

# SUICIDE MAY BE ARMY LIEUTENANT

Local Authorities Working in  
Connection With Descrip-  
tion Given by Officials.

The man found dead upon the Washburn tracks, who is believed to have committed suicide near Wakarusa Tuesday, is thought to be Joseph Beane by Sheriff Duck who saw a notice from the army authorities which gave a description that agreed with the one of the man found in nearly every particular.

Joseph Beane is wanted by the commanding officer, Columbus barracks, O., upon the charge of misappropriating \$1,000 government funds and passing bogus checks. He was discharged from the army August 25, 1919 from Columbus barracks, where he served as a first lieutenant.

**Description of Man.**  
The description upon the pamphlet is: "Weighs about 145. Solidly built, 38 years old. Black hair streaked with grey; combed pompadour, black whiskers, smooth-shaven when last seen. Partly deaf in one ear."

Sheriff Duck said this corresponded with that of the man found in every particular, except that of weight, his opinion being that the man found weighed about 175 pounds.

A photograph of Beane was shown Sheriff Duck and he said that while he could not be certain, the general features were greatly similar and it was his opinion that that was the man.

The case is being investigated further and some definite confirmation or denial is expected soon.

## HUMANE SOCIETY PICKS DELEGATES TO MEETING

Harry L. Yerrick, vice president of the South Bend Humane society, was chosen delegate to the American Humane associations' annual convention to be held at Norfolk, Va., Oct. 20-23, at a meeting of the local society held Tuesday night at the Y. M. C. A.

The work of instituting Bands of Mercy in all schools of the city during the winter, following conferences with the various principals, was put in the charge of Mrs. John Rohrer.

Louis Hammerschmidt, attorney for the society, reported that he is working on a new set of ordinances for the care of stray cats and dogs which will be presented to the city council in the very near future. The society also expects, within a short time, to secure a regularly appointed humane officer to look after the humane work in the city under the supervision of the chief of police.

It was decided at the meeting Tuesday to have sent to the reading rooms of the Y. M. C. A., the Y. W. C. The government reviewers have completed the survey of the county and their reports show that this year's crop exceeds any previous year. Approximately 3,425 acres were under cultivation in the county during the past year. In many cases the farmers received \$300 per acre for the crop. Although the days of the delectable julep are over some producers received \$5.25 per pound for their product. This year's crop is said to be the most profitable in the world.

## Sugar Shortage Causes Price of Candy to Soar

Candy in South Bend will not only be higher in the future but there will be less of it. The main reason for this is the present sugar shortage that exists in the city.

Because of this shortage, local candy factories cannot produce as much as they have been doing and also are forced to raise their prices, varying in increases from five to 10 cents per pound.

The Philadelphia reports they have been forced to curtail their manufacture of chocolates and other candies and also forced to add 10 cents per pound on practically every candy in their store. They say it is impossible to supply the wants of the people and their cases are being emptied nearly as fast as they can fill them.

J. B. Weber of the Weber Candy Co. stated that while he had some sugar on hand, unless he secured more in the near future he would be hit hard by the shortage. "I'm on bed rock now," said Mr. Weber, and while I secure my sugar directly from the refiners, it is practically impossible for me to place an order at the present time." He voiced the opinion that the real cause of the shortage was the hoarding by private parties in amounts far in excess of immediate household needs.

## SILHOUETTES

—IN 1925—

They heard the bank clock strike midnight. Both men gazed furtively about. Bushes shoulder high screened them on all sides. Leeper park was deserted with the exception of a single officer who prowled the gravel paths near Michigan st. It was this bluecoat the men feared. "Shall we take a chance?" one asked.

"I'm game," his partner replied. With infinite caution one of the men scratched a match and cupped it carefully in his hands. The cigarette he already held nervously between his lips.

A sigh of satisfaction escaped as he took the puff puffed. The other man applied his cigarette to the lighted end of the one held by his partner. Both lay prone on the ground, grinning contentedly.

Patrolman Kline, who five years ago was chief of police, thought he detected the odor of tobacco. With visions of arresting a lawbreaker on a penitentiary offense, he followed the "Camel" scent.

It led him to a pair of cigarette butts, all but burned out. Not a soul was in sight.

"Another chance gone to get my name in the paper," he soliloquized as he prepared for his 40 winks.

## Market Gossip

NEW YORK, Oct. 8.—For 10 days we have had a high and erratic money market. It may not mean very much and may indicate some trouble ahead. This has been ignored but yesterday and this morning it is a more common topic in market discussion. American securities have reached high levels and may attain higher ones but in the future, as in the past, there will be times when a pause is essential. If we are to have a long period of prosperity as has been predicted, it will come largely because of a foreign demand for our surplus products, so far nothing has been done to improve the market for foreign exchange.

In time this will, of course, clear itself but means valuable time wasted. Until we are sure of banking accommodations for further stock market expansion, we think longs should market a portion of their holdings on the bulges.
