ues of the air and food passages, that Catarrh makes its stronghold. Once established, it eats into the very vitals, and renders life but a long-drawn breath of misery and disease, duiling the sense of hearing, transmelling the power of speech, destroying the faculty of smell, tain ing the breath, and killing the refined pleasures of tasts. Insidiously, by orsepting on from a simple cold in the head, it as suits the membranous lining and envelops the bones, esting through the delicate costs and cansing infammation, aloughing and death. Solthing short of total eradication will secure health to the patient, and all alleviatives are simply procrastinated sufferings, leading to a fatal termination. Saxronn's Rancal Curae, by Indelators and by Internal administration, has never failed; even when the disease has made frighthi inroads on delicate constitutions, hearing, smell and taste have been recovered, and the disease thoroughly Griven out." makes its stronghold. Once established, it eats
