THE WEATHER for the past two days has been commonly cool, and comfortable, and has afrded a pleasant relief from the long succession f scorches which preceded the present spell.

dy of a boy, supposed to be eight or ten years of age, was found floating in the Ohio, below the mouth of Big Yellow creek, on the 4th inst. As he was found in a perfect state of nudity, the verdict of the inquest was, that he was acci-dentally drowned while bathing. His hair was sandy, complexion light, eyes supposed to have been blue, and the body measured three feet cight inches in height.

WHEELBARROW EXPRESS .- John Flanegan for drunkenness, was carried to jail yesterday on a Wheelbarrow by officer Hawley, Esquire Dulty, having so ordered, owing to a physical weakness in John's locomotive appendages.

Another man, who did not know his name, was sent up for this great besetting sin for two days. He observed to the magistrate, that two days was too long a time for one spree. He said that when he lived in Pittsburgh, he used frequently to get drunk, and them agistrates never thought of sending up for more than twentyfour hours.

THE ORGAN GRINDER.—The organ grinder is a sharp man. The little girl who keeps time with the tamborine, is prematurely so. They are well trained in the great and highly important art of gathering together many picayunes.-They well know that

"An empty pocket's the worst of crimes,"that nothing will smooth their paths through this avaricious world, like the "eloquent chink" of evil's golden root. The organ grinder knows exactly where it will pay to essay a tune, and the little girl is equally well posted up as to the proper time to thrust out the hated tamborine or the pittances. The organ grinder knows that the aid of farthingaledonr is no mean element to his success. He visits our hotels just at twilight, when the balconies are crowded with ladies and gentlemen, and stationing himseif on the pavement beneath, proceeds to grind out the Bold Soldier Boy. While the little girl mechanically thumps the tamborine, her keen beight eye is running over the faces of her betters, to see what the prospect is. And now we see to what "base uses' the organ grinder has brought "heaven's best gift to man." Their talismanic presence brings quarters from the most niggardly of human be ings, and although they come with an apparent good will, it is in fact, like pulling teeth. One young man rattles down three five cent pieces and a new cent. One bour before we saw him spurn a pitiable, deserving old woman from him, Another leans far over the railing so that all may view his munificent magnanimity and drops a dime. Pure, disinterested, independent benevolonce is among the things that were, and ostentatious charity has taken its place. The system as developed by the organ grinder, will hold good, out in the world. You only want to enlarge the scale and you have the secret of extravagant donations. The women are the public and the organ grinder is a public institution,

PROM WASHINGTON.
August 20.—Gov. Walker of Kansas, in offi-August 20.—Gov. Walker of Kansas, in official despatches recently received, says on one point he has been grossly misroprescated, viz: as desiring that every man should vote who happened to be in the territory on the day of election for the ratification of the constitution. This, he remarks, would be desirable if there was conclusive evidence that all such persons was conclusive evidence that all such person-were actual bone fide settlers; but the only suf-ficient and usual proof of such a fact, would be some previous residence. On this point, which is one of detail, he had now proposed to make suggestions to the convention, although where asked his opinion by members of that, he had indicated a previous residence of three or six mouths and that the same qualifications should be educated in the general tribute in regard not be adopted in the constitution, in regard not only to that, but to all future elections, and in his judgement, one or the other of these term will be adopted by the Convention, from when he anticipates a cordial co-operation.

It is somewhat extraordinary, he remark-

this accusation of letting every man vote wh may happen to be in the Territory on the day of the election, has been professed in the South, as indicating a desire on my part to let in Abolition interlopers to control the result.

The Republicans of Kansas have taken an er tirely different view, viz: That I designate i this manner to bring many thousand Missour ans into the Territory, to decide the contest. The President has by Proclamation declare a treaty of friendship and commerce between the U.S. and Persia, of binding force.
