### Wilson Considers Plan To Raise Revenues

WASHINGTON, Dec. 18.—President Wilson and the cabinet already have begun consideration of ways to raise revenues to meet the threatened deficit on June 30, 1918. The President let it be known today that he had reached no conclusion, but in general was opposed to bond issues except to meet expenditures of temporary nature. He probably will address Congress on the subject later.

In this connection the possibility of the continuance of the patrol of the

Mexican border into the next fiscal year is being taken into consideration. To keep the expenses of the government as low as possible the President will carefully scrutinize all the appropriation bills.

In a conference with Chairman Sparkman, of the House rivers and harbors committee today, he urged that the rivers and harbors bill now being drawn provide for urgently necessary expenditures. Mr. Sparkman took to the White House a tentative including appropriations of \$25,000,000 for old projects and \$10,000,000 additional for new ones.

Another conference will be held before the bill is introduced. Mr. Sparkman said he had conferred with members of the House Ways and Means Committee, who are considering ways of meeting the government bills for the next fiscal year. Because of the threatened deficit, he declared, the Rivers and Harbors bill would be held down to a minimum. Many other new projects have been favorably passed upon, but will not be included in this year's bill for economy's sake.

### To Relieve Catarrhal Deafness and Head Noises

If you have Catarrhal Deafness or head noises go to your drugist and get 1 ounce of Parment (double strength), and add to it 1 pint of hot water and 1 ounce of granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial.

### BIG FIGHT ON TO MAKE BOSTON DRY

BOSTON, Dec. 18.—Interest in the outcome of the fight to make Boston a no license city overshadows all other issues in the elections to be held in five Massachusetts cities tomorrow. The registration, about 120,000 is the largest in the history of the city and the almost unprecedented publicity campaign conducted by the "wet" and "dry" forces has been aimed to bring out the bulk of this vote.

Ordinarily Boston is considered a license city by a substantial margin. The yes vote last year was 46,115 against a no vote of 31,377, a majority

### KAISER PRAISES HIS TROOPS IN ADDRESS

AMSTERDAM, Dec. 19 (via London, 3:30 a. m.)—A speech by Emperor William on Dec. 14, to the troops commanded by General D'Elsa in Lorraine is quoted by the Neuse Nachrichten of Leipzig as follows, in part: "The brave endurance and iron tenacity with which you have repulsed

all enemies on all fronts for years has made it possible for me to address to my adversaries a proposal for peace negotiations. Whether they will accept I do not know and the result is uncertain. The act is in God's hands, as is our whole struggle. He will decide it and we will leave it to Him. We must not argue with what He orders.

We will be grateful to Him that we have thus far the honor of being His instruments in the divine judgment that has come upon our enemies. Let the decision fall as it will. The hewing will proceed further until our adversaries have had enough."
