# Come to Leon and Enjoy the Glorious Fourth

### FAREWELL TO PUBLIC DRINKING CUP SOON.

State Board of Health Will Pass Stringent Measures in July.

The abolishment of the public drinking cup in railroad stations, trains, schools and public buildings will be one of the main actions of the state board of public health at their annual meeting in Des Moines July 15. This statement was made by D. A. P. Hanchett, president of the board, and follows the widespread agitation which is being waged throughout the country against this type of drinking vessel. Especially stringent will be the action taken against the railroads which have disregarded the recommendations made in this regard by the board at their meeting last year. At that time, every road which crosses the state was notified to use more care in car sanitation and to provide paraffine drinking cups for their patrons. So far as can be learned not a single road has heeded the warning. In many cases sweating the cars while enroute, a practice which according to physicians, is a most reprehensible one, has been continued unabated.

"The drinking cup is a grave menace to health," says Dr. Hanchett. "It is a disseminator of two terrible diseases, which are spreading in spite of every effort that is being made to suppress them. I refer to syphilis and tuberculosis. On the trains especially is the drinking cup a menace. People suffering from the most loathsome disease use them, to be followed by some healthy person who is likely to become affected. Typhoid patients not entirely recovered drink from these cups and spread the disease.

"In the public schools, the drinking cup should go, and should be replaced by the bubbling type of fountain which I regard as the ideal public drinking vessel.

"At our meeting last year, we recommended to the railroads that they place penny slot machines containing paraffine cups in their depots and cars and do away with the public cup. I have traveled over the state during the past year and not in one single instance have I seen that recommendation heeded.

"We also object to the sweeping of cars while enroute. This is a particularly loathsome practice. All the filth that is dragged in by the traveling public, is raised in the dust, and inhaled by the passengers. I remonstrated with a porter who was sweeping a car a short time ago, and was referred to the conductor who answered me most impudently and ordered the porter to continue his work."

All over the country a war is being waged against the drinking cup. In Kansas, Wisconsin and some parts of Michigan, it is a thing of the past. The railroads carry paraffine cups which can be purchased for a penny and which will last for the entire journey. In the public schools and public buildings, the bubbling type

of fountain has taken the place of the cup which used to dangle by a germ laden chain. According to medical authorities, the measure which did away with all this has proved one of the greatest aids to health that was ever passed.

### What a Summer Cold May Do.

A summer cold if neglected is just as apt to develop into bronchitis or pneumonia as at any other season. Do not neglect it. Take Foley's Honey and Tar promptly. It loosens the cough, soothes and heals the inflamed air passages, and expels the cold from the system. Bell & Robinson.

The richer a man is the more glibly he can talk about the blessings of poverty.

### Notice of Appointment of Administratrix.

Only 25c at VanWerdan & Kopp's.

### Iowans Attain Old Age.

That people who live in Iowa attain a ripe old age is evidenced by a table of statistics compiled by Secretary Summer of the state board of health. The table shows that in the past four months 128 people over 90 years old died in Iowa. They were all residents of the state and for the most part were pioneers in Iowa. The oldest of the 128 was 112 years old when he died. Several reached the ripe old age of 99 and there were many who lived to be 96, 97, or 98 years old. Dubuque county leads the number dying in the last four months at the age of 90 or older. Of the number, the youngest was 90 and the oldest 96.

Foley's Kidney Remedy may be given to children with admirable results. It does away with bed wetting, and is also recommended for use after measles and scarlet fever. Bell & Robinson.

### SAFE AND SURE.

Among the medicines that are recommended and endorsed by physicians and nurses is Kemp's Balsam, the best cough cure. For many years it has been regarded by doctors as the medicine most likely to cure coughs, and it has a strong hold on the esteem of all well-informed people. When Kemp's Balsam cannot cure a cough we shall be at a loss to know what will. At druggists' and dealers', 5c.

**THE VELIE IS THE ONLY BUGGY.** Why. Because you can't get the corners of box open without the use of a sledge or an ax. And further the body is plugless—so you can't loose plugs out of it. The Gear, Wheels, Shafts and Poles are all made out of Select Seasoned Hickory Stock. The Springs are graded and oil tempered, and this guarantees the very finest circling qualities. The hangers, fifth wheel and bolt clips are the best quality Wrought Iron. This guarantees the staying qualities. For quality, style and finish none compare with the VELIE. Let us show them to you.
