## ORRA L. SNYDER KILLED IN FRANCE

Enlisted From Mishawaka.  
Grandmother Notified by  
The News-Times.

Orra L. Snyder, whose grandmother, Mrs. K. Pearson, lives at 122 W. Lawrence st., has made the supreme sacrifice, according to a telegram received in Mishawaka Wednesday morning from Adj. Gen. McCain.

The telegram announcing his death was addressed to Mrs. K. Pearson at 122 W. Lawrence st. As no such family lives at that address and as the telegraph people were unable to get any information regarding the family, The News-Times conducted a hurried investigation on its own account and succeeded in locating relatives of the soldier.

Snyder was formerly well known in Mishawaka, having visited his grandmother on many occasions and having spent considerable time in the city. He enlisted from here four years ago as a bugler in the engineering corps. On July 4, 1917, he came to this city to spend his furlough with his grandmother. He returned to camp and shortly afterward sailed for France.

According to the telegram, Orra L. Snyder, bugler, engineering corps, was reported officially killed in action June 7. He is the first boy who enlisted from Mishawaka who has been reported killed so far. He was 28 years old and is the son of Mr. and Mrs. F. Snyder, residing on a farm near Grand Rapids, Mich.

The News-Times conveyed the in-

## THE HOME GUARDS—AN EXPLANATION.

Friday night's dance to be given by the home guards for the benefit of that organization and the local chapter of the Red Cross promises to be as successful an undertaking as was the last event of the kind given by the guards.

Owing to some of the ticket sellers failing to thoroughly explain the matter, several ticket holders got a wrong impression as to the motive of the dance. However, a deputation from the organization called at The News-Times Wednesday morning and cleared up the misunderstanding most satisfactorily.

While it had been understood in some quarters that the guards were in a sound financial condition, it would appear that this is not so. The battalion has to furnish its own uniforms, rifles, etc., as well as maintain the armory and other equipment, and this has taken about every cent it has in its treasury. The public has not been made familiar with this before, hence the misunderstanding.

It has also been pointed out that the handling of the funds of the guards is in the hands of civilian committee which attends to all disbursements, this committee being in no way connected with the organization excepting in an advisory capacity.

The local chapter of the Red Cross will have charge of the refreshments Friday night and will derive the benefit of all profits from this source. Outside a few subscriptions, the home guards have only this means by which to maintain the organization, and the public has been most liberal in its purchase of tickets for the forthcoming social affair.

## HOW TO CAN?

## BABY BEETS.

The following recipe for canning baby beets is applicable to carrots. Only young tender beets should be canned to get a high quality product. The best variety for canning is the Detroit.

Sort the beets, putting uniform sizes together. Cut the stems off, but be careful not to cut off too closely or break the root. This will cause loss of juice, color and flavor. Boil in an enameled pan until three-fourths done, peel, pack hot in layers in previously boiled jars, fitting the second layer into the spaces left by the first layer and repeating. Cover with clear hot water; partially seal the jars and boil them in a water bath for one hour continuously, counting from the time the water boils again around the jars. Do not allow cold water to touch the beets after they have been cooked. If beets are packed in tin the cans used must be inside-lacquered. Beets 1-1/2 inch in diameter and over should be cut or sliced before packing into jars. When a steam-pressure canner is used, process for 30 minutes under five pounds steam pressure.

## FISHING SCHOONER IS SUNK OFF MAINE COAST

KENNEBUNK PORT, Me., July 24.—Four men landed in a dory at 23.—Four men landed in a dory at Cape Porpoise Tuesday, reporting that their fishing schooner, the Robert and Richard of Gloucester had been sunk by a German submarine on Cashe bank, 40 miles southeast of Cape Porpoise, at 10:30 o'clock Monday morning. Other dories were coming in behind them, they said. The schooner had just stocked up with halibut for the Boston market.

The men stated that the schooner had been destroyed by a bomb. The submarine, they stated, came out of the water a few hundred yards distant and sent a shell screaming over their bow. The crew promptly swung the schooner up into the wind and took to their boats. Then the raider sent a boat aboard the schooner, apparently took only her papers, placed a bomb and left her. A few minutes later an explosion sent the trim little knockabout to the bottom. No other ships were in sight at the time. The submarine was last seen going south on the surface.
