NEW BUS AND NEW TEAM FOR OUR CITY

Last week our friend, George Millman retired the Old Bus that has been doing service for thirty four years, one month and two days and which has been a constant traveler and from every regular train that ran into town and to many specials. Besides this—when resting—it has borne picnic parties to the woods for a frolic, large parties to the neighboring dances, the school children to the timber for "a time" and in later years has been used, occasionally as a dray besides doing passenger service.

Mr. Millman has replaced the old memento of former days with a new one which he bought in Atlantic. He also invested in a fine team.

STILL GRAVELING RIVER TO RIVER ROAD

Everybody is boosting the graveling on the River to River Road or that part of it that passes thru Exira. For years the part of this world's famous highway that stretches from the Main street to the depot in the springtime has been at times almost impassable.

But now, with a fine cement bridge completed across the creek and a well built grade approach finished, that lead to it, it touched the pride of the populace for greater things, and by the kind contributions of material and labor have nearly a quarter of a mile well gravelled. The C. R. I. & P. Ry. Co. have also shown their good will and have donated eight car loads of timbers, part of which have been donated and spread where they will do the most good. Every little helps and if our former friends will come to our assistance as they have been doing, we shall eventually have the best road in Iowa for spring travel. Let the good work continue.

Cole's Original Hot Blast Heater

allows no smoke or gas to escape into the room.

It scatters no soot or ashes.

It can't. It's made that way.

That is one of its virtues. It has many more. Come in and let us demonstrate them.

After that no other stove will suit you.

Burns soft coal, hard coal or wood.
