# THE INTELLIGENCER.

THURSDAY MORNING, JULY 10, 1856.

## TO CORRESPONDENTS.

LETTERS concerning subscription, advertising or other financial business of the Intelligencer, should be addressed to the Proprietors.

Letters concerning the editorial department of the paper, should be addressed to the Editors, jointly, or to either one of them.

Correspondents writing for publication, will please write only on one side of the paper.

An observance of the above rules will greatly oblige us, and secure more prompt attention to correspondents than they might otherwise receive.

## THE LAW OF NEWSPAPERS.

1.—Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions.

2.—If subscribers order the discontinuance of their periodicals, the publisher may continue to send them until all arrearages are paid.

3.—If subscribers neglect or refuse to take their periodicals from the offices to which they are directed, they are held responsible till they have settled the bill and ordered them discontinued.

4.—If subscribers remove to other places without informing the publishers, and the papers are sent to the former direction, they are held responsible.

5.—The Courts have decided that refusing to take periodicals from the office, or removing and leaving them uncalled for, is *prima facie* evidence of intentional fraud.

WE learn that the Iowa route to Kansas is now complete, taking in the stage lines. We here find a railroad connection from Chicago to Iowa City, and a stage route from Iowa City to Dayton, on the Missouri River, in south-western Iowa. On the opposite side is Nebraska City, from whence a line of stages will be run through Nebraska and Kansas to Topeka.

AMONG the detailed quotations of the Cotton Plant, concerning the Baltimore market, we notice the following item concerning cotton and woolen goods:

We note a very firm business this week.—Prices are already as previous quoted, for all kinds of cottons. Woolens are also firm and in good request. We quote: Heavy brown drill at 5@5¼ for sheetings. Light sheetings 6¾a7¼.—Fair qualities fine bleached Shirtings at 10a12½ cts. Seven-eighs do 6a6¼cts. Prints held at 5¾10 cts. American linen goods are selling at full figures.

WE learned from a passenger in the ill-fated train that left Washington on Monday evening last, something of the accident. The only wonder is, that in view of all the circumstances, the slaughter had not been of a wholesale kind, instead of being limited to two deaths and thirteen injuries. There seems to be no doubt but what it was the preconcerted plot of some malicious fiend, who determined that for some spite, perhaps, against the Company, he would wreak his vengeance by the murder of innocent people. The accident occurred on the other side of the viaduct, in the vicinity of the Relay House. A train had passed only a little while before. The lock of the switch had been violently battered and burst open, and as there were no workmen within several miles of the spot, it was presumed to be the work of some one who had watched their opportunity as soon as the preceding train had passed.

We see that the President of the road has offered a reward of $2,000 for the arrest and conviction of the perpetrator of the deed.

WE spoke yesterday of the indifference with which the 4th of July was looked upon by many Americans. We were glad to see the spirit which pervaded a little note sent to us from a town below, with the unpretending lines below, by a venerable old friend, and entitled:

### THE 4TH IN SCRABBLE TOWN.

MR. EDITOR: Nearly sixty winters have sprinkled their snows on my head, but my heart never felt a *sickening depression* on the anniversary of the Great Declaration, until the LAST 4th. I wish never to pass such another. It was *dull, silent*, and hung with moral gloom. No word of congratulation reached my ear. No one was heard to say. "*This* is the day when, eighty years ago, our grandsires rose in the strength of their faith in *God and right* and struck for independence." Is the spirit of '76 dying? The coldness of the *extremities* indicates at least that there is a great lack of the diffusion of vital heat in this town.

Not a shout stir'd the air,
Not a banner unfurl'd,
Not a cannon was there,
To announce to the world,
That the day had return'd,
(Freemens' great Jubilee)
When our forefathers burn'd
With resolves to be free!
When our forefathers burn'd
With resolves to be free!

Not an anthem was sung,
In the temples of praise,
Not a peal was rung,
To the Ancient of Days—
Not a syllable uttered
For instruction to youth;
Nor a *hint* even mutter'd,
That would lead to the truth!
*Not a hint* even mutter'd
That would lead to the truth!

THE Chicago Journal in a review of their grain market, says:

The present rise of prices of grain is a matter of great speculation, many being confident that it will rise still higher, while others are equally confident that it will fall much lower. Which of the two are right, time will show. Outside circumstances may cause it to vibrate a little each side of present quotations, but we think ere long it will finally settle upon some figure, and there remain with little or no change.—From what we both see and hear of the crops, we cannot conclude that they will be above the average; that is, taking the crop of the whole country. Taking the crop as average, we shall have but little to spare for European demand, and the rise or fall will be independent of steamer's news or foreign advices, or at least until the supply exceeds home demand. The rapid increase of population in our country and the diversion of labor to railroads and other mechanical branches will tend to equalize supply and demand. Domestic circumstances alone therefore will influence prices, and there are exceptions, such as short crops, difficulty of transportation, or something of this kind.

FIRE AT STEUBENVILLE.—A destructive fire occurred at Steubenville on Tuesday night, resulting in the loss of a very large amount of manufacturing property. The fire was first discovered in Orth's woolen manufactory, corner of Ninth and Adams streets, and before the firemen reached the ground had caught upon the machine shop of Mr. McDevitt. Both establishments were entirely destroyed. Orth had an insurance of $5,000. McD 's will, it is said, be a total loss.

EX-PRESIDENT Van Buren has come out in a strong letter in favor of Mr. Buchanan. This, doubtless, will have an effect in promoting a harmonious action in the Hard and Soft Conventions, to be held this month in Syracuse.

### CONGRESSIONAL.

WASHINGTON, July 9.

SENATE.—On motion of Mr. Benjamin, resolutions were adopted directing the Sec'y of the Senate to take the three bills passed over the President's veto to the Sec'y of State, in order that they be deposited on file in that Department.

Mr. Benjamin remarked, in reference to the question raised the other day as to whether two-thirds of the members present, or two-thirds of all the members of the Senate, were required to pass a bill over the President's veto, that he had examined the precedents and found that the first session of the first Congress, composed in part of those members of the Convention who framed the Constitution, 11 amendments to the Constitution passed both Houses, and in both were adopted by a vote of two-thirds of the members present, and not two-thirds of the whole body.

Messrs. Mason and Toucey expressed the opinion, after more deliberate reflection, that the decision of the Chair was correct.

Mr. Toombs said precedents were not worth much; when they were in a person's favor they were relied on, but when contrary, they were disregarded.

HOUSE.—Mr. Cragin, from the joint committee on Printing, submitted a resolution to print 100,000 copies of the majority and minority reports of the select committee appointed to investigate the Brooks assault upon Sumner, to cost 9 cents per copy.

Mr. Sneed unsuccessfully moved to lay the motion on the table.

Mr. Cobb, of Ga., moved to reduce the number to ten thousand. The resolution thus modified passed.

### FROM KANSAS.

ST. LOUIS, July 9.—Advices from Topeka to the 4th have been received.

A convention met on the 2d and passed resolutions in favor of the Republican party, denunciatory of the Democracy, and appealing to the friends of free Kansas in Congress to stop the supplies until Kansas is admitted under the present constitution.

Marshal Donaldson and Judge Elmore read to the Convention the President's February proclamations and a new one from Mr. Woodson, Sec'y of the Territory; also a note from Colonel Sumner, stating that he would prevent the meeting of the Legislature—but they were not heeded. About 800 people were present, all armed.

Both branches of the Legislature met on the 4th, a quorum being present the roll was called.

About noon Col. Sumner entered town with 200 dragoons, and planted two pieces of artillery at the head of Kansas avenue.

The troops were drawn up before Constitutional Hall, and Sumner told the citizens he would not disarm them or break up the Convention, but that he had orders to dissolve the Legislature, and would do so. Sumner then entered the Hall of Representatives, and in a gentlemanly manner informed the Members he had orders to disperse them, and he should enforce it. He said, I am called upon to perform the most painful duty in my life, under the authority of the President's proclamation, I am here to dissolve this Legislature, and in accordance with my orders, command you to disperse. God knows I have no party feeling in this matter, and will have none while I hold my present position in Kansas. I have just returned from the border, where I have been sending home a party of Missourians, and am now here with instructions to dissolve this Legislature, and I again command you to disperse.

Judge Schuyler asked if they were to understand they were to be driven out at the point of the bayonet.

Sumner replied—I will use the whole force under my command to enforce my orders.

The House then dispersed. A similar scene was enacted in the Senate, when it also dispersed.

The Convention was preparing resolutions endorsing the State government and the Topeka Constitution. Fears of invasion had kept large numbers from attending the Convention. Lane had not yet arrived.

### FROM ST. LOUIS.

JULY 9.—Jas. S. Hackney, Quarter-Master-General at Jefferson City, has sent a letter to the editor of the Jeffersonian and Examiner, dated the 1st inst., denying the charge made by the correspondent of the Missouri Democrat, that Gov. Price had sent 12 cannon and 22 boxes of muskets to Atchison and Stringfellow, for conquest in Kansas. The letter says:

"No arms have been given out except to regularly organized companies. The Platte militia law has been complied with, and not a single gun or musket has ever been sent to Atchison or Stringfellow; but on the contrary, when applied to for arms by persons not entitled to them, Gov. Price has invariably refused them. St. Louis county alone has received more arms than all the balance of the State."

### FROM NEW YORK.

JULY 9.—The papers contain Fremont's letter accepting the Republican nomination. With regard to the vexed question, he says it would be out of place here to pledge myself to any particular policy that has been suggested to terminate sectional controversy engendered by political animosity, overrating a powerful class banded together by common interest. A practical remedy is the admission of Kansas into the Union as a free State. The South should, in my judgment, earnestly desire such consummation; it would vindicate its good faith, it would correct the mistake of the repeal of the Missouri Compromise, and the North having the practical benefit of the agreement between the two sections, that they would be satisfied, and good feeling be restored. A measure perfectly consistent with honor to the South, and vital in its interests. That fatal act which gave birth to this purely sectional strife, originated in the scheme to take from the free labor of the country secured it by the solemn covenant, cannot be too soon disarmed of its pernicious force. The only genial region in the middle latitudes left emigrants from the northern States, for homes, cannot be conferred from free laborers who have long considered it as set apart for them in our inheritance without provoking desperate struggles, whatever may be the persistance by a particular class, which seems ready at all hazards, to do everything for the success of the unjust scheme it has partially effected.

I firmly believe that the great heart of the nation which throbs with patriotism, and freemen of both sections will have power to overcome it. They will look to the rights secured to them by the Constitution of the Union as the best safe guard from the oppression of a class which, by monopoly of soil, and slave labor to till it, might in time reduce them to the extremity of laboring upon the same terms with the slave. The great body of non-slaveholding freemen, including those of the South, and upon whose welfare slavery is an oppression, will discover that the power of the general government over public lands may be beneficially extended to advance their interests and secure their independence; knowing this, their suffrages will not be wanting to maintain that authority in the Union which is absolutely essential to the maintainance of their own liberties, and which has more than once indicated the purpose of disposing of the public lands in such a way as to make every settler a freeholder.

### FROM THE FAR WEST.

WASHINGTON, July 8—Maj. Gen. Wool, writing to the War Department under date of Benecia, June 3d, says from all the information he has obtained, there is no doubt that he shall be able to communicate, by the mail of the 12th instant, the gratifying intelligence that the Indian war has ceased in the department of the Pacific.

He shall, he remarks, have no enemies to contend with but the extirpators of the Indian race; and if Col. Wright had taken the advice of the Governors of Washington and Oregon, there would not now be a dwelling standing on the bank of the Columbia river from the Dalles to its mouth. Had such an event happened, these Governors would have been satisfied to their heart's content, for it could not have failed to cause a long war in the country.

The Governors continue their recriminations on Gen. Wool, and have sent additional reasons why he should be removed from his command there.

The recent passage, through each House, of the three River Improvement bills over the President's vetoes, has caused very much rejoicing among the friends of such objects.

PROFESSOR WOOD'S HAIR RESTORATIVE is, no doubt, the most wonderful discovery of this age of progress, for it will restore, permanently, grey hair to its original color, cover the head of the bald with a most luxuriant growth, remove at once all dandruff and itching, cure all scrofula and other cutaneous eruptions, such as scald-head, &c. It will cure, as if by magic, nervous or periodical headache; make the hair curl, glossy, and wavy, and preserve the color perfectly, and the hair from falling, to extreme old age.

The following is from a distinguished member of the medical profession:

ST. PAUL, January 1, 1856.

PROFESSOR O. J. WOOD—

DEAR SIR: Unsolicited, I send you this certificate. After being bald for a long time, and having tried all the hair restoratives extant, and having no faith in any, I was induced, on hearing of yours, to give it a trial. I placed myself in the hands of a barber, and had my head rubbed with a good stiff brush and the Restorative then applied and well rubbed in, till the scalp was aglow. This I repeated every morning, and in three weeks the young hair appeared and grew rapidly from August last till the present time, and is now thick, black and strong—soft and pleasant to the touch; whereas, before, it was harsh and wiry, what little there was of it, and that little was disappearing very rapidly. I still use your Restorative, about twice a week, and shall soon have a good and perfect crop of hair. Now I had read of these things—and who has not? but have not seen hitherto any case where any person's hair was really benefited by any of the hair tonic, etc. of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others, and it already has a large and general sale throughout the Territory.—The people here know its effects and have confidence in it.—The supply you sent us, at wholesale agents for the Territory, is nearly exhausted, and daily inquiries are made for it.—You deserve credit for your discovery; and I, for one, return you my thanks for the benefit it has done me, for I certainly had despaired, long ago, of ever effecting any such result.

Yours, hastily,
J. W. BOND,
Firm of Bond & Kellogg, Druggists, St. Paul.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and Pastor of the Orthodox Church, at Brookfield, Massachusetts. He is a gentleman of great influence, and universally beloved.

WM. DYER.
BROOKFIELD, January 12, 1856.

PROFESSOR WOOD—

DEAR SIR: Having made trial of your HAIR RESTORATIVE, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff, and a constant tendency to itching, with which I have been troubled from my childhood up, and has also restored my hair, which was becoming gray, to its original color. I have used no other article, with anything like the same pleasure or profit.

Yours, truly,
J. K. BRAGG.

114 Market street, ST. LOUIS, March 5, 1855.

DEAR SIR:—I am doing an extensive travel in the West and Southwestern States, as general agent for Adams American Liniment, and would be glad if you would favor me with a consignment of PROFESSOR WOOD'S RESTORATIVE, as I feel that I can introduce it in many places where it is not known, as my head is a living testimony of its invaluable properties, in restoring the hair to its natural color. I am forty years old, and my hair was almost white; but after using three half pint bottles, my hair is as beautiful auburn as it was at sixteen, and much improved in appearance, and I would not be without a bottle on hand for the price of ten. I should be glad to hear from you soon.

Very respectfully,
WM. B. BROOME.

### Ambrotypes & Daguerreotypes
BY PARTRIDGE.

THE subscriber, at his old stand on Monroe street, is daily producing Ambrotypes, which are taking the place of Daguerreotypes. For proof of the fineness of tone and superior finish of his pictures, he solicits the examination of a discerning public. He would invite particular attention to his STEREOSCOPIC AND TRANSPARENT AMBROTYPES; Also—to Lockets and Pins, made expressly for this new style of work.

As these pictures can be taken in from one to five seconds, the difficulties hitherto preventing accurate likenesses of small children are almost entirely removed. Groups of persons, of different ages and complexions, Ambrotyped without difficulty. Pictures can be copied by this process so they will remain unchanged for ages; all Ambrotypes being chemetically sealed between two plates of glass, are warranted never to fade.

Caution should be observed against pictures called Ambrotypes, which are not properly so, being a single plate of glass and liable to be defaced. As the facilities of the undersigned are constantly increasing, he will be prepared to make Daguerreotypes at all prices.

Rooms at the old place until May 1st, when he will remove to his new and spacious establishment east side of Main st., between Union and Monroe, which will be one of the best arranged establishments in the country. The entire length of the rooms, 135 feet. No pains or expense will be spared in the arrangement for producing superior work, and ensuring the comfort of visitors.

fe8 A. C. PARTRIDGE.

### DR. E. G. WINCHELL,
**DENTIST,**

HAS taken a suit of splendid rooms in Hornbrook's new block, 113½ Main st., directly over C. P. Brown's Jewelry store, where he hopes to establish himself permanently. By close attention to his business, reasonable charges, good and faithful work always warranted, he hopes to secure a share of patronage.

Dr. W. is familiar with all the new modes of inserting Teeth, including the "Continuous Gum" work. Pulling, cleaning and extracting, done in the best and most faithful manner.

No charge for advice. For further particulars inquire at the office. my24

*Echt Hollandsch Kruiden Bitters.*
*Blended Bleeding Piles.*

TWN YEARS have elapsed since the introduction of this valuable medicine into the United States. During this time it has gained a *universal popularity* as a Remedy for

*Fever and Ague, Dyspepsia, Indigestion, Headache, Loss of Appetite, Debility, Costiveness,*

Many of our most worthy citizens testify to its wonderful efficacy in all affections of the Stomach and Liver. As a Tonic, it has never been equaled, for the relief it affords in all cases of debility or weakness of any kind is almost instantaneous. In Nervous, Rheumatic and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

When eminent physicians prescribe, and their patients so unhesitatingly recommend, surely we may cease to doubt, and eagerly test its virtues for ourselves.

FEVER AND AGUE.
