WHEELING VA

THURSDAY MORNING, NOVEMBER 10, 1853.

"O" PERTNERSHIP. J. H. PENDLETON has become one of the proprietors of the Wheeling Intelligencer, and the paper and business will hereafter be conducted under the style of Swearin-sen, Tatlon & Co. The change in the concern will render it necessary to close up the outstanding accounts of Swearingen & Taylor, and they hope that all concerned will be ready to close up the old accounts at an early day.

"The Publishers bes leave to return their acknowledge ments for the liberal favor which has been bestowed upon them, and respectfully wolfeit its continuance. Every effort will be made upon their part to give satisfaction.

There is no truth, it is said, in the statement that Martin Van Buren has been appointed umpire to decide the disputed questions before the mixed commission about to sit at London, to setgle the claims between the United States and

I We learn from Montreal that the grand jury in the case of the Gavazzi riots have been discharged, and that no indictments were found against the mayor of that city, or the military officers who were implicated in the riot in that city, and the killing of several persons."

Another important arrest of counterfeiters has been made in Albany, New York, in which a canal Captain, named Hiram Roberts, figures .-Four or five persons were arrested, and their operations appear to have been confined to \$10 bills on the Stamford Bank, Ct.

TThe news brought by the Africa is warlike. Hostilities have not yet commenced, but there was nothing to prevent their beginning previous to the 1st. The allied flee's have been ordered up to Constantinople, the Turkish fleet has gone to Varna, volunteers are swelling the Moslem army, and at London consols are selling at 914.

A requisition from the Governor of Kentucky was received by the Governor of Ohio, on Friday, and at 4 o'cleck a warrant was granted for the arrest of Robert Fee, of New Richmond, Clermont county, Ohio, charged with aiding a number of slaves from their masters in Kentucky. The proof against Mr. Pee is said to be conclusive.

A very large public meeting has been held in Londons for the purpose of expressing sympathy on the part of the community of the British Metropolis in relation to the cause of Turkey. The sentiment expressed was to maintain the honor of their country against the machinations of despot-

THE CUBAN APPRENTICE SYSTEM PLOT.-The Union publishes an extract from a letter dated Cuha, Oct. 26, supposed to be written by the U. S. Consul at Hayana, which says that when the new Captain General arrives the apprentice system will be proclaimed. The writer also says, that instead of thirty or forty thousand, it is contemplated to import one hundred thousand African apprentices. He adds, "if carried out, I will quit the island with the full conviction that soon after we shall have another St. Domingo."

The Cincinnati Commercial says that on the 27th ult., the case of Mrs. Harriet Beecher Stowe vs. F. W. Thomas, (author of Clinton Bradshaw, and formerly of that city,) the publisher of a German translation of Uncle Tom's Cabin, was commenced in the U.S. Liteuit Court at Philadelphia, before Judges Grier and Kane. The New York Tribune says: The question at issue is whether a copyright will hold in any other language than that in which the work is entered. It has never teen raised before, and there is no precedent bearing on it, either in England or this country.

The Liberia Enterprise Company, says the Philadelphia American, is the name of an association of colored citizens of Pennsylvania, who design to embark, in a few days, for the Republic of Liberia, whether they go as a missionary family .--We learn that they possess all the requisite qual cations for the interesting work they be taken, having among their number the teacher, the mechanic, the merchant, the minister of the gospel.

A HUNDRED MILES AN HOUR .- The Scientific American has an engraving of the Railroad which is to run a hundred miles an hour with perfect safety. Its distinctive principle is that the cars run on a single track for the train to be hung upon it. The train is, in fact, placed a straddle of the rail, running on wheels, to whose axles the cars are hung. It is obvious that, with the rail running, as it were, through the car, the latter could not be thrown off the track by any amount of speed, and no obstruction of sufficient magnitude to do mischief could be made to lay upon a single rail raised six or eight feet from the ground.

We learn from the Cincinnati Gazette that Mr. Guthrie, Secretary of the Treasury, directed one of his clerks to take a servant girl of his, "a likely young woman," from this city to Washington, and that, on arriving at Cincinnati last Thursday on board a steamboat, she made her escape. took the cars, and started off for Canada. No doubt she was sided by the professional negrostealers of Cincinnati. When our Kentucky railroad connections with Virginia and Maryland shall be completed, the negro stealing branch of business in Cincinnati will probably suffer a decline .-

NEW ROUTS TO THE PACIFIC, The New York Tribune says that E. G. Squier, Esq., as agent for a wealthy New Nork company, is negotiating a contract with the Government of San Salvador, for a Pacific route across that country that will be more feasible than some of the routes and nearer than many. The road is to begin at the Gulf of Amtique, in the Bay of Honduras, and terminates in the Gulf of Fonseca, on the Pacific side. Its length will be less than two hundred miles. A railway, built here, would run across a healthful and pleasant country

AMERICAN WOOL .- Peter A. Browne, of Philad-lphia, in a communication to the Richmond Va. Whig asserts that he can; show that as fine fle ce can be raised in the United States as in any portion of the world." He says that he has in his possession wool grown in Allegheny county, Pa., by Wm. Hall, which measures from 1-2146 to 1-2500 part of inch, while the finest wool in the collection sent to him by the king of Prussia, and the finest among the specimens seat to him by the king of Saxony, measures 1-2186. Mr. Browne denies the correctness of the decision on this subject at the London Crystal Palace Exhibition, and prodices facts to show that the jury on wool did injustice to the specimens of American wool exhibited. -Phil. North American.

Bartonion of a Powosa Mill, -The Bennis Powder Mill, at Spencer, Mass., exploded with a tremendous trasts on Priday. Five men were kill-1.d. The names of the unfortunate victims are Heary Aris, Richard Aris, Robert Perkins, Geo, r at Cumberland on Saturday. Swallow, ami John Laughlin. They were blown to the distance of fifty rods, and mutilated in the most shooking manner.

From Baltimore.

CORRESPONDENCE OF THE WHEELING INTELLIGENCES.

BALTISORE, NOV. 7—6, P. M.

The recent election in our city has had already quite a moral influence. The verdict pronounced in favor of temperance has struck terror into the Galway is about one day's less sailing than to Live. to the Sabbath law. Those who had been foremarke the passage as the Collins steam me in run-most in violating it were first to suspend Sunday ning the same distance. From the statements most in violating it were first to suspend Sunday operations. The consequence was fewer drunkards in the street and better order throughout the city. The me temperance Sheriff, Mr. Ilindes, is pledged to enforce the law, and we may expect a better condition of things. Rum is the great motive power of rowdyism—take this away and the inferred weaking store. From the statements which had been made about this vessel, we understood that Mr. Norris had said that it would make the voyage from New York to Liverpoot in six days, or more than four days less than the Collins steamers, which would require an average speed of 21 miles per hour. To make the passage to Galway from New York, in six days, it will be quire an average speed of 181 miles per hour.

infernal machine stops. The Whigs are rejoicing over their victory in nave at per cent less resistance, and ner continue gaining a majority of six in each branch of the State Legislature, thus giving them an United States Senator and control of the Public Works. The Governor of Maryland has now very little Collins steamers, with 40 per cent, less resistance power. The appointments are taken away from him by the new Constitution.

Sales 18000 bus. wheat. Red 1,43a1,47; white 1,50a1,55. Corn about one cent better. Oats un-

changed. Whisky 29a30 to 31c. There were 2200 head beef cattle offered and 1200 sold at \$2,621a3,75 per 100 lbs on the hoof,

equal to \$5,62a7,50 net, averaging \$3,25 gross.-Hogs \$5,75a6,50. Sheep 2a84 and plenty. Stocks firmer. Ohio Railroad shares 462a472. J. W.

THE LOUISVILLE TRAGEDY,-Professor BUTLER, Principal of the High School, at Louisville, it has been announced by telegraph, was shot by MAT. F. WARD, oldest son of R. J. Ward, on Wednesday morning, and died that night. The Courier says

of the lamentable transaction: 13 14 11111 went to the high School accompanied by two of his brothers, Robert Ward, a youth of six-teen, and William Ward, a smaller boy, and called for Wm. H. G. Butler, one of the teachers. A few words passed between them, when Mr. Ward pulled out a pistol and shot Mr. Butler down, pulled out a pistol and shot Mr. Butler down. American. pulled out a pistol and shot Mr. Butter down.
The ball penetrated his left breast over the heart,
and he fell to the floor, exclaiming in his agony,
"I am killed—oh my poor wife and child!" Ward
then dropped his pistol, and accompanied by his
brother, retreated from the school room.
Mr. Butter was able to rise from the floor, and

left the room, assisted by some boys, but when in the street he fell again, and was carried home. The ball could not be extracted, and he bled inwardly. Mr. Butler had corrected Wm Ward, one of his pupils, the day previous for telling a false-

hood, which led to the tragic affair." Robert Ward, who accompanied his brother, drew a Bowie Knife, and when Professor Sturgus, the other teacher in the school, advanced to the assistance of Mr. B. he made such demonstrations that the Prof. retreated and made his escape out of the window. The scholars in the school room were also scattered in all directions by the display

of such warlike instruments in their midst.

Mr. M. F. Ward and Robt. J. Ward, jr., were promptly arrested and lodged in jail, and as the af-

promptly arrested and tooged in just, and as the al-fair will undergo a judicial investigation, we for-bear narrating the particulars.

Mr. Butler was one of the best and most inoffen-sive men in the world, and we can appreciate the anguish of his friends at his being so untimely cut off and in such a manner. The affair is generally regarded as of a most atrocious and unprovoked character, and when it became known the deepest indignation prevailed throughout the city.

The Ward family is one of the wealthiest and most prominent in Kentucky.

SUICIDE OF A BALTIMOREAN .- Our Baltimore cor espondent referred, in one of his letters, to the melancholy suicide of R. M. Duncan, formerly of that city. The Pittsburgh Post of Saturday, says:

"Yesterday morning Richard M. Duncan, young man who has been for some time past em-ployed as clerk in the office of the Engineer of the Ohio and Pennsylvania Railroad, was found dead in his room in the Emmet Hotel, in Allegheny. "The deceased had been boarding there with his wife and child, since last Tuesday. He had been in the habit of drinking freely of late, and it is supposed that he had become deranged in con-

sequence.
"On Thursday, he requested Mrs. Sweeny, the landlady of the Emmet Hotel, to send out and purchase some laudanum for him, but she refused. purchased some. His wife observed him lying upon the carpet in his room about midnight, but did not think anything about the matter, as he had been in the habit of doing so for some time past. She went to bed, and when she awoke in the morning he was still there. She immediately nummoned the landlady and the boarders, and Dr. liott was called in, but it was too late, as he ad breathed his last. An empty vial, which had contained laudanum,, was found by his side. The deceased had formerly resided in Baltimore, where his father was a olergyman.

GRINNELL'S ARCTIC EXPEDITION .- Letters have been received from England, announcing the arri val of the American Arctic expedition, under the command of Dr. E. V. Kane, U. S. N., at Upernavick, in Greenland, and their departure from thence for the head waters of Smith's Sound .-Captain Inglefield, with the screw steamer Phosnix, with stores for S.r Edward Belcher's squadron, reached Upernaviok three days after Dr. Kane's departure, and 'eports that he (Dr. K.) had secured the services of Peterson, the Esquimaux interpreter, who was with Penny on a former voyage. Capt. Inglefield states that all were as well and books shall be admitted into his Cataolic dominions prosperous as possible. Dispatches and letters from Dr. Kane, officers, and crew may shortly be expected by way of Denmark.

In Portland, Maine, they are disputing concerning the effect of the Maine Law. John Neal and others affirm that it has rather increased than checked intempe ance in the State at large, and the assertion has been made that in the city and neighborhood, and probably throughout the State, with here and there a doubtful exception, there is now more intemperance than there has been a any one time for twenty-one years. The supporters of the law deny it is, and they have issued a declaration signed by a large number of persons, among whom are ten of the clergy, ex Mayor E. Greeley, to the effect that the assertions referred to are erroneous and unfounded.

of \$10,000, between the celebrated trotter Prince and the celebrated pacer Hero-distance ten miles, came off, over the Centreville course, Long Island last Monday.

Both horses started handsomely and kept up admirable speed and time until the sixth mile, when Hero broke down and was withdrawn-Prince, of course, took the stakes. A very large amount of money was bet on both sides.

The State Department has been advised that Mr. Belmont had brought the case of Capt. Gibson before the Government at the Hague, and it is probable the matter would be satisfactorily settled Mr. Gadsden has been instructed to demand of the Mexican Government ample redress for the injules committed some time ago on Consul Rice, at

Martin Van Buren has not been appointed um pire to the mixed Commussion to London

There is an old lady in Virginia, who believes t to be a bible doctrine that, for seven years before the end of the world, no children are to be born; and that gives her comfort, for at every fresh birth she hears of, she says to herself, theell the seven years at least have not begun."

SUDDEN DEATH AT CUMBERLAND .- We learn that G. B. M. Price. Esq., formerly a member of the Legislature from Allegany co., died suddenly

There is a lazy fellow in the West who spells Ingrice dollars.

CROSSING THE OCEAN IN SIX DAYS. - We have seeled a letter from J. W. Griffiths - the nanti-

hearts of the grogshop keepers. Vesterday nearly Galway is about one day's less sailing than to Liverpool, and how could the William Norris be entitled to the broom if she required as much time to

of rowdyism—take this away and the quire an average speed of 184 miles per hour.—
The William Norris, Mr. Griffiths informs us, will have 40 per cent. less resistance, and her load line

There is certainly a very great difference of opinim by the new Constitution.

Breadstuffs brisk. Sales of 5000 bbls Howard required for every increment of a steamship's street and 2500 do City Mills flour at \$6,87. Clo-street and 2500 do City Mills flour at \$6,87. Clo-number—that it only requires a quadruple increase of power to double the spee , that is, according to the square; while others maintain that it requires an increase of eight times the power-the cubeto double the speed. According to the first form ula, the william Norris will be able to make the voyage to Liverpool in five days. To make a voyage of six days, this new steamship will have to use more than half her tonnage of coal, namely 4324 tons—or over 71 tons per day. There are so many items to be taken into consideration in calculating the probable time in which the William Norris will make the voyage across the Atlantic. that we anticipate an addition to our stock of in-formation by this vessel's performance, and await the result to confirm or confute the pre-conceived opinions we have expressed—opinions which have been founded on some experience and observation. if engines of six horse power to the ton were to be placed in a ship of the same size as the Alisatic, we certainly would have far greater hopes of such a steamer making the voyage in six days than such

> registance is much greater in proportion to a ves-sel of small than one of large tonnage. The swiftest boats on the North river, when

a small vessel as the William Norris; the wave

vated arsaults, committed by men on their wives, in England, has led one of the London journals to recommend a new punishment for such offences, as well as a novel method of awarding it. proposition is to try all such assaults by a jury of women, partly to obtain a fairer verdict, partly to over the criminal with ridicule. In addition it is recommended that the penalty be also of a shameful character, analagous, for example, to exposure in the cutty stool, the punishment to which scolds were formerly subjected; but this is only an endeavor to remove one evil by returning to another. The verdict of the age has rightly condemned whipping-posts, stocks, pillories, and other degrading punishments of similar character. To subject a man to a shameful exposure, is a poor way to refine him. The brutality of husbands can never be cured, rely on it, by brutalizing punishments. In short, the remedies proposed by the London journal would make things worse instead of better.

The mode of awarding the penalty would also fail of its purpose. The publicity of the jurybox would certainly not refine woman; while there

would be no more security for impartiality in the verdict, than there is now. It is a good rule never to change unless it is certain to be for the better.— TERRIBLE RAT-ICIDE. -On Saturday last, number of persons were engaged threshing in the barn of Mr. Christian Mechting, of South Butler township, and on removing the grain and coming near the floor of the mow, the presence of an extraordinary number of rats was discovered. The barn

doors were immediately closed and every precau tion taken to prevent their escape. Several per-sons properly armed, then entered the mow, and the onslaught commenced. The conflict waged fast and lutious for a considerable length of time—the assailed frequently seeking shelter up the pantaloons and in the bosoms of the assailants. When the bloody work was ended, the slain were collec-ted logether, and found to number one hundred and eighty. The whole number of rats collected in the mow must have been more then two hundred, as upwards of thirty made their escape .- Butter,

BTA postmaster on the New Haven and New London route lately found a cat in the mail bag. It is supposed that he knocked it on the head and forwarded it to Washington with other "dead mat-

ITIt is stated that an intelligent citizen of Houson, Texas, has recently made a close examination into the matter, and finds that about \$75.000 are spent every year in that city for intoxicating liquors-a city of about three thousand white inhabitants.

30 DOZ Salad Oil, in baskets, for sale by KELLS @ OALDWELL

Great Sale of VALUABLE EUROPEAN OIL PAINTINGS. VALUABLE EUROPEAN OIL PAINTINGS.

On Monday morning, 14th inst., at 104 o'clock, at Union Hall, Main street below Monroe, by Wim. Hall, Auctioner, a large collection of superb Paintings in oil, nump bering about 130 choice subjects, both of the ancient and modern schools of Germany, France and Holland, bring the property of a gentleman who has just returned from the continent of Europe, and by whom they were selected during a tour made through the principal European capitals during the last year. Among them will be found works from the pencils of some of the most celebrated at the street of the subject, Postcile Percectilia, Van Coppel, Chambeaux, Van Yechroeck, Schelhort, Moert, Dupre, and others of the catalogue. They can be wouched for as being all works of great merit, and it is confidently believed they will meet the views o the refined taste of the catalogue and vicinity, as it is known that this is the finest collection of pictures ever brought to this country, and such as ret rarely, It ever, to be procured at suction competition. They have all been framed in rich ornanental gitt frames, made expressly to work. it each picture, by one of the best ma

York.

The pictures will be for examination, with catalogues.
(a imission free) all day on Friday and Saturday, and on Monday morning until the hour of sale. The ladies and gentemen of wheeling and vicinity are invited to examine them prior to the day, of sale.

If The vice will be peremptory.

Parties residing in the country can have their pictures packed on the spot, so as to be sent any distance with perfect safety.

EVERY DAY BRINGS SOMETHING NEW. THE undersigned have just received, by Express, and other supply of those fine Silk Velvet Vestings. Also, a beautiful assortment of Fancy Cassineres of superior quality. Give us call early, as they are soing off very fast, and every hour makes the assortment less. Delay is dangerous. The piaceto find them is at No. 2 Washington Hall.
