KENTUCKY COAL OUTPUT 1913

Western District Produces More
Than Southeastern or
Northeastern

BIG INCREASE IN NEW MINES
IN EASTERN END OF STATE

Lexington, Ky., June 21.—(Special)—While all of the details of the report of C. J. Norwood, Chief Inspector of Mines, of coal mine operations in Kentucky for 1913 are not quite furnished, the completed figures show a gain of more than 3,000,000 tons in the coal output of 1913 over that of 1912 in this State. The total output for 1913 amounted to 19,421,288 tons. This refers only to what are known as "commercial" mines, the aggregate being made up from monthly reports received by the Chief Inspector from coal companies throughout the year.

Up to 1911 the annual production of the western field exceeded that of the eastern one, but in that year the output of the eastern field passed that of the western and the annual excess has grown rapidly. In 1911 the excess for the eastern field was 5,720 tons; in 1912 it was 732,096 tons, and in 1913 it was 2,548,978 tons. The prospect is that within another five years the output of the eastern field alone will exceed the total production for the entire State for 1913.

Statistics of Industry

There are now approximately 32,000 persons employed at and in the coal mines. The number so employed during 1913 was 29,335.

A summary of the details of production, number of employees, selling values according to districts, days worked, accidents, etc., for 1913 will be ready for distribution in a few days.

The commercial output was almost doubled within the last five years, the gain for 1913 over the output for 1909 being 9,125,143 tons.

The rate at which the output has grown is shown by the following figures, exhibiting the annual production of the commercial mines since and including 1908:

Year	Tons
1909	10,296,145
1910	14,720,011
1911	18,924,811
1912	16,323,904
1913	19,421,288

The output according to districts,

with figures for 1912 given for comparison, follows:

District	1912	1913
Western	7,705,904	8,436,155
Southeastern	5,182,829	6,061,626
Northeastern	3,345,171	4,923,507

Gentlemen:—

As one citizen I desire to express to you my most hearty approval of your very courteous appeal to water customers.

The prodigal waste of water under present conditions is not only inexcusable but may prove criminal should the drouth continue and a serious fire break out.

There are many people who either thoughtlessly or selfishly allow water to run all night on gardens and persistently make mud puddles in the streets three or four times a day.

I like grass as much as any one and am not fond of breathing dust but the property owner does not have to look far ahead at the present rate of extravagance to the possibility of a fire sweeping the town.

Many of us desire to render you every assistance toward conserving this one of our chief blessings and would suggest that just a little investigation upon your part would reveal the "wet spots" which should be promptly handled by meters at drough rates.

Then those who "will have all they want" can pay for the privilege and others who do practice self-denial will not be humiliated by witnessing the waste and getting the "horse-laugh" from those who do not care.

Very truly yours,

F. B. ARNOLD

Getting Busy.

It was a busy day in the butcher shop. The butcher yelled to the boy who helped him out in the shop: "Hurry up, John, and don't forget to cut off Mrs. Murphy's leg and break Mrs. Jones' bones and don't forget to slice Mrs. Johnson's tongue."

Perfection.

A man is one whose body has been trained to be the ready servant of his mind; whose passions are trained to be the servants of his will; who enjoys the beautiful, loves truth, hates wrong, loves to do good and respects others as himself.—Anon.

20 DYNAMITERS BEGIN SENTENCES

President Wilson Pardons Four—
No Reasons Published

SIX CONVICTED MEN ARE
GRANTED NEW TRIALS

Washington, June 24.—President Wilson today commuted to expire at once the sentences imposed on Michael J. Hannon, of Scranton, Pa., Frank H. Painter, of Omaha, Neb., Fred J. Mooney, of Duluth, Minn., and Wm. Shupe, of Chicago, all convicted in the "dynamite conspiracy" cases.

The other twenty defendants, including the leaders, must begin serving their sentences tomorrow in Leavenworth penitentiary. Clemency for Jno H. Barry and Paul J. Morrin, both of St. Louis, was withheld while they have opportunity to submit separate petitions.

Hannon had been sentenced to three years, Painter to two, Mooney and Shupe each got a year and a day, Barry got four years and Morrin three.

Many Must Serve Terms

Those whose applications for clemency were finally denied and the terms they must serve are as follows:

Frank M. Ryan, head of the Iron Workers, Chicago, seven years.
Eugene A. Clancy, San Francisco, six years.
Michael J. Young, Boston, 6 years.
Frank C. Webb, New York, six years.
Philip A. Cooley, New Orleans, six years.
John T. Butler, Buffalo, N. Y., six years.
Charles N. Beum, Minneapolis, three years.
Henry W. Legleitner, Pittsburgh, three years.
Ernest G. W. Basey, Indianapolis, three years.
J. E. Munsey, Salt Lake City, six years.
Peter J. Smith, Cleveland, O., four years.
Murray L. Pennell, Springfield, Ill., three years.
W. Bert Brown, Kansas City, Mo., three years.
Edward Smythe, Peoria, Ill., three years.
Geo. Anderson, Cleveland, three years.
Frank J. Higgins, Boston, 2 years.
Michael J. Cannane, Philadelphia, three years.
William E. Riddid, Milwaukee, three years.

No Memorandum Given

No memorandum was given out accompanying the Presidents action, as sometimes is done in such cases, but it was understood the President followed closely the recommendations of Attorney General McReynolds. The four men whose sentences were commuted had a minor part in the conspiracy, the Government charged. Petitions setting out individually the applications of the other two for executive clemency will be received.

The twenty-four men who applied for pardons were convicted of conspiracy and the transportation of dynamite in interstate commerce for the wrecking of buildings and other structures in a labor war between the Structural Iron Workers' organization and the employers. The noted cases grew directly out of the dynamiting of the Los Angeles Times' building and the confessions of the McNamara brothers.

New Trials Granted

New trials have been granted and are pending for the following:
Olaf A. Tveitmo, San Francisco.
William E. McCain, Kansas City.
James E. Ray, Peoria, Ill.
Richard E. Hoolihan, Chicago.
Fred Sherman, Indianapolis.
William Bernhardt, Cincinnati.

Windstorm at Providence Does Damage at Mines.

The storm of Thursday afternoon hit the vicinity of Providence with much force and did quite a little damage. At Shamrock mine of the St. Bernard Mining Company three smokestacks were blown down and one new cottage in the course of erection was demolished. The rain fell in torrents and added much to the contents of local reservoirs.
