THE wheat crop of Nebraska, the present year, is stated to be 27,000.000 bushels.

"GATH" thinks lager beer and prohibition will knock the Republicans out in October.

Ir is reported that Secretary Lincoln will investigate the charges against the Greely party.

SENATOR VANCE, of North Carolina, says that state is good for a Democratic majority of 20,000.

Congressman Springer, of Illinois, says the Germans of that State will vote in a body for Cleveland.

THE Missouri Republicans and People's party have fused on Nicholas Ford, Greenback, for Governor.

THE Michigan Methodist Episcopal Conference has officially indorsed the Prohibition ticket in that State.

It is said to be settled that a prominent New York Stalwart will be given the position of Secretary of the Treasury.

in Ohio are being made thick and fast. The Maine brigade are already arriving.

THE Norton Nail Works, at Ashland, have resumed work with 135 machines in operation and a working force of 1,200

REPUBLICAN papers are losing all the glory of the Maine victory in explaining Blaine's dodge on the prohibition amend-

The campaign in Ohio will be regularly opened this week by both Democrats and Republicans, and there will be five weeks of hot work.

It is generally, admitted throughout the union that the big vote given prohibition in Maine means a German-Democratic alliance in Ohio.

BLAINE will withdraw that suit against the Indianapolis Sentinel. When he fired his gun off at the Hoosier he little though he would get a shot back.

The site for the new penitentiary at Eddyville has been selected and the work gans were believed to be going north to their of construction is to begin immediately, and will be pushed along with rapidity.

There are rumors at Washington City that the Stalwarts of Massachusetts, New York and Pennsylvania, will hold a conference at an early day, with a view to rally in a body to the support of Cleve-

Eight hundred fresh cases of cholera and three hundred deaths are reported at Naples. The condition in the city is described as harrowing, and scenes of wretchedness of the most pitable character occur on every side.

A DESPATCH in the Boston Post from Portland, Maine, charges that Mr. Blaine is directly responsible for the publication of the scandals on Cleveland, and shows that this complexion was given to the campaign by Mr. Blaine's personal friends and campaign managers after full consultation with him.

Mr. Wadsworth while a representative in Congress, as we shall presently show, opposed the emancipation of slaves. This is a little fact to which we call the attention of the enthusiastic colored Blaine and Logan club which the other day pledged its support to him. We do not ask you to believe us but read the official record when your attention is called to it.

THE latest returns show that the Republican plurality in Maine is about 16,700. The House will be composed of one hundred and seventeen Republicans and thirty-four Democrats, a Republican gain of seven. The Senate will stand thirty-one Republicans and no Democrats. Mr. Blaine's own city gave a majority 252 greater than ever known and his county gives 3,400 majority.

Phof. Joseph Desna Pickett, a native of Mason County, as pure a man as ever lived, an educated gentleman, and a warm personal friend of Mr. Wadsworth's, was last year a candidate for Superintendent of Public Instruction. He was better qualified byknowledge and experience for the office than any other person in the State. Did Mr. Wadsworth vote for his personal friend? No he did not. He voted, unless the poll books lie, for Clergyman Pinkerton, a chronic Republican office seeker, for the simple reason that he was of that political faith and Prof. Pickett was a Democrat. Do any of Mr. Wadsworth's Democratic friends love him well enough to vote for him this time. If they do they will vote for a man that loves his party better than he indicting a fatal wound. The young man has does his warmest personal friends.

SARATOGA, Sept. 11.—At the Convention of the National Prison Association of the United States, Prof. Francis Wayland, of Yale College, offered the following resolution which was seconded by General Brinkerhoff, of Ohio, and unanimously adopted by the meeting:

"Whereas, Owing to the diversity of proedure in the various States and Territories in the United States in the matter of the extradition of fugitives from justice, arising chiefly by reason of the doubts which exist as the meaning of the Constitution and statates of the United States in relation to this subject; and

"WHEREAS, It is desirable that crime should be properly and speedily punished wherever

committed; and "WHEREAS, It is believed that it is entirely feasible to secure by concerted and proper action the adoption of uniform rules and practices between the States and Territories; therefore,

"RESOLVED, That a committee of this association, consisting of three persons, be appointed by the Chairman, with power to associate other persons with them, if necessary or advisable, to take such steps as may be necessary to bring about the adoption of uniform rules and practices between the States and territories of the United States regulating the extendition of fugitives from justice."

The entire expedition will be conducted on teetotal principles, Lord Wolsley having determined to follow the precedent made on Red River.

The deaths that have ensued are not numerous, but all of the stock show symptoms of having taken the same disease, It is believed that it has resulted from poisonous weeds and plants that are thought to be growing in the same field.
