## TRADES ASSEMBLY.

**BUSINESS TRANSACTIONS AT YESTERDAY'S  
REGULAR MEETING.**

The Boiler Makers' Strike—The Legislative Com-  
mittee Reorganized and Other Matters  
of Interest.

The regular semi-monthly meeting of  
the Ohio Valley Trades and Labor Assem-  
bly was held yesterday afternoon in Trades  
Assembly Hall, Beck's block, on Market  
street, and there was a good representation  
of delegates present. President Conrad  
Wassman presided and Secretary John En-  
shelme acted as clerk.

Besides the routine proceedings some  
important matters were taken up and con-  
sidered. The boiler makers reported that  
the agreement made by Cox & Morrison  
about two months since with their men,  
which was a compromise of a demand for  
Pittsburgh prices and hours, had been  
broken by the firm, and that the men  
were again on a strike at this  
establishment. It was also  
stated that two men came here from Pitts-  
burgh last week to take positions at the  
works, but when they discovered the  
state of affairs they immediately left. It  
will be remembered that the men at  
Sweeney & Sons also went out, and now  
the strike is in the same condition as it  
was when first declared.

The Arbitration Committee reported that  
it had held a conference with Local Union  
No. 15, A. F. G. W. U., and the glass-  
workers of the Essex Glass Works, Martin's  
Ferry, who are out on a strike for an ad-  
vance in wages, and that the union had  
promised to do all in their power, condi-  
tionally, to bring about a satisfactory  
settlement of the strike.

Secretary Wassman announced that he  
was in receipt of a letter from Sec-  
retary Thomas O'Brien, of the  
International Bricklayers and Stonemasons'  
Union, which stated that at the recent  
Boston convention of that Union a res-  
olution was passed recommending all  
local unions to attach themselves to build-  
ing and trades councils, so that in case of  
strike they would not have to rely entirely  
upon their own resources in the fight, and  
that whenever a building and trades coun-  
cil or assembly places a boycott upon any  
job all unions represented therein would  
be compelled to observe it. The letter  
also contained some other valuable sug-  
gestions.

The Legislative Committee of the As-  
sembly was reorganized in order to have  
full working committee. It now con-  
sists of President Conrad Wassman, John  
Corcoran, Fred Brand, Denis O'Leary,  
Michael Gilligan, J. H. Burt and Theodor  
Wagner. The new committee will  
hold a meeting first Saturday afternoon at  
Trades Assembly Hall, to get into working  
shape.

It was resolved by the Assembly that  
100 pamphlets containing a history of  
trades unions, by Wm. Traut, be pur-  
chased for dissemination among the mem-  
bers.

The Benwood miners reported that they  
have formed a local union of miners and  
sent in credentials for representation in  
the Assembly.

The committee on all the business of pub-  
lic importance, and the Assembly ad-  
journed.

A SUNDAY school yesterday stated that

urday night. There is simply no truth in  
this assertion and the chap who wrote it  
knew it very well.

THE Elm Grove motor train are run-  
ning straight through now, and what a  
comfort it is to the patrons of the road to  
know they no longer have to make that  
disagreeable transfer.

THE thermometer fell rapidly between

clouded up and everything expected snow  
but snow came not, and many people were  
glad, while others were sorry.

THE Beethoven Singing Society gave a  
very pleasant little concert and entertain-  
ment at their hall, last evening, which  
was highly enjoyed by a large number of  
the members, their families and friends.  
The Opera House orchestra ably assisted  
in the affair.

WHEN the natural gas shut off Saturday  
afternoon, many people neglected to turn  
off the valves and when it came on again  
yesterday morning at 2 o'clock there was  
great excitement in many of these houses,  
as people in numerous instances were  
awakened by the hissing of the gas, and  
hunted out of bed expecting to be blown  
up any minute.

**GENERAL INTELLIGENCE.**

**Getting Along All Right.**

It was stated yesterday that Dave Fos-  
ter, the man who was shot Saturday eve-  
ning, by Johnny Kyne, was getting along  
all right. Kyne is not being arrested, but  
the police are keeping a sharp lookout for  
him.

**Working on the Extension.**

The Electric Railroad Company is at  
work in the extension of their line down  
into the town of Benwood. Grading has  
made considerable progress along the bill-  
side just east of the Riverside steel works,  
and cross-ties, rails, sleepers, etc., are on  
the ground.

**"Kimball Merry Makers."**

That splendid comedy organization, the  
Kimball Merry Makers, will appear at the  
Grand Opera House this evening, opening  
a week's engagement. The company and  
play, "Capers," in which they first ap-  
peared, was highly successful. The metropoli-  
tan are so good that no doubt good hours will  
be given them. Reserved seats are on sale  
at the McLure House Pharmacy.

**The Girls Left Behind Him.**

Official cars captured a horse attached to  
a buggy coming down Sixteenth street,  
last evening, and took the rig to Damas'  
stable, where, it turned out, it be-  
longed. The rig was taken out in the af-  
ternoon by two women, and it is supposed  
the horse dumped them out along the road  
some place and came on into town, as the  
dashboard was broken. The woman did  
not appear to inquire about the turnout.

**A Revolver Shot.**

About eleven o'clock last night some un-  
known individual fired a revolver shot  
through the north plate glass window of  
Louis Schwall's saloon, on Main street.  
Officer Watson discovered a young man  
from the Island, in the north of the little  
private alley across the street, and put him  
under arrest. On being searched a 25-cal-  
iber revolver, was discovered in his pocket.  
He was locked up, and a charge of carry-  
ing concealed weapons placed opposite his  
name.

**To-Night's Concert.**

This evening the Boston Symphony Or-  
chestra Club, assisted by the Arion Sing-  
ing Society, will give a grand concert at  
the Opera House. The programme, printed  
in yesterday's issue of the REGISTER, is a  
popular one, and there will be a crowd of  
home.

The Symphony Club is probably the  
most complete musical organization in this  
country. Its instrumentalists are well-  
known as artists, and Miss Ella Clark  
Cushing, the prima donna, is one of the  
few American vocalists who is especially  
endowed with that quality called con-  
science, a thorough musician. An Elm  
Grove train will leave after the concert.

**A Delicate Surgical Operation.**

Talking about surgical operations, Dr.  
Leon Reiter, the well-known young vete-  
rinary surgeon, performed one the other  
day that is on the remarkable order. A  
certain lady is the owner of a very fine  
cocking bird, and some days since, while  
feeding it, the servant allowed the spring  
door to snap shut, catching the bird's legs,  
breaking one and fracturing the other.  
The bird was sent for and he had the  
bird on its back on a table and com-  
menced operations. The little macker  
was so intelligent it seemed to know what  
was going on, so it remained as quiet as  
a lamb, except when it gave itself a  
twist of pain, when it would seize its  
wing in its bill and bite as hard as it  
could, just as a man suffering intense  
pain would grip the teeth or clench his  
hands to relieve himself. After the  
legs had been dressed and properly band-  
aged a sort of swing was made for the bird  
so that its legs would not be in use, and it  
was as patient as any physician could wish  
a patient to be, making no attempt to free  
itself from its peculiar position. The  
wounds are healing nicely and in a few  
more days the bird will be all right again.

**An Island Dwelling Destroyed.**

About twenty minutes after two o'clock  
yesterday morning a fire broke out in the  
two-story frame dwelling house recently  
erected by Mr. Hiram Teters, on Crom-  
well street, on the extreme upper part of  
the Island, and before the department  
could arrive on the scene and get down to  
work the structure was completely de-  
stroyed. The building was not completed  
as a residence, and the fire had a good  
start before it was discovered. When it  
was seen by those living in the vicinity  
their outcries were not noticed, and it was  
only after Officer Hackett, of North Wheel-  
ing, and a fireman reported the matter, that  
attention was attracted to the bright blaze,  
that an alarm was sent in. The department  
responded promptly, but the fire was a  
long one for all except the Island house  
company, and when they arrived the fire  
had burned its foot. The Island com-  
pany made an attachment and cooled  
down the ruins.

Mr. Teters' loss is about \$600 on which  
there was no insurance. The owner could  
not explain the cause of the fire, saying  
there had been no fire of any kind in the  
building and the circumstances point to  
accident.

**Renews Her Youth.**

Mrs. Phoebe Chealey, Peterson, Clay Co.,  
Iowa, tells the following remarkable story,  
the truth of which is vouched for by the  
testimony of the towns "I am 75 years old,  
and have been married to my husband for  
45 years. I have been troubled with kidney  
and lameness for many years; and could  
not dress myself without help. Now I am free  
from all pain and soreness, and am able to  
do all my own housework. I owe my  
cure to the use of Dr. Williams' Pink Pills,  
which I have taken for several months, and  
all pains and lameness have disappeared."

## SHOT IN THE MOUTH.

THE REVOLVER USED IN LOGAN COUNTY,  
WITH DEADLY EFFECT.

Floyd Digges Killed by a Man Named Hall—  
A Novel Wedding—Fun Play—Dirty  
Work by Republicans.

Information has just reached Charleston,  
says the Star, of that city, of the killing of  
Floyd Digges, of Logan county, by a man  
named Hall, which occurred some time  
last week. The two men met on Hart's  
creek, near the Lincoln county line, and  
became engaged in an altercation, which  
resulted in Hall drawing his revolver and  
firing. The ball struck Digges in the  
mouth, and, raring upward, came out at  
the top of his head, killing him instantly.  
Hall had not been arrested up to last re-  
port.

**THE REMAINS OF A VETERAN.**

The remains of Michael Cowan, late  
Corporal of Company G, Third West Vir-  
ginia Infantry, were removed from the  
farm of Henry Morrison, near Willsburg,  
where they had been buried for twenty-six  
years, last Tuesday, and brought to the  
National Cemetery at Gettysburg by the  
Superintendent, Mr. M. M. Jeffrey, says the  
Enterprise. The remains of the dead  
soldier were removed at the request of the  
widow, who lives in Nebraska and who ap-  
plied to the department for the removal.  
Corporal Cowan, while out with a scouting  
party near Clarkburg in April, 1862, ap-  
proached a house to capture a Confederate  
within, when the latter, from a window,  
shot the Corporal from his horse. Nothing  
but bones were found when the remains  
were exhumed.

**EXCITING TIME WITH A DEER.**

The Gleaner Independent says: Mr.  
John A. Beard, of Anthony's creek, that  
county, had quite an exciting adventure  
with an old buck last week. He attempt-  
ed the rescue of his dog, which was trying  
conclusions with the deer, when he ran up  
and gave the deer a severe kick. This  
only brought his buckskin's vengeance  
down upon himself. Mr. B. saved himself  
by his extraordinary running ability and  
getting on top of a high fence, from which  
position he was rescued by a friend who  
was near. The deer was one of the largest  
of his kind, having seven points to his  
horns, and weighing, when dressed, 145  
pounds.

**A NICE PIECE OF BUSINESS.**

The Braxton Democrat says that on  
Wednesday night of last week, the Repub-  
lican jubilation parade went to the ex-  
treme of burning in effigy the President of  
the United States. This is a nice piece of  
business for anyone to engage in. On the  
following Saturday night a mixed crowd  
of whites and blacks gathered at the resi-  
dence of Horace B. Fisher, built a bonfire  
out of fence rails, and for several hours  
made night hideous with loud and insulting  
language, directed towards Mr. Fisher.

**A NOVEL WEDDING.**

A novel wedding occurred last Sunday  
on the Pendleton county and Virginia  
State line, near Dos Hills, says the Romney  
Intelligencer. The parties were Mr. John  
R. Lister, of Highland county, Va., and  
Mrs. Martha Probst, of Pendleton county.  
The Rev. G. D. T. Collins, not having a  
license to marry parties in Pendleton,  
stood at the altar, and the ceremony was  
performed by the Rev. P. E. Fisher, while the  
contracting parties stood in Pendleton,  
and were made man and wife in the pre-  
sence of quite a number of witnesses.

**POUL PLAY.**

Mr. Middleton D. Cawell, an aged resi-  
dent of Berkeley Springs, was recently  
found dead under circumstances supposed  
to be accidental. The Berkeley News, how-  
ever, says the coroner's jury has returned  
a verdict of death from a wound in the  
head, inflicted by some parties unknown.

**MAKING CORN IN MOWFIELD.**

The McDowell Progress says there are  
now a hundred or more city-fallen ovens in  
this county, distributed as follows: Elkhoron  
County, 25; Shamokin, 35; Greer, 31; Turkey Gap, 21, and House-  
top, 25.

ster county, was criminally assaulted, a  
few days ago, by a man named Jesse Car-  
penter.

The McDowell Progress of the 17th says:  
"We are sorry to say that as yet we are  
unable to give a election returns of this  
county, but hope to do so soon. It is thirty  
miles to the Court House, and mail  
facilities are none of the best between here  
and there."
