound, in Philadelphia.—Whole clip averaging over 5 lbs. clean washed wool.

**Hog Story.**—The Louisville Journal says it heard a capital anecdote about hogs the other day. In Madison and other counties, mast and acorns are very scarce. It abounds, however, in the county of Estill. Many hogs were driven there, while the Estill people considered an infringement on their rights. Councils were called to deliberate how to rid themselves of this nuisance. Many plans were proposed, but finally after a good deal of debate, one was adopted. It seems that hogs have great fears of hares. Accordingly the skin of a hare was procured, and a large sow was captured from one of the droves. She was covered with the hare skin and then let loose. She immediately returned among the droves, but on her appearance all the hogs took to flight, pursued by the sow in the hare skin. It is stated that since this experiment not a hog has crossed the confines of Estill county.

An Irish editor in speaking of the miseries of his country, says: "Her cup of misery has been for ages overflowing, and is not yet full!"

## Jewish Statesmen and Warriors.

The fact is, you cannot destroy a pure race of Caucasian organization. It is a physiological fact; a simple law of nature, which has baffled Egyptian and Assyrian kings, Roman Emperors, and Christian inquisitors.—No penal laws, no physical tortures, can argue a superior race should be absorbed in an inferior, or be destroyed by it. The mixed persecuting races disappear; the persecuted race remains. And, at this moment, in spite of centuries, or tens of centuries of degradation, the Jewish mind exercises a vast influence on the affairs of Europe. I speak not of their laws, which you still obey; nor of their literature, with which your minds are saturated; but of the living Hebrew intellect. You never observe a great intellectual movement in Europe in which the Jews do not greatly participate. The first Jesuits were Jews; that mysterious Russian diplomacy which so alarms Western Europe, is organized and principally carried on by Jews; that mighty revolution which is at this moment preparing in Germany, which will be in fact a second and greater Reformation, and of which so little is as yet known in England is entirely developing itself under the auspices of Jews, who almost monopolize the chairs of Germany. Neander, the founder of spiritual Christianity, and who is Regius Professor of Divinity in the University of Berlin is a Jew. Brenary, equally famous, and in the same University is a Jew. Well, Arabic Professor of Heil delberg, is a Jew. Years ago, when I was in Palestine, I met a German student who was accumulating materials for the history of Christianity, and studying the genius of the place; a modest and learned man. It was Wehl, the unknown, since become the first Arabic scholar of the day, and the author of the life of Mohammed. But for the German professors of this race, their names is legion. I think there are more than ten in Berlin alone.

I resolved to go to St. Petersburg. I had on my arrival an interview with the Russian Minister to France, Count Canclini. I beheld the son of a Lithuanian Jew. Repairing to Spain, I had an audience with the minister, Senor Mendizabel: I beheld one like myself, the son of Novo Christiano, a Jew of Aragon. In consequence of what transpired at Madrid, I went straight to Paris, to consult the President of the French Council: I beheld the son of a French Jew, a hero, an imperial Marshall.

Yes; and several of the French Marshals, and the most famous Massena, for example; his real name was Menassah.

The consequence of our consultation was that some Northern power should be applied to in a friendly and meditative capacity.—We fixed on Prussia, and the President of the Council made an application to the Prussian Minister, who attended a few days after our conference. Count Armin entered the Cabinet, and I beheld a Prussian Jew.—So you see, my dear Cousins, that the world is governed by different personages to what is imagined by those who are not behind the scenes.

**CONTAGIOUS DISEASES.**—We believe it is an established fact in medicine that "no disease can be contracted while the blood is in a pure and healthy state." In order to secure so desirable an object, we recommend to our readers the use of CARTER'S SPANISH MIXTURE, which is generally acknowledged to be the most effectual purifier of the blood yet discovered. It not only cures, but is positively the only remedy which can be depended on as a preventive of epidemic or contagious diseases. [Nov.]

When death is at the door, the remedy which would have saved life, if administered in time, comes too late. Do not trifle with disease. Rely upon that when the stomach will not digest food—when faintness and lassitude pervade the system—when the sleep is disturbed, the appetite feeble, the mind lethargic, the nerves unaccountably sensitive, and the head confused—rely upon it, that when these symptoms occur, the powers of vitality are failing, and that unless the mischief be promptly checked, life will be shortened, as well as rendered miserable. Now we know from a mass of testimony, greater than was ever before accumulated in favor of any remedy, that Hoodland's German Bitters, prepared by Dr. C. M. Jackson, Philadelphia, will immediately abate, and in the end, entirely remove all these disorders as surely as any mathematical process will solve a problem. Who, then, will endure the agony, and the risk of life, with health and safety within reach? See advertisement. [272-2]

**Married:**  
On the 13th of October, by Eld. G. F. C. Conn, Mr. ANDREW J. STEVENS, of Greene county, Pa., to MISS MINERNA MIXON, daughter of Samuel Minor, Esq. of this county.

**OBITUARY.**  
**DIED**—At his residence in Waynesburg, Greene county, Pa., on Saturday, 28th October, of Typhoid Fever, WILLIAM S. ODENBAUGH, in the twenty-fourth year of his age.  
The deceased was a young man of noble impulses, friendly and companionable in his intercourse with society, and possessed a heart prompt and ready to execute kindly offices for his fellows. He was an affectionate and devoted husband, a dutiful father, and was esteemed for his amiable disposition and social qualities, which always endeared the circle where he moved. He was beloved and respected in life by all who knew him, and the dust beneath which he sleeps was bedewed with many heart-rending tears. His sufferings, protracted through a course of an insidious disease, were borne with an uncomplaining resignation, and he contemplated his dissolution from the scenes and sufferings of this life with a calmness and serenity that is only inspired by a well-founded hope of a blessed immortality.  
He leaves a widow and one child, with a large circle of relatives and friends to mourn his early departure from their kindly companionship.  
Friend after friend departs—  
Who hath not lost a friend?  
There is no union, here, of hearts  
That has not here an end.

**Mechanics, Inventors and Manufacturers \$570 IN CASH PRIZES!**  
Volume 10 of the SCIENTIFIC AMERICAN, was commenced on the 10th of September. It is chiefly devoted to the advancement of the interests of MECHANICS, INVENTORS, MANUFACTURERS and FARMERS, and is calculated to give practical information in the arts and sciences. Probably no other journal of the same character is so extensively circulated, or so generally esteemed for its practical utility. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings, and the claims of all the Patents are carefully reviewed in its columns as they are issued, thus making a perfect Scientific and Mechanical Encyclopedia of information upon the subjects of Mechanical Improvements, Chemistry, Engineering, and the Sciences generally. It is published weekly in quarto form, suitable for binding, and each volume contains four hundred and sixteen pages of reading matter, several hundred engravings, with a full and complete index. Its circulation on the last volume exceeded 23,000 copies per week, and the practical experience of one volume are worth to any family more than the subscription price.  
The following Cash Prizes are offered by the Publishers for the fourteen hundred lists of subscribers sent in by the 1st of January, 1855.  
\$100 will be given for the largest list; \$75 for the second; \$65 for the third; \$55 for the fourth; \$50 for the fifth; \$45 for the sixth; \$40 for the seventh; \$35 for the eighth; \$30 for the ninth; \$25 for the tenth; \$20 for the eleventh; \$15 for the twelfth; \$10 for the thirteenth; \$5 for the fourteenth.  
The list will be paid to the order of the successful competitor immediately after the first of January, 1855.

**F. A. DERING & CO.,**  
Have just received their stock of  
**Fall and Winter Goods,**  
bought in the Eastern Cities on the very best of terms.  
We deem it useless to enumerate, either in prose or verse, the many articles which are comprised in our Stock. Suffice it to say, neighbors, we have such Goods as are usually kept in Country Stores. We respectfully invite our friends and the public generally to give us a call, examine our Stock, and we feel confident we can please you. We deem it useless to brag about our Cheap Goods. We ask no boot of any of our brother Merchants, nor will we take up your time in reading humbug advertisements. The people, by this time, understand that all quack nostrums are pulled in the Newspapers.

**THE GREAT PURIFIER OF THE BLOOD.**  
NOT A PARTICLE OF MERCURY IN IT.  
AN INSTANT REMEDY FOR SCROFULA, KING'S EVIDENCE, Rheumatism, Gout, Catarrhs, Hemiplegia, Pimples, or Eruptions on the Face, Blotches, Itch, Chronic Sore Throat, High Worm or Tric, Scald Head, Eczema, and Pain of the Bones and Joints, Scabious Eruptions, Syphilis, Indigestion, Lumbago, Spinal Complaints, and all Diseases arising from an impure quality of the Blood.  
This valuable Medicine, which has become celebrated for the number of extraordinary cures effected through its agency, has induced the proprietors, at the urgent request of their friends, to offer it to the public, which they do with the utmost confidence in its virtues and wonderful curative properties. The following certificates, selected from a large number, are, however, strong testimony that the mere word "cure" is not sufficient, and that the medicine is well known in their localities, and of the highest respectability, many of them residing in the city of Richmond, Va.  
F. ROYEN, Esq., of the Exchange Hotel, Richmond, known everywhere, says he has cured the Rheumatism called Catarrhs, Hemiplegia, and Chronic Sore Throat, High Worm or Tric, Scald Head, Eczema, and Pain of the Bones and Joints, Scabious Eruptions, Syphilis, Indigestion, Lumbago, Spinal Complaints, and all Diseases arising from an impure quality of the Blood.
