A YELLOW ticket for a Chester fare, Costs five cents to the passenger, Who takes his seat in a blue-line car, And presto! change! he is dumped out there.

THE smoke stack at the ice factory has been put up.

THE street cars ought to be court martialled for being absent without leave.

THE steamer Handy is laid up at Portsmouth until a broken cylinder can be replaced.

THE streets have been crowded all day and there are nearly as many people in town as there are hogs.

DR. J. W. DUDLEY, of Flemingsburg, this week lost two children by scarlet fever, the youngest a babe of nine months and the other a little girl of four years.

THE following is from the Covington news of the Enquirer:

Commodore Coffin received a contract yesterday to build a new steamboat for the Maysville and Vanceburg trade. It will be a passenger packet, and will cost \$16,000.

DAVID STOUT and Lon. Swearingen, two boat tenders at Vanceburg, got into a difficulty a few days ago, which resulted in the latter's being severely cut in the arm.

MR. R. C. PRATHER to-day took the oath and was sworn in as private night watchman for Market street, from Front to Fourth and between Sutton and Limestone streets.

THE Manchester Signal claims that a local miller is manufacturing flour that "makes as good bread as the crack brand of Maysville flour makes." He is doing well if he does.

THE Bower Bridge Company, of Maysville, is building a bridge over Lawrence creek on the Blue run and and Dover turnpike. The company has also contracted to build a bridge over Pummell creek on the Dexter and Catron Mills road.

THE new steamboat building at Cincinnati for the Redden Brothers will be one hundred and thirty feet long, twenty-four feet wide, very handsome and swift, and, we have been informed will be named in honor of the prettiest girl in Lewis and Mason counties.

WE hear Mr. W. S. Frank suggested as a candidate for Councilman in the First Ward. Mr. Frank has had considerable experience in city affairs, and as he is already President of the Board of Education, his election to the Council will be a desirable addition to that body.

MR. A. A. WADSWORTH met with a severe accident yesterday evening, at the first toll gate on the Germantown turnpike. He was getting over the little fence that surrounds the well, and his foot caught on the top board, throwing him forward on his elbow, fracturing it about the joint, but the exact location could not be determined on account of the swelling.

MR. SALOMON informs us that he is every day obtaining a few subscribers of stock in the Electric Light Company, and that in the course of a few days more he hopes to be able to announce the organization of the company. The matter has gone too far to admit of failure, and he is absolutely certain that the city will be lighted by electricity before the autumn is upon us. The stock he is certain will prove a profitable investment.

THE Council should pay more attention to the improvement of the hog-wallows about town. To be perfectly comfortable they should be widened and deepened, as the hogs are growing larger and more numerous. A good wallow, with all the modern improvements should be established on Court street in front of the Council Chamber, as that is about the only thoroughfare in the city that is not blessed with one of these distinctively Maysville institutions.

WE were about to suggest the establishment of a hog-wallow on Second street, in East Maysville, opposite the office of W. B. Mathews & Co., when we happened to remember that there was one there already. It escaped our memory, for the time, from the fact that it has been covered with a neat wooden platform that persons may cross from the street to the pavement free from filth and fleas. Mr. Mathews, who is a member of the board, would, however, have explained about the matter when the attention of the council was called to the subject. If there are any other places in town where hog wallows are needed the localities have escaped our attention.

CAMP MEETING.

Good Attendance, and Opening Service by Rev. H. P. Walker—Interesting Discourses by Revs. J. Rand and W. D. Powers.

Special correspondence of BULLETIN. PARK'S HILL CAMP GROUND, August 3, 1883.

The eleventh annual meeting on these grounds commenced yesterday, Rev. Dr. H. P. Walker preaching the opening sermon.

The attendance is good for the present stage of the meeting. The weather is also pleasant and favorable; and the cottages are fast filling up. Notably among those occupying cottages here, we notice the following from Maysville:

The order is good. The managers, Drs. Walker, Evans and Poynter have all arrived. The preaching is practical and pointed, and indications point to a profitable meeting. To-day at 11 o'clock a. m. Rev. J. Rand preached from Hebrews xi, 5; subject—"Faith, and the Translation of Enoch." The discourse was impressive and well received. In the afternoon Rev. W. D. Power preached a good sermon from I. Timothy, ii, 8; subject—"The Necessity, Duty, and Efficacy of Prayer."

The services of the day are: Morning, prayers at 8:45 o'clock; devotional services at 8:15 o'clock, preaching at 11, and also at 3 and 8 o'clock p. m.

About twenty new cottages have been erected this summer, so that they now number about 123.

Not many preachers have yet arrived but others are expected. Dr. Talmage will be here on next Tuesday and Wednesday, so the committee say. Although a good start is being made, and it is hoped great good will result from the meetings now being held.

Nathans & Co's. Consolidated Shows.

Their exhibition is said to be first-class in every particular, and the most perfect order and decorum characterizes every department of their vast establishment. A lack of space forbids our enumerating the many grand and brilliant attractions of the several departments of this great aggregation and we will therefore desist with the advice to our readers, not to miss the opportunity to witness a really good entertainment.

THE curative power of Ayer's Sarsaparilla is too well known to acquire the specious aid of any exaggerated or fictitious certificate. Witnesses of its marvelous cures are to-day living in every city and hamlet of the land. Write for names if you want home evidence.
