

## JOHN M. HOGAN ANNOUNCES FOR SHERIFF

Popular Hecla Man and True Blue Democrat Gets in the Fight

The Bee is authorized to announce John M. Hogan, of Hecla, as a candidate for sheriff of Hopkins county, subject to the action of the democratic primary, August 2.

John Hogan is a man the Bee takes great pleasure in commending to the favorable consideration of the people. The editor has known him long and intimately and has always found him to be the same John Hogan wherever and whenever he met him.

He is fifty years of age and has succeeded by strict attention to duty in gaining the confidence and good will of those with whom he has been thrown in daily contact all these years. He is splendidly qualified by experience in business and by temperament to discharge the duties of the office, and should he be elected, our prediction is it would be said of him that the county never had a truer or more efficient, accommodating officer in that capacity.

He has long been active in the affairs of the party. For sixteen years he has been executive committeeman from the Hecla precinct, ready at all times to go to the front in Earlinton to battle for democracy. He has served as school trustee for 26 years. In his public and private affairs he has been diligent, loyal and progressive.

The Bee predicts that John Hogan will have hosts of warm friends in his race.

Mr. Hogan says he is in no way connected with any combine or swapout but is making this race clean and honest as all honest democrats should do, and if the people will elect him sheriff of Hopkins county he will be sheriff regardless of any one in strict compliance with the law.

Mr. James at once asked the proper department which informed him that the animals will be sent to Kentucky from Yellowstone park next year if the legislature in the meantime will pass a protective law.

R. M. SALMON

To The Democrats of The Sixth Senatorial District

I take this method of announcing my candidacy for the Democratic nomination for re-election for State Senator of this senatorial district, composed of Hopkins and Christian. As you know, I have served you in this capacity for one term and during two sittings of the legislature in which I had the honor to represent you, I, at all times supported such measures as I thought would be for the best interest of the people, not only of this district, but for the people of Kentucky as well. Upon that record I stand and to which I invite your careful consideration.

I feel highly honored by having the full membership of the Democratic Executive Committee of Hopkins county a few weeks hence, to call upon me in person to make this race, and am grateful to each of them for the confidence reposed in me.

It has been the impression among a great many democrats of this district that it has been the custom of the two counties in the past to alternate their democratic nominees for State Senator. But such has not been the case. Out of the last six democratic nominees for State Senator, Christian county has had four, and Hopkins county has had only two. Christian had the nominees in 1891, 1893, 1897 and 1905, while Hopkins county had the two in 1901 and 1909. So if I am nominated this time, Hopkins county will then have had only three out of seven of the senatorial nominees. Good feeling has always existed among the democrats in the two counties, does now and I want to see this good feeling continue. However, I believe a great majority of the democracy of Christian county will agree with me that it is only fair and right for Hopkins county to have the senator this time and many of them have so expressed themselves.

As everyone knows, this district is very close if not normally republican. I can say with pardonable pride that I believe I could be of some assistance to the democratic nominees of both counties in the general election in November, in the event of my nomination. Four years ago when I was your nominee, I carried Hopkins county in the November election by over 1100 majority, being the largest majority ever given a candidate for office in her history, and I received more votes than any other nominee ever received for state senator in this district.

I have been a member of the democratic executive committee of Hopkins county for many years, having served longer in that capacity perhaps than any one in the county, have always given freely of my time and means for the success of the democratic party and her nominees. If re-elected to this honorable and respectable trust, I pledge my honest and earnest service and devotion to the people's interest in all matters of legislation.

I shall make a vigilant and clean canvass, and will be grateful for the votes and influence of all good democrats throughout the district, and if nominated, will do all in my power for the entire democratic ticket for both counties in November.

Very respectfully,

R. M. SALMON.

### Great Hopkins County Fair

Judge Givens always announces that each successive Great Hopkins County Fair will be "greater and grander than ever." Whether this is literally true or not, people understand that they are going to get their money's worth at the Madisonville Fair. It holds the record in this section for thirty-one year's continuous success and every year something new and novel is provided for the entertainment of the big crowds which invariably attend. The races during the last seven or eight years have been of high standard and the Derby now draws large numbers of lovers of good racing from a wide territory. The Derby will be run on Wednesday, July 30, which is also Woodmen's day, the combined lodges of Hopkins County uniting in the determination to make it a monster demonstration.

### tion of Woodcraft.

The date selected this year is very fortunate—the farmers everywhere being up with their work and ready for a period of recreation—and indications point to record breaking crowds.

The post master general of Italy is bewildered over the result of the recent permission he granted to telephone girls to get married. ## FAKE CONSUMPTION CURES MAKES MILLIONS OF PROFIT

Over 500 Fraudulent Remedies Cheat People out of \$15,000,000 Annually

Within the last five years, no less than 500 fraudulent "cures" for consumption have been tried upon thousands of victims in the United States, and the exploiters of these nostrums have reaped a clear profit of not less than \$50,000,000. This is an estimate made by the National Association for the Study and Prevention of Tuberculosis in a bulletin issued today.

The National Association estimates that not less than \$20,000,000 is invested in the business of manufacturing and exploiting fake cures for tuberculosis, and that the annual income from these concerns and individuals is \$15,000,000. About onethird of this amount is spent for advertising, leaving a profit of \$10,000,000 a year, which is "blood money" taken from ignorant consumptives.

Three kinds of consumption cure frauds are distinguished by the Association, the first being the "institute" fraud, where a pseudo-hospital or dispensary is established and the wily "doctor" or "professor" administers "treatments" at so much per head. These concerns also carry on a mail order business with great profit. The second group of cures contains over a hundred different kinds of drugs and "patent" devices, any of which may be purchased at a drug store. Usually the consumptive is charged from \$1.00 to \$5.00 for these and the institute "cures," when he could make them up himself in exactly the same form for from one to five cents.

The third group of "cures" includes home-made remedies, which certain self deluded individuals believe will cure tuberculosis. Among them are such things as onions, lemons, coal smoke, pig's blood, alcohol, dog oil, teas of various kinds, and a variety of diets, including goat's meat, clabbered milk and a score of other articles. These are not usually advertised for profit, but are usually given publicly in various ways.

The consumptive is the most hopeful individual in existence when the question of a cure is suggested. The National Association has stated that no specific cure for tuberculosis has been discovered, except the well-tried hygienic-dietetic method of fresh air, rest and good food.

## STANLEY DECLARES LAMAR'S CLAIMS OF HIS WORK ARE SILLY

Investigators Take Rest Until Monday

MULHALL, LETTERS AND PAPERS ARE TURNED OVER TO THE SENATE PROBERS

Louisville, Ky., July 8.—Congressman A. O. Stanley tonight in Louisville declared that the reports circulated in Washington regarding the part played by David Lamar there are silly and that he never saw the "Wall Street wolf." Mr. Stanley said:

"As far as I remember I never saw Lamar. Martin attended a number of the committee meetings but had no connection with it one way or the other. His allegations as reported in Washington are silly. 'The investigation of the Steel Corporation is not the result of one resolution, but several, entirely different in form and character. The resolution was passed after it had been in the hands of the Rules Committee for weeks and after every line of it had been carefully reviewed and revised, suggestions being made by the committee.'

### Drug gists to the State

Board of Pharmacy

Friends of Marvin E. Pate will petition Governor McCreary to appoint him to the position as a member of the State Board of Pharmacy for the State of Kentucky. There are 62 per cent of the Pharmists in the State that are Drug Clerks. This Board has always been composed of the owners of Drug Stores and there has never been a representative of the Drug Clerks on the board. Mr. Pate is Chairman of the Association of Drug Clerks in this state and is also the Author of a very valuable book, "Students Hand book of Pharmacy," which has a very large sale, not only in the State, but all over the country. He has been a licensed Pharmist for over 13 years and is considered one of the most careful and painstaking men in the profession. He was at one time the owner of a drug store in Paducah. If the Governor appoints him to this position it will be a selection that will give perfect satisfaction to the board and to his many friends in all parts of Kentucky. He has been a resident of Madisonville for over three years.

After reading a few of the letters from people who had been cured by Chamberlain's Tablets, I decided to try them. I have taken nearly three-fourths of a package of them and can now eat almost everything that I want." For sale by all dealers.
