SAVE YOUR STAMPS!

A large increase of trade is evidence among many that it is no fiction but strictly true, that you can save at least from 10 to 20 per cent in buying your goods of J. M. Dale & Co., thereby saving \$2 on every bill of \$10 you buy. Come and see for yourselves. A dollar saved is as good as a dollar earned. Prints as low as 7 ets., Muslins 8 ets., DeLaines 15 ets., ladies Furs \$5 per set, ladies shoes \$1 and upwards, men's clothing 25 per cent. less than any other house; Clothing manufactured to order, in the latest style, and warranted to fit. Don't fail to give us a J. M. DALE & Co.

THE RESULT .- Since they have reduced their prices on Boets and Shoes at Westervelt's they go off so lively as to prove that the prices now are much below the regular asking prices in other establishments, and as a result the firm are pleased and their customers delighted, for buyers are always happy when baying goods cheap, no matter whether the merchants are making money or not. Westervelt & Co. are after money, and if se'ling goods cheap will bring it they say it shall come. There are handsome Worsted Dress Goods there at 30 cts. per yard, good red flannel at 30 ets., and yard wide sheeting at 11 ets., the very best sheeting is only 18 ets., a fair quality of yard wide bleached muslin at only 15 ets. per yard.

"In time of peace prepare for war," is the old adage and there is no sentence in the English language more expressive, nor one that is somplicable in innumera-ble cases. Who is so wise as to know the exact moment that fell destroyer, disease, will attack him? Then be ye ever prepared, have the Roback's blood pills, stomach bitters and blood purifier at hand and

> I MAGNETISM is the vital principal of life. When by tracsgressing the was of nature we impair the workings of that beautiful mechanism which God made perfect, nature, through her great Electrical Cattery, makes a powerful effort to remove the immagnetic forces. To assist Natere, to the "Electro Magnetic Fluid," prepared by the Swain Manufacturing Company, which is nothing less than Electricity in liquid form, and is undoubtedly the most wonderful as well as most useful chemical discovery of this age of fruitful research. It is composed of the most powerful ingre-dients known to chemistry, and when combined by this, the only known process, and
