DAY NURSERY IS DOING GOOD WORK

Splendid Results are Attained by Local Institution—The Board of Managers.

Few institutions in Mishawaka have done so much good in a comparatively short time as that of the Day Nursery, established two years next February. During July this year it took care of 351 children and 327 in August. The average daily attendance during July was 15 and in August 12.

This institution is fulfilling an important mission and is contributing in its modest way to the many war agencies which help toward winning the war. Mothers of these children which the nursery takes care of are enabled to work in the factories busy with war orders, so that its mission is an all important one.

Ladies in charge of the nursery are desirous that the able, contribute toward the upkeep of the institution. Donations of children's clothing, foodstuffs, jellies and other such articles of food are solicited, while money contributions toward the maintenance of the nursery are always welcome.

The board of managers is an active one. Miss Carol Eberhart is chairman; Mrs. Burt Webster, vice chairman; Mrs. E. B. Byrcht, secretary; Mrs. Fred N. Smith, treasurer. Other members of the board are: Mrs. J. W. Keller, Mrs. Rose Grimes, Mrs. William Probasco, Mrs. Frank Gohn, Mrs. C. A. Dresch.

The public is cordially invited to visit the nursery at any time. It is situated at 126 N. Church st. Mrs. L. Metz is matron of the institution.

MANUFACTURE OF BEER IS TO END ON DECEMBER 1

\$12,000,000 Appropriation Measure is Given O. K. in Upper House—Plan to Make U. S. Dry.

WASHINGTON, Sept. 7.—Manufacture of beer in the United States will be prohibited after December 1 next as a war measure.

This announcement was made last night by the food administration, which said the decision had been reached at conferences between Pres't Wilson and representatives of the fuel, food and railroad administrations and the war industries board.

WASHINGTON, Sept. 7.—The twelve million dollar emergency agricultural appropriation bill with its rider for national prohibition from next July 1 until the American armies are demobilized at the end of the war, was passed tonight by the senate without a roll call. Before final passage of the measure the senate voted, 45 to 6, to retain the prohibition rider. A final effort to postpone the effective date of the "dry" legislation to Dec. 30, 1919, was defeated.

The bill now goes to the house, and because of the many amendments inserted by the senate, it undoubtedly will be sent to conference. Prohibition leaders, however, expect the house to agree to the "dry" rider so that there will be no possibility of changes being made by the senate and house members.

Senators voting against retaining the "dry" legislation in the bill were Brandegee of Connecticut, Garry of Rhode Island, Phelan of California, Fomere of Ohio, Ramsdell of Louisiana, and Underwood of Alabama, while it was announced that many members absent and paired favored the amendment.

As returned to the house, the prohibition clause—a compromise effecting last week by senate "wet" and "dry" leaders—would stop the sale of all intoxicating beverages next June 30, except for export, medicinal, sacramental and other than beverage purposes, and would prohibit their manufacture after next May 1.

Compromise Important.

The compromise prohibition "rider" was regarded as the most important provision of the emergency agriculture bill. It is a substitute for that of Rep. Randall of California, adopted by the house last May, prohibiting use of the bill's appropriations until the president should exercise his authority in the food control law to stop the manufacture of beer and wine as well as whisky during the war, as a food conservation measure.

After passage of the bill the senate conference—all regarded friends of the legislation—were appointed: George of Oklahoma, Smith of South Carolina, Smith of Georgia, Kenyon of Iowa, and France of Maryland. How long the bill would be in conference was regarded as doubtful. Prohibition advocates believe it soon will go to the president, who participated in conferences culminating in the senate compromise for extension of the effective date of the war revenue bill and house plans for a recess, immediately after its passage, until about Oct. 15, however, were admitted obstacles.

Eleventh hour efforts to extend the time for the manufacture of beer and wine and disposal of stocks of intoxicating beverages were futile. The senate rejected without a roll call an amendment by Sen. Phelan of California to make the provision effective Dec. 30, 1919.

No Pay for Stocks.

The senate also defeated an effort toward federal payment for stocks of distilled spirits remaining unsold June 30, 1919, rejecting 36 to 15 an amendment by Sen. Bankhead of Alabama proposing a presidential commission to report to congress the actual value, not exceeding cost, of such spirits, with a view to an appropriation for reimbursement of owners.

During the senate controversy, opponents of the bill, especially spokesmen for wine industries, declared it will ruin many interests by not giving them enough time to close up their affairs. Effect on federal revenues and the new war tax bill also were arguments used by the opposition.

Prohibition leaders say that demobilization of troops may require one or two years after the war, continuing operation of the law certainly until after spring of 1920, when they confidently expect the national constitutional amendment for prohibition will have been ratified by the states.

YANKS WILL GIVE 'EM DOSE OF DEADLY GAS

WASHINGTON, Sept. 7.—Mustard gas and deadly phosphene are being sent overseas in quantity for the use of our troops against the enemy, Maj. Gen. W. L. Sibert, chief of the chemical warfare service, announced this afternoon.

Gen. Sibert said that the troops who will handle the gases have been equipped with masks and protective suits that will insure their own safety from the deadly appliances they will direct against the Germans.

SPEED UP NEW DRAFT MACHINE

Gen. Crowder Orders Exemption Boards to Enlarge Registration Force.

WASHINGTON, Sept. 7.—As an additional step in the process of speeding up the draft organization in the endeavor to obtain for induction into military service in October men from the new draft registration next Thursday, Provost Marshal Gen. Crowder is planning enlargement of the local and district boards wherever necessary.

Announcement was made today that Gen. Crowder had telegraphed draft executives in all states asking if an increase in the size of the boards would hasten their operation. Boards already have been authorized to use additional registrars on Sept. 12.

Employees or dependents of registered men who for patriotic reasons may object to entering a claim for deferred classification on the grounds of dependency or the nature of their occupation, will expedite proceedings and prevent injustice by making the exemption claims for the men, it was said today at the provost marshal general's office. There is a form for such claims in the questionnaire, it was pointed out, and local boards will find their duties more complicated if registrants entitled to exemption do not claim it or some interested person does not make the claim in their behalf.

Details in the appointment of advisory committee to each of the district draft boards to assist the boards in passing upon exemptions claimed on occupational grounds, were discussed today at a conference between representatives of the provost marshal general's office, the war labor policy board and the department of labor. Draft boards will name one of the three members to compose each committee.
