

WILSON QUOTES G.O.P. SPEECHES TO ANSWER PROTESTS

Quotes Republican Leaders in 1898 in Answer to Criticism of Party's Present Peevish Leaders.

WASHINGTON, Oct. 28.—Sec'y Tumulty last night made public a letter he has written at Pres't Wilson's direction to the Cuyahoga county republican committee at Cleveland, O., in which he replies to protests against Pres't Wilson's appeal to the country to return a democratic congress by recalling quotations from utterances by Col. Roosevelt, former Pres't Harrison, Sens. Lodge and Penrose, and former Sen. Foraker in the campaign of 1898 at the close of the Spanish war.

The Cuyahoga county committee telegraphed the white house, taking issue with the president's statement. Sec'y Tumulty, writing at the president's direction, simply commended the statements he quoted and also various editorials appearing at the time in reading republican newspapers to the committee's consideration without comment.

The first quotation was from Col. Roosevelt, identified as republican candidate for governor of New York in 1898.

Quotes Roosevelt.
"Remember that, whether you will or not, your votes this year will be voted by the nations of Europe from one standpoint only. They will draw no fine distinctions. A refusal to sustain the president this year will, in their eyes, be read as a refusal to sustain the war and to sustain the efforts of our peace commission to secure the fruits of war. Such a refusal may not inconceivably bring about a rupture of the peace negotiations. It will give heart to our defeated antagonists, it will make possible the interference of those doubtful neutral nations who in this struggle have wished us ill."

"You could not get the benefits of the victories of Grant and Sherman only by reflecting Lincoln and we will gain less than we ought from the war if the administration is not sustained at these elections."

From former Pres't Harrison, pleading for the election of a republican congress:
Harrison's Plea.

"If the word goes forth that the people of the United States are standing solidly behind the president, the task of the peace commis-

Nurses Act as Physical Instructors

EXERCISES FOR WOUNDED BRITISH.

Nurses at the British hospital for convalescent soldiers often act as physical instructors to aid the men in regaining the use of limbs disabled through injuries at the battle front. Many of the men have lost limbs in the great war, and are taught by the nurses to drill, run and jump, and after a short period of training they are able to get about quite easily. The photo shows some of the wounded men going through a Swedish drill at one of the hospitals.

sioners will be easy, but if there is a break in the ranks, if the democrats score a telling victory, if democratic senators, congressmen and governors are elected, Spain will see in it the gleam of hope, she will take a fresh hope and a renewal of hostilities."

From Sen. Lodge:
What Sen. Lodge Said.

"But there is one question on which I wish to say a few words and that seems to override all others. It is whether we shall stand by the administration and the president at this juncture. If we give a victory to his political opponents we say not only to the United States, but we say to the world, we say to the Spanish commissioners in Paris, that the people of the United States repudiate its result and repudiate the man who led the war and is now leading us back to peace—William McKinley."

From Sen. Penrose:
Sen. Penrose's Remarks.

"In his recent speeches the president has appealed not to a partisan but to a national spirit.
"He wants Pennsylvania to remain the keystone state for the republican party. It is difficult to overestimate the supreme import-

ance of sustaining the president of the United States and the republican party at the present critical crisis in our foreign relations."

From Sen. Foraker:

"The war came while a republican administration was in power and must now be settled by that administration. What he wants is the support of the public."

McAdoo Issues Statement.

Mr. McAdoo tonight issued a statement supplementing the president's appeal, declaring that the only way to secure continued unity of command in America is to return a congress in full sympathy with the president's views, policies and ideals.
"Before America entered the war," Mr. McAdoo said, "the allies had suffered repeated reverses because there was no unity of command. They were divided among themselves in authority. The first act of the president was to compel a unity of command under Gen. Poch. Ever since that time America and her allies have been winning victories, and a triumphant conclusion of the war is in sight. Unity of command in Europe must be backed up with unity of command and action in America."

'FLU' CURES ARE WARNED AGAINST

Government Health Service Has Not Found Reliable Vaccine for Disease.

WASHINGTON, Oct. 28.—Use of vaccines in combating or treating Spanish influenza has not gone beyond the experimental stage so far as the United States public health service has been able to learn. In a statement tonight the public health service warned the public against any of the "sure-cures" being advocated for the malady which, according to reports today, is rapidly subsiding in all army camps and is showing a lessening increase in many states among the civilian population.
"It must be remembered," said Surgeon Gen. Blue in a statement tonight, "that several different vaccines are now being tried. The reports so far received, however, do not permit any conclusion whatsoever regarding the efficacy of these vaccines or their relative merits. The public health service is watching the experiments carefully, but is not urging any form of vaccine treatment."
"The health service urges the public to remember that there is as yet no specific cure for influenza and that many of the alleged 'cures' and remedies now being recommended by neighbors, nostrum vendors and others, do more harm than good. The chief reliance must be on medical attention, good nursing, fresh air, nutritious food, plenty of water and cheerful surroundings."

The reports received from army camps continued favorable today and Sec'y Baker indicated his belief that the army medical authorities have the situation in hand. It was intimated by the secretary that the epidemic will not further delay military plans to any extent.

DELANEY TO REPRESENT GREAT LAKES STATION AT LONDON EVENT

CHICAGO, Oct. 28.—Cal Delaney, Cleveland lightweight, has been selected as the final boxer to represent the Great Lakes naval training station in the King's trophy doubles at London next month. Pal Moore, Denny O'Keefe, Jack Holman and possibly Leo Schneider will be the other members of the Great Lakes team to make the trip.

ANDRE TARDIEU RETURNS TO AMERICAN

AN ATLANTIC PORT, Oct. 28.—Andre Tardieu, French high commissioner to the United States and head of the French department of Franco-American war cooperation, returned to the United States on a French liner today to resume his duties. M. Tardieu has been in France since May last.

Among other arrivals were Henri Rabaud, the French conductor engaged to replace Dr. Karl Muck, the interned German, Jack Holman, of the Boston symphony orchestra; Rev. Pierre Blommaert, Protestant chaplain in Belgium, who said he bore a message from King Albert of Belgium to the American people, and Gene Michael Orestes, former president of the republic of Hayti.

FOUR KILLED IN EXPLOSION. WASHINGTON, Oct. 28.—All except four of the crew of the American steamer Lucia, torpedoed and sunk 1,200 miles from the American coast Oct. 19, are reported to have been rescued, the navy department announced tonight. Four men were killed by the explosion of the torpedo.

We can store that furniture, stove, trunk, piano, etc., at a reasonable price. Call from 3:15 to 5:15. Bell No. 114. Inter-City Transfer Co. Advt.

REPUBLICANS DUMP MONEY INTO HOPPER

It is Said Country Will be Appalled at Revelations of Amount to Gain Congressional Control.

WASHINGTON, Oct. 28.—Homer S. Cummings, acting chairman of the democratic national committee, in a formal statement tonight urged that the nation's selfish interests are seeking to get control of the government by electing a republican congress next month and asserted that the country will be appalled when it learns of the money used for the purpose.

"As the congress progresses," said Cummings, "the purpose of the selfish interests in America become more and more apparent. These interests distrust and fear the president and have no sympathy with the providing measures which have been enacted under his leadership. They seek to tie the hands of the president and control the machinery of the government through the agency of the republican party. Stakes Are High.

"The stakes for which they are playing are high and their resources are enormous. The country will be appalled when it learns to what extent money is being used for the purpose of electing a congress adverse to the president. If it is profitable to spend \$175,000 merely to secure a nomination for the United States senate on the republican ticket in Michigan, what limit will the imagination place upon a corruption fund which will be disbursed in the elections throughout the country?"

Mr. Cummings said at a recent meeting of the republican party at Louisville, Chairman Blay of the republican national committee, said two additional dollars from the party's national fund would be provided for every dollar the state republicans raised, and that later the state republicans would compromise an additional dollar.
Letters said to have been sent to 1,500 persons by the republican national committee on May 11, Mr. Cummings added, asked for individual contributions of \$1,000 each to the general campaign fund.

INFLUENZA HAS CAUSED 1,259 DEATHS IN 64 INDIANA COUNTIES

INDIANAPOLIS, Ind., Oct. 28.—According to incomplete reports received up to late Saturday night by the state board of health, influenza's toll of death since Oct. 7, in 64 Indiana counties, has been 1,259 persons. These figures do not take into account the deaths in Marion county or in any of the military camps of the state. Twenty-seven counties have not reported deaths. There was a slight falling off today in the number of new cases reported. The grand total of cases reported since Oct. 7 is 42,169.

There also was a decrease in the number of cases reported in the city today, but no material change in general conditions, as the total of new cases reported is only 16 less than reported the same day a week ago. In the city there were four deaths from influenza and nine from pneumonia; at Fort Harrison one death from pneumonia, and at the army schools one. In the city 141 new cases were reported and at Fort Harrison 20.

BELIEVE 372 AMERICAN SOLDIERS WERE LOST ON TRANSPORT ORTANTO

WASHINGTON, Oct. 28.—Names of 209 American soldiers who lost their lives in the sinking of the transport Oronto, Oct. 6, in a collision with the steamer Kashmito off the Scottish coast, were made public today by the war department. Three hundred and seventy-two soldiers were believed to have gone down with the ship, but the exact number will not be known until the checking of the names of survivors against the muster rolls of the units abroad has been completed.

The original muster rolls were lost with the ship and duplicates had to be sent to England by the war department. This accounts for the length of time required to establish the identity of the men lost. Only one Indiana man was included in the list, Lieut. Ralph S. Ray of Lafayette.

SIR WILLIAM WISEMAN RETURNS TO LONDON

LONDON, Oct. 28.—The most important event in diplomatic circles in England the past week was the arrival in London from Washington Saturday of Sir William Wiseman, who has been acting at Washington as liaison officer between the British war cabinet and the Washington government. Sir William, on his arrival, immediately went into conference with Lord Reading and members of the cabinet. Within a few days he will proceed to Paris to join Col. House, now on a special mission for the United States.

LAFAYETTE OFFICER LOST.
WASHINGTON, Oct. 28.—The name of Lieut. Ralph S. Ray, 114 W. 27th st., Lafayette, Ind., was included in the list of Oronto victims made public by the war department tonight.

Housewives Now More Than Ever Before Realize the Importance of Purity in Food Products

While on my lecture tours, meeting housewives in all sections of the country—I have observed that women are now wide awake to the vital necessity of utmost purity in articles of food.

It used to be that unscrupulous manufacturers were at liberty to foist rankly adulterated food stuffs on the unsuspecting housewife. This production of low grade, frequently worthless and often injurious merchandise gained such strides that the government stepped in with Pure Food legislation and checked it. This measure of protection aroused housewives to the situation and the importance of purity in articles of table use. And as a result of this awakening wise housewives have set a higher standard of purity than the Food Laws demand. The federal and state authorities have cut off to a great extent the manufacturer of products of an injurious nature. The great majority of housewives have gone even farther—and insist on absolute purity.

Take Baking Powder for example. There are many different brands of baking powders on the market. All that are on the market are made within the limits of the law—are as pure as the law demands.

But there are other things to be taken into consideration—will they give the best results—are they economical in use?

The housewife now insists that baking powder be as pure as it can be made. That it possess no impurities—no adulterants—no useless fillers—no injurious properties of any sort. They want—and are entitled to—a baking powder so proportioned and blended it remains pure in the baking.

After testing many different brands of baking powder, I am thoroughly convinced that Calumet Baking Powder extends far beyond the standards of purity demanded by the food laws.

Critical experiments establish the fact that Calumet leaves no harmful residue, as do many powders that comply with pure food requirements. The bakings it produces are not only light, fluffy and tasty—but wholesome and healthful—which really is the final test of a baking powder's purity.

The housewife of today wants something better than "just as good." She wants the best, and in my articles on Baking Powder I have no hesitancy in recommending Calumet
