**C. F. RUDOLPH,** MARKET AND FOURTH STS.  
**WATCH CAUGHT ON LAMP-POST.** The Loser Thought He Had Been Robbed by a Pickpocket. J. R. McGinnis of 213 Madison street had his watch taken from him on Saturday night. He thought he had been robbed by a pickpocket and reported his loss to the police. McGinnis is in charge of the street gas lamps in part of the city, and on Saturday evening when he heard that his lamp in Porter street would not burn, went there to adjust the mechanism. On his way home he discovered the loss of his watch and chain, of which he notified the police. Patrolmen S. D. Scott and King were assigned to the case, and yesterday they not only solved the mysterious loss, but recovered the watch. When Mr. McGinnis started to descend the lamp-post on Saturday night the watch chain looped over an iron arm of the post, and watch and chain were torn from his vest and left dangling from the cross-arm just below the lamp. Mr. McGinnis had not detected the dragging of the timepiece from his vest pocket. A colored woman coming along later espied the watch and chain hanging from the lamp-post arm, and she took the valuables. Officers Scott and King found the woman yesterday and she returned the watch and chain.

**FATAL EXPLOSION.** Associated Press Dispatch by Special Wire. Harrisburg, Pa., May 17.—Two men were killed and one man was fatally scalded by the explosion of a boiler as a result of the meeting of representatives of State and municipal Civil Service Commissions with that of the general movement, which came to a close yesterday. His object is the promotion of Civil Service reform throughout the country. The supply of information to national, State and municipal Civil Service Commissions. These officers were elected: President, Charles S. Fowler, New York City Commission; First Vice-President, Dr. J. C. Mason, New York City; Second Vice-President, Henry Sherwin of the United States Civil Service Commission; Secretary, Treasurer, John T. Doyle of the United States Civil Service Commission.

**SUMMER RESORT DEVASTATED.** Associated Press Dispatch by Special Wire. Monument Beach, Mass., May 17.—Five sweeps through the summer cottage settlement here early today. Twenty-four cottages and the New York, New Haven & Hartford Railroad station were destroyed. The loss is estimated at about \$60,000. Only one of the cottages was occupied. The loss falls chiefly on residents of Brooklyn and its vicinity.

**WEATHER FORECAST.** Associated Press Dispatch by Special Wire. Washington, May 17.—Weather forecast for Delaware: Fair and warm tonight and tomorrow; light to fresh west wind. See Seventh Page for email Ads. received too late to classify.

**FIRST IN CIRCULATION AND FIRST IN RESULTS.** The Circulation of Every Evening yesterday was 10,773

**Commerce of World.** The Imports and Exports This Year Will Aggregate Fully Twenty-five Billion Dollars. TRADE WILL BE ENORMOUS. Six Times as Much as in 1850 and Two and One-half Times as Much as in 1870. 25 PER CENT OVER YEAR 1900. So Says a Bulletin Issued by the Department of Commerce and Labor. One Interesting Fact Developed by Statistical Trade Reports is That the United States Stands at the Head of the World's Great Exporting Nations and Ranks Third Among the Nations as an Importer. Associated Press Dispatch by Special Wire. Washington, May 17.—The world's international commerce will aggregate fully \$25,000,000,000 in the year 1906, says a bulletin issued by the Department of Commerce and Labor. By the "world's international commerce," the bulletin explains, is meant the imports plus the exports of all countries of the world from which statistical trade reports were available. The figures given indicate that the trade between nations in 1906 will be six times as much as in 1850, two and one-half times as much as in 1870, and 25 per cent more than in 1900. One interesting fact which an examination of the figures of the average monthly trade of the principal countries of the world develops, says the bulletin, is that the United States now stands at the head of the world's great exporting nations. The average monthly exportation from the United States in the nine months ended with March, 1906, is shown by the figures of the Bureau of Statistics at \$141,209,973, the monthly average from the United Kingdom for the same period at \$143,574,912, the monthly average from Germany during the 12 months ended with December, 1905, at \$110,777,800 and the monthly average from France for the 12-month period ended with February, 1906, at \$72,370,400. An examination of the import column shows that the United States stands third among the nations as an importer, the monthly average of importations into the United States for the nine months ended with March, 1906 being \$101,556,417, the monthly average into the United Kingdom in the same period being \$241,390,911, the monthly average into Germany during the 12 months ended with December, 1905, at \$110,777,800 and the monthly average into France for the 12-month period ended with February, 1906, being \$85,423,650.
