BASE BURNERS

Our many satisfied customers who in years past have used Peninsular Base Burners will be pleased to know that the McGill store is still selling this celebrated line of which we have exclusive control in South Bend.

The Peninsular Base Burners take the cold air from the floor and pass it around the heated bottom and then out the registers on the sides, thereby heating the farthest corner of the room. The Peninsular burns up every particle of coal and of course that means smaller coal bills and an easy working grate at all times.

Silvery white nicked trimmings add not only to its appearance but also to the radiation.

These splendid base burners are priced up from \$37.50 to \$65.00.

Don't forget that your credit is good.
