Morals and High Prices .- It never occurred to us that the high price of provisions and morality were at all related to each other until very recently, when, upon reading a paragraph in some newspaper, upon the subject, we were induced to give the matter some attention. After thoroughly considering the subject as re-After thoroughly containing the past year, we Call at the "Bridge Corner Drug Store." are prepared to say that dear beef is as fatal to morals as badly lighted throughfares or low necked frocks. The "local" of an exchange paper argues about like this:

Put up the price of tobacco to two dollars a pound, and there would not be an honest segar maker in the city. Oakum and guano would then take the place of "Prime Cavendish;" while first class regalias would owe their paternity not to lavana, but to the cabbage patches that luxu-

People who would live happily and die in bliss, should think of these things, and pray for full crops, full barns and low prices. Amen!

Vesterday-"The day opened through a golden door." The sky was marvellously clear and bright-the air pure and invigorating. The day seemed to have staggled from its allotted place sometime last September, like a lamb from the fold, and deigned to wander into the rout of this grim season, setting at defiance all the prophecies of the Almanac and its old logy followers and believers. The man who paints the grim picture on the January page of that sort of publication, portraying "a tremen-We can only charitably allow that he did not atend it for this latitude. Singular Accident.—A man whose name we could not learn, was thrown headlong from a fractious horse in the streets of Bridgeport the day before yesterday. He was pitched head foremost into a sea of mud, with such great violence that nothing but his heels were visible. In his descent the bridle rein looped over his arm and shoulder, and that member penetrating the soft arth along with the balance of his corporosity, the man was thus transmogrified into a hitching in the ground, and the horse was unable to leave a the ground, and the horse was unable to leave the spot, until the woe-begone rider was fished Fortunately, no serious injury was sus-

Dr. Frizzel was called to attend and proper medical treatment rendered. The unfortunate boy was in a critical condition at last accounts.

A Cunning Thief .- The young man who borowed a watch from an inebriated friend at the donroe House day before yesterday and afterwards "snaked" it, sloped yesterday with the proceeds of the ill-gotten chronometer. He sold he watch to a Main-street clothier for five dollars, but was compelled to redeem it, when he sold it to another party for eight dollars, and is now employing his locomotives in a diection unknown "to those whom it concerns." Somebody is interested in the information that T. H. LOGAN & Co., have just received some articles that have been "wanting" lately, such as 'Keyser's Pectoral Syrup," "French Army Lotion," "Sanfords Liver Invigorator," Concentrated Lye, White Castile Soap, &c.

They have also some elegant style "Colognes" which they will close out at very low prices.-

A LIVER REMEDY.—We wish to say to every person who reads this that there is an article known as Dr. Sanford's Invigorator, or Liver "When mutton is eight cents a pound, the Remedy, which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

CONGRESSIONAL. Wasainoron, Jan. 7.
Senate Mr. J. A. Hemmond, Senator from from South Carolina in place of Mr. Butler, dedeceased took his place in the Senate.

Mr. Seward, of New York, presented a potition from citizens of Canandaigua, N. Y., praying for the adoption of some practical measure by which the people of the north may co-operate with the people of the South in extinguishment of slavery, by making a fair and honorable compensation to the slaveowners for full value of their slaves, the petition was ordered to lie

On motion of Mr. King, a resolution was re-ported requiring the President to furnish if not incompatible with the public interest, copies of the correspordence and dispatches from our Ministers at the courts of England, France and other powers, on the subject of the dangers of emigrants coming from thence contracting with irresponsible parties for their inland passage. On motion of Mr. Foote, a resolution was a-dopted calling on the President to communicate

alliofficial dispatches and correspondence of Robert McLane and Peter Parker, late commissioners in China, with the State department.
On motion of Mr. Gwinn, the committee on Foreign relations was instructed to inquire into the expediency of making an appropriation by low for the compensation of minister plenipo-

tentiary to the empire of Japan, and for other officers of the U. States government in Japan. House.—A select committee was appointed to enquire into the circumstances attending the sale of Fort Snelling, it consists of Barnet, Mor-ris, of Ill., Morrel, Franklin and Pettit.

To-morrow being the anniversary of the bat-de of New Orleans, it was agreed that when the House adjourn to-day it be till Monday. The House then went into a committee on

the Presidents message.

Mr. Thayer maintained that if we wish we an and shall Americanize Central America, bnt have no desire to do so at the expense of our national honor by a violation of treaty stipulations. The proper way to effect it was by

peaceable emigration.

Mr. Washburn, of Me., dehounced the Le compton Constitution and said the administra-tion never intended that the people of Kansas should decide the slavery question for themselves. Adjourned.

A message was received from the president, in response to the call for information relative to the recent events in Centeral America .-While the President says that Commodore Paulding committed a great error in arresting G.n. Walker, he thinks it is quite evident that Com. P. was actuated by patriotic motives and desirous of promoting the interest and vindicating

honor of his country.

The government of Nicaragua sustained no injury by the act, but was rather benefitted, it alone, would have the right to complain and he is quite certain it will never execute that right. A warm and long debate ensued in which Seward of N. Y., Doolittle of Wis., and Pearce of Md. sustained the views of the President.

Davis of Wis., Douglass of Ill., Crittenden of Ky., Brown of Miss., Pugh of Ohia, Toombs of Ga. argued in opposition. The message was referred to the committee on foreign relations. The senate then went into Executive session.

GOV. BANKS' MESSAGE.

Boston, Jan. 7 .- Gov. Banks' message is mainly devoted to local affairs but closes with a review of the Kansas difficulties. The funded debt is one million three hundred thousand; provision is made for all but 215,000. Unless expenses are reduced below last year there will be a deficit of 660,000 to be met by State taxes. He recommends the reduction of legislative ses sions to sixty days and the payment of members' fixed salaries. He also recommends the suppression of Bank notes under five dollars, and after three or five years, the suppression of all notes under ten dollars. He refers to the naturalization question by the legislature with whom he will cheerfully concur in the adoption of measures to maintain the purity of elections and protect the rights of American citizens. Concerning Kausas he says, nothing but di-

rect introduction of Federal influence can force brough Congress the L. ecounton Constitution If Government, with the sanction of the people, can force upon Kansas with the conceived fraud and violence, it will be the mightiest blow ever given against free Governments.

BANK MATTERS.

ALBANY, 7th—The report of the bank super-intendents of this State, submitted to the Leg-islature, recommends that no mortgages be allowed to be taken hereafter as security for circulating notes; to compelevery corporated bank gradually to replace ther present circulation by notes secured in the same manner as free banks; to compel all banks of the city of New York to keep 20 per cent of their average weekly deposits of all descriptions in coin; special deposits of coin not to form a part of the statement; the banks out of the city to keep the same el ther in coin or balance to their credit in a solvent bank of New York, Albany or Troy.
