Real Tailoring Clothes of Distinction

We are not putting it too strong when we say our's are "CLOTHES OF DISTINCTION." Our skillful and artistic Tailoring is certainly far superior in every respect and very different from the ordinary and so-called Tailoring productions.

When We Make Your Clothes You get Real Clothes and Real Tailoring "Made in Keokuk."

Lowitz & Son's tailoring has character which comes from the integrity of the men who make it—the best of Cutters and Tailors do our work.

A garment made by this house not only has an exclusive identity, but unsurpassable in Material, Style and Workmanship.

The soft tones of our Spring and Summer Woolens are wonderfully effective, different, distinctive, but subdued, Styles and Fabrics you won't see elsewhere.

Why not call today—early selections are best.

FROST MAY COME TONIGHT; WARNING

Local Weather Office Receives Special Warning From Chicago Office Today in This Matter.

LOOK FOR CLEAR NIGHT

If Clouds Lift There is Danger From Jack Frost and People Should Protect Plants and Flowers.

FROST WARNING ISSUED. A special warning against frost tonight, was issued today by the Chicago weather office and wired to Fred Z. Gosewisch, observer in charge of the Keokuk office. The message from the Chicago office was to the effect that if the weather cleared tonight there would probably be frost.

The queen of the May is likely to get chilblains and frost bites yet. She needed a raincoat and rubbers today, more than a sweet smile and a wreath of flowers, and judging from the frost warning being sent from the weather bureau she should take preparedness measures and provide herself with an overcoat or two.

The special frost warning was issued from the Chicago weather bureau and warned all of the stations that if the weather cleared by tonight there was danger of frost. People who have flowers out should take precaution to cover them, and gardeners who have tender plants in the ground should take steps to keep Jack Frost away.

Should the clouds still hang in the sky tonight there is little danger of frost, but clearing weather will bring this unwelcome visitor, the weather office fears.

EXPERT MECHANIC IN SERVICE STATION

Ed. S. Lofton, Jr., Has Taken Charge of This Department for Overland Garage.

Ed. S. Lofton, Jr. has taken charge of the service department of the Overland garage. Mr. Lofton is an expert mechanic, and is well known by the auto owners of Keokuk and this vicinity for his careful and painstaking work. Mr. Lofton was formerly connected with the Overland garage, but for the last year has been running an establishment of his own. His coming back to the Overland garage means that the patrons of this popular garage will receive the very best of attention for their cars. All of his old patrons and new ones as well will be glad to see Mr. Lofton and to have him in charge of the service station of the Overland.

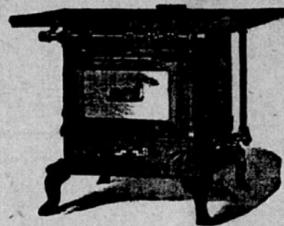

A CHANCE TO PROVE IT. I notice recent test of Overland delivery car giving a mileage of 24.8 miles with 88 stops to one gallon of gasoline. I will wager one hundred dollars that this car can not be run that many miles with half that number of stops (44) on one gallon of any kind of gasoline. Any official of the Keokuk Auto club can be observer and only one gallon of gasoline of standard measure to be put in the car. Any form of tank, any carburetor adjustment, and any route may be used, preferably the one over which the former so called test was run. Let us have the truth. JOHN T. OWEN.

EXTEND TIME ON CLEAN-UP WEEK

On Account of Cold, Wet Weather Necessitating Furnaces and Stoves, Inspection Trip Has Been Postponed.

TO BE MADE NEXT WEEK

Weather Expected to Clear up and Warm up This Week and Ash Heaps and Garbage Piles Must Go Then.

Clean up week has been extended for another seven days on account of the wet, cold weather, and the necessity for operating furnaces and stoves, with the attendant amount of ashes, has made those in charge of the week here decide to wait a little longer before making a final inspection. When today dawned cold and wet, the officials in charge of the week decided that it would be best to wait a little before finishing up the campaign.

Everyone is expected to get busy on cleaning up their ash piles and garbage heaps and dumping grounds just as soon as the weather warms up and clears up a little. The cold wet weather won't last always, and it will not be granted as a dispensation again, it is likely, unless the week should turn out to be very unseasonable.

The weather may clear up the latter part of the week, and if it does, it probably will clear off warm, so that stoves can be dispensed with, and the ash heaps can be removed. So if you haven't had the ash pile hauled away there will be no excuse for your waiting much longer.

The inspection trip will be made a week later than formerly planned.

CITY NEWS.
