THINK CLOSE AND PONDER WELL?

The principles upon which it is claimed that the chains produce their marveitous cures are, first—that all nerreus discases are attended and produced by a delicient supply of nervous fluid, and an agent that resembles closely electricity or electro magnetisms; and second—that the electro magneticchains, by being worn over and upon the part and, organ diseased, furnish to the exhausted nervous system, by its powerful stimulating effects, the nervous fluid which is required to produce a healthy action through the entire system. No disgusting noatrum is allowed to be taken while using the chains, but a rigid observance of the general laws of health are required. Blisk friction upon the part diseased adds much to the effect of the chains, by increasing their magnetic power.

This Liniment is a valuable auxiliary in the treatment of some of the most formidable diseases with which it is our lot to contend; for instance, infammation of the lungs and lower. There is an evil t abit sometimes induged in by boys, in solitude, often growt, g up with them to manhood, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, inst ious, and devastating affections. *This is, without exception, the most comprehensive and intelligible work published, on the class of diseases of which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and so parent, however fastidious, car object to placing it in the hands of his soons. The author has devoted many years to the treatment of the various complaints treated of, and 'with too little breath to puff,' and 'too little presumption to impose,' he has offered to the world at the merely nominal price of 25 cents, the truits of some twenty years most successful practice '-Heruld.'
