CORONER USED DUMMY IN TEST

Tells Court in Woman's Trial That He Tried to See How Body Would Fall—Court Adjourns Until Tuesday.

BRIDGEPORT, Conn., March 6.—The stage set for denouement of all its colorful mystery and the back country juryman fairly saturated with details of the structure of the Rippowan apartments in Stamford wherein, on the night of June 23, 1914, Waldo R. Ballou met death, Judge Williams on Friday night adjourned the manslaughter trial of Mrs. Helen M. Anglin until Tuesday morning when the state will begin weaving its net of circumstantial evidence with which it hopes to draw Mrs. Anglin to prison.

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take tablespoonful of Salts if back hurts or Bladder bothers.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble. The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system. When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in the urine so it is no longer a source of irritation, thus ending urinary and bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

gle until Tuesday morning when the state will begin weaving its net of circumstantial evidence with which it hopes to draw Mrs. Anglin to prison. Bored by legal bickerings Mrs. Anglin complained Friday night of the tedium of the trial. She declared herself weary and looked ill. She seems eager to take the stand. John J. Phelan, coroner of Fairfield county was the most important witness of the day. He told of constructing a dummy and tumbling and throwing it from the top of the stairs in the Rippowan apartments to see how it reached the cement landing. The coroner declared he stood in the apartment of Patrick Rabbitt who lives in the flat beneath that occupied by Mrs. Anglin and who testified at the coroner's inquest of hearing a body fall. "I stood about where Rabbitt said he was sitting on the night Mr. Ballou was killed," the coroner said. They took the dummy to the top of the steps and let it fall. It struck four steps from the landing. Then they took the dummy back and pushed it. That time the dummy struck about the place that Rabbitt declared he heard the sound.

The coroner said the dummy weighed about as much as Ballou and was equipped with a wooden head. He was then asked whether he experimented to learn whether, standing in Rabbitt's apartment, he could hear voices on the stair well. It was recalled that Rabbitt declared that he heard no voices and that Mrs. Anglin is alleged to have told the police matron after her arrest that she heard a crash and ran out to the hall and cried: "Jimmy, Jimmy, what's the matter?" Phelan declared one of these men uttered these words at the top of the steps and that while he could hear the voice plainly enough, he could not discern the words spoken.

SHOW LIFE IN ORIENT

Dorsey Pictures of Far East Shown at the Oliver.

What the men and women, boys and girls of China and Japan do was shown in the Dr. Dorsey Photo Wonders of the Far East yesterday afternoon and evening at the Oliver theater. The pictures show how the people of these eastern countries dress, how they worship, how the men of China and Japan catch whales, the processes used in the manufacturing of various articles and many other things which the people of America can never learn of by reading books or hearing lectures. The pictures will be shown this afternoon and evening and tomorrow afternoon and night.

SPEAKER BEDWELL IS PRESENTED WITH RING

Lone Progressive Member During the Presentation Says Leader Will Be Next Governor.

Special to The News-Times.

INDIANAPOLIS, March 6.—Speaker Charles H. Bedwell, late Friday night was the central figure in a little non-partisan drama in the house that resulted in the presentation to the speaker, by Floor Leader Branaman, in behalf of the entire membership of the house, of a solitary diamond ring. In his address Branaman eulogized Bedwell for his fairness and called him a "real man, a man who at all times has put right above politics."

Rep. Jenkins, the lone bull moose during the wild outburst of applause which followed the presentation, shouted "He'll be the next governor of Indiana for your party."

TAKE PROPERTY TO SATISFY TAX CLAIMS

One horse, a set of single harness and a horse blanket were taken from Abraham Zuravel, 712 W. Monroe st., Friday afternoon by the delinquent tax collectors to satisfy a claim for \$7.88 in taxes. Within a half hour, it is said, the horse was redeemed by the payment of the tax and the costs.

The collectors have made preparation to go out with a wagon and take property from those who have failed to respond to notices to pay overdue taxes. Only the weather prevented the attachment of several pianos and sewing machines Friday. Notices were sent out this week calling attention to the fact that said notice is the last warning before the work of attaching property begins. There was approximately \$12,000 due on last year's tax list and of this amount there has been \$1,000 collected by the delinquent collectors, employed by County Treasurer Martin.

An investigation has shown that the number of delinquents to be collected from is less than it was at first expected there would be. This is due to the fact that many persons had moved from the county or could not be found when notices were delivered. There arises also the cases of persons so poverty stricken that no attempt is made to collect taxes from them.
