**"We Have Turned The Corner"**

The last ten months have been tough times for everybody and we have had the fight of our lives to get enough volume of business to pay our overhead, much less pay a profit. We all needed faith to keep up our courage, but we kept at it, and now it is the common belief that "we have turned the corner." The Big Daylight Store is glad to be among those who believe that the worst is over.

It is our belief also that the policy that has paid in hard times will pay in good times, and we shall keep up the idea of Small Profits and Quick Returns, knowing from past experience that it will pay us and our customers, too, and result in a constantly increasing Volume of Business.

The shelves in "The Big Daylight Store" are now full of new Fall Merchandise all priced according to prevailing market prices.
