

HOSPITAL PHYSICIANS SAID:
"IT WOULD DELIGHT US TO FIND SOMETHING TO CURE THIS DEAR OLD SUFFERER."

MR. N. W. ROSE, St. Louis, Mo.
RICHMOND, IND., Nov. 30, 1924.
DEAR SIR: The charity patient in whom I am so much interested was seventy-five years old at the time that she began the use of "Zemo," and her weight was 130 lbs. Her health has been poor for some time past, suffering mainly from spinal trouble, according to the diagnosis of the doctors in attendance. She has been a hard worker all her life, having made the living for her family keeping boarders. Some years over a year ago she began to trouble her. It gradually grew worse and worse until her entire body was affected, the legs being a mass of sores constantly separating. The itching and burning sensation was so dreadful at times that it was impossible for her to sleep day or night. The doctors' permission to use "Zemo" promptly said, "It would delight us to find something to cure this dear old sufferer." "Zemo" was first used on the upper part of the body and soon relieved the patient of the terrible distress caused by the itching and burning. The doctors had been dressing skin where "Zemo" had been used, they gave consent to have it used on the legs. Gradually they began to improve and are now almost as smooth as the face. It was probably about a month before much relief was experienced in this part of the body, then skin scaled off, itching, burning and aching gradually ceased. It seems now as if a test monist might be given, but the patient thinks that she had better use "Zemo" a few weeks longer before saying that she is cured. However, she is very grateful to all who have been instrumental in securing your wonderful remedy and thinks that it has a great future before it.

(MRS.) MARY PERRY BELLIS, Nurse in Hospital,
No. 208 N. 8th St.

MINING NOTES.

The Drakeboro Mine Accident.

The men who were injured in the mine explosion at Drakeboro last Thursday morning, a brief account of which was published in last week's BEE, are Will Garrett, mine boss; Ed. Shemwell, Ed. Boyd, Tom Creecy, Ed. O'Neal, Ray Bennett, Ed. Price and Ben Holman.

All were badly burned about the face, especially Bennett, Boyd and Creecy, and it was feared that it would be necessary to amputate the arm of young Boyd.

The first report was exaggerated, as is usual, stating that two of the injured would probably not survive. A dispatch says the men had gone into an unused entry or room where gas had accumulated, which at once exploded when it came in contact with their lamps.

The accident occurred in the mine of the Black Diamond Coal & Coke Co.

A writer on "Philippine Coal Deposits" in Mines and Miner-

als for July describes the coal found as follows:

"The coal from both measures is jet black in color, of a bright luster and is clean from all dirt. Samples now in my office may be handled without danger of dirtying the cleanest glove. It is very hard and compact, of a hackly fracture and with but one well-developed cleat. Its sulphur content is negligible and no resin is found in it. In piles it shows no symptoms of spontaneous combustion. Coal from a large pile that stood on the dock for almost a year, exposed to the sun and rain, showed no signs of breaking up, and its deterioration as shown by its use in the lunch on the station was but slight. Blasting had to be resorted to in mining it, and a great part of it came out in lumps of from one half to nine cubic feet."

United States Judge Cochran, of the Eastern Kentucky district, has called a special term of the Federal Court to convene in Owensboro on July 18. It is alleged that a number of the members of the United Mine Workers, of the Western Kentucky district have violated an injunction which was recently granted the coal operators in Union county, restraining the union miners from interfering

with the non-union miners. Contempt proceedings will be heard there by Judge Cochran this week. There has been a strike in Union county for many months, and the operators have been bringing in non-union miners from other States. Judge Cochran is looking after the Western Kentucky district in the absence of Judge Evans, who is abroad.

Central City, Ky., July 18.—At 7 o'clock yesterday morning as Bob Hastings, Jim House, Ramsey Roll and Herman Vincent were going into the Central Coal and Iron Company's mine here the mule they were driving jumped over some slate that had fallen from the roof of the mine the night before and knocked down more slate, which fell on the men. All were injured, but none of them seriously except Hastings, who was badly bruised about the head and shoulders.

The operators and miners' officials, who have been in conference at Cleveland Ohio for several days, reached an agreement Monday and work will be resumed in the Hocking Valley district in a few days.

Hall Harrison, timberman at Hecla mine, left for Portland, Tenn., last Monday. His health has been bad for some time and a vacation and rest was recommended. He expects to return in a few weeks.

The carpenters will complete a new direct connected fan at No. 9 mine this week. This fan is 12 feet in diameter and has a capacity of 60,000 feet per minute. It is located near the No. 11 shop.

An ample pond to supply Fox Run was completed last week. This will insure a bountiful supply of good water for that place in the future.

Lieutenants Peyton and Lester made some desirable improvements at the Fox Run mine, near St. Charles, last week.

Chas. Brewster, driving at No. 11 mine, had his left hand mashed Saturday by being caught between a car and prop.

Henry Harris, machine foreman at Arnold mine, has been on the sick list for several days.

A new track scale and shaker

screen will be put in at Victoria mine in the near future.

Andrew Brown and John Colbert made a business trip to Madisonville Monday.

Foreman Toombs and crew will install several new track scales this summer.

Plans for a new shop and stable have been submitted for Shamrock mine.

Supt. Jno. Orr, of Providence, was in the city Sunday.

Lawson Miles went to Madisonville Sunday.

BITS-O'-BLUEGRASS.

An attractively bound book with gray covers artistically tied with pink ribbon is now on the market. This little book is a Hopkins county product handsomely illustrated and contains thirty short poems from the pen of Blue G. Bard (J. E. Fawcett).

Only a limited number have been published as the author expects to sell them to friends and acquaintances.

Any one desiring a copy can secure same at A. D. Sisk's book store or Gardiner & Bowmer's drug store, Madisonville, THE BEE office, Earlington, or by sending 50 cents to the author Earlington, Ky.

An ad in THE BEE does it.

7 CHILDREN DROWNED

SAD SEQUEL TO A PICNIC NEAR A RIVER.

Go Wading, One Stepped Into a Hole, and Six Die in Attempt to Rescue.

Cedar Rapids, Ia., July 13.—Eight children at a picnic on the river bank only three blocks from home went wading. The smallest one slipped into a deep hole in the river, and in trying to rescue her six others were drowned.

The Dead.

Lucille Sweeding, aged 7; Hazel Sweeding, aged 14; Gladys Sweeding, aged 10; Josie Sweeding, aged 12; Ruth Coyle, aged 11, Sioux City; Cora Coyle, aged 9, Sioux City; Clara Usher, aged 16.

Ruth Klersey, the only survivor, said they were wading when little Lucille Sweeding slipped off a shelf in the river bottom into a deep hole. Hazel Sweeding rushed after her, slipped into the hole. Then the next girl rushed after her, and so they kept trying to save each other until all of the girls except Ruth Klersey had been drowned. She then ran home and gave the alarm.

TRAIN WRECKERS IN INDIANA.

Spike a Switch and Three Trainmen Killed.

Petersburg, Ind., July 13.—Spikes driven tight into the Southern railway switch at the Jackson mine siding, eight miles west of here, caused the wreck of the fast west-bound freight and the death of three of its crew, at 6 a. m. Thursday.

John B. Fanning, fireman, and W. B. McWilliams, engineer, were so badly scalded that both died within a few minutes, while Luther Capeheart, son of Rev. Capeheart, of Winslow, who was brakeman, lost his right arm and left leg and died in a few hours. The other members of the train crew are dangerously injured and are expected to die.

The east-bound passenger train was delayed, and thus escaped being wrecked. Had it been on time, it instead of the freight would have caught the spiked switch.

The railroad company owns the Muren coal mine.

OWNERSHIP OF PUBLIC UTILITIES.

(Continued from Page 1.)

interferes with the laborer's right to sell his labor wherever he will. This is a new phase of the question and one that is likely to attract considerable interest among employees in industries in which the agitation for municipal ownership is now going on.

According to the report of the Dead Letter Office just issued, there are exactly 854,352 persons waiting for letters that never came in the month of June, about one out of every 500 having failed to reach its destination on account of insufficient address. Indeed, if you were looking for money through the mails which did not turn up as expected, there is a bit of relief in the thought that Uncle Sam may have it. Of the total number of letters which went to the Dead Letter Office, 6756 contained less than a dollar apiece in the average, it is true, but still totalling \$5,557.78—a snug little sum which might be doing someone a lot of good.

The Second Great Auction Sale of VALUABLE LOTS

In the Dan Daves Addition to Madisonville

Will take place

SATURDAY, JULY 21

Beginning at 10 o'clock a. m. and continuing during the day

Mr. Daves has made up his mind to go to California and is closing out his property for that purpose. Every lot sold without reserve to the highest bidder. \$20 in gold given away on the grounds. Those desiring to secure high class lots at their own price, to build homes on or for investment, can make no mistake in attending this sale.

Terms: \$25 Cash. Balance in monthly installments of \$10

P. S.—Mr. Daves has donated one lot to the Y. M. C. A. building fund, which will be sold at auction on this day and the proceeds turned over to the building committee.
