the broader the better if Mexico does by and will relieve the Republicans from responsibility in adopting a local -Gen. Weaver's lowa Tribune has The election ought to be held within been sold to a company of Southern sixty days after the general assembly Farmers' Alliance people, and the Gen. is said not to be in the deal.

-The silver question will be the in favor of unlimited coinage and democratic leaders will try in vain to suppress or postpone it.

-As Gen. Dodge views it from his nome in New York, yet with thorough familiarity with the Iowa situation, Gov. Boies' election was due to the transportation issue more than any other. He says the farmers of the west are disgusted with the operations of the inter-state commerce law, and that its repeal will be an important issue next year.

THE WORK WELL BEGUN. The Republican National Committee has taken two initial steps that promise well for the campaign of 1892 In ise well for the campaign of 1892. In the selection of an early date for the convention five months of solid work while the legislature could do its other is secured, and Republicanism is the work, and when the people's verdict gainer whenever increased information and education is guaranteed. In the election of James S. Clarkson as people would sustain prohibition, and permanent chairman of the national the legislature is so luckily composed, committee the best political organizer that in enacting prohibition, both parties would be in for it equally and in the country is on the pilot deck, and a man who, combining fine organizing ability and large political knowledge with an absolutely pure and untarnished personal character and public inished personal character and public integrity, is entitled to and will receive publican members can do no better the confidence of the nation. It is then to support a regulation favoring on the market, the Henry brand and the confidence of the nation. It is than to support a resolution favoring well in the beginning. It will be well the re-submission of a constitutional in the end. And let Republicans everywhere, by the inspiration of their ity of its defeat with the Democratic courage and confidence, strengthen the party. The intelligent people of Iowa hands of the chairman and the comhands of the chairman and the comwrong in submitting any great moral question to the direct vote of the peomittee to the most forceful of efforts. direction of the people, until such time as the people, in their sovereign right,

give you any information you want in regard to the manufacture of American Tinplate. suggestions about the food it eats. Great interest has been taken in the Permit us to say that we are making investigations made by the United by the different boards of health to

tinulate, and have been for the past three months, at our factory in Philadelphia. We are at present, owing to protection to our property owners, There can be no longer any question roofers and architects. If any of our brands are specified, they are obliged that all the cheaper, lower grades of baking powders contain either alum, to be used, as deception is impossible. lime or phosphatic acid.

The official analyses by the United for after the work is completed, one has simply to examine the roof and States and Canadian governments have therefore been studied with interest

To return to the subject in question, facts upon this subject. The United our position as manufacturers is en States government report gives the names of eighteen well known powders, of tartar baking powders, that contain their average strength was 111.5 cubic inches of gas per ounce of powder. The Canadian government investiga-

The thought of making tin plates occurred to us several years ago. The new duty spurred us on and now our fixture in Philadelphia has come to tax We are already looking around highest in strength, containing 129.32 stay. We are already looking around for larger and more comodious quarters, and in addition to making a fine high grade of roofing tin, it is our ambition to place upon the market an extra fine quality of pure, bright tin for kitchen utansity and a fine high grade.

These figures are very instructive to

many months. In short, as far as we purity this superiority in strength is are concerned, the tin plate industry in due—and consequently that by its use
