Feren Mile Race at Midnight .- A race ome off late night before last, or rather early reservay morning, which throughly tested the speed and endurance of two of our best livery horses. Lights shot up in the wayside houses, "The dogs did bark, the children screamed, Up few the window's all, And every soul cried out "well done," As load as he could bawl."

The distance was accomplished in the short ace of 31 minutes, though it is said the horwere not kept down to an honest trot. The ace resulted in a victory for a favorite roan by that of his competitor.

Grand Vocal and Instrumental Rehear. al.—The musicians interested in the grand concert which is to come off on the 14th, had a rehearsal at Washington Hall last evening. The few who were favored with inside tickets were enthusiastic in their praise of the performers, though of course no opinion can be formed from a simple rehearsal, of what the entertainment will be when it takes place before the public. The curbstone was pretty well patronized last night by pedestrians attracted by the m lodious music within, and

"Right hard it was for wight which did it hear,
To rede what manner of music that might be,
For all that pleasing is to living ear,
Was there consorted in one harmony."

The programme of the proposed concert is lengthy, varied and well chosen, and we anticipate one of the finest as well as one of the most stupendous musical entertainments of the sea-

WASHINGTON, Sept. 6 .- There is no truth in the recent statement from Vera Cruz, that Minister McLane had presented an ultimatum and demanded the immediate ratification of a treaty, for it is known here that his preliminary points thereof, were mutually satisfactory to both this government, and that of the constitutionalists. It was also understood that if the treaty should be ratified on this basis, McLane himself, would return it to Washington. The main points probably, are the right of way across the Northern States of Mexico from the Rio Grande to Mazatlan, and from Arizona to Guaymas, or some other outlet on the Gulf of California; the U. Gen. Harney has acquainted Gen'l Scott with all the circumstances attending his occupation of the Island of San Juan. It appears he had not been previously specifically instructed to take possession, but sent troops thither to protect the 25 or 30 Americans residing there who had been included in the taxation limits by the authorities of Washington Territory.
