GUATEMALA REBELS ARE DRIVEN BACK

The Revolutionists Who Attacked
Ocos Have Fled Across the
Mexican Border.

OTHERS ARE APPEARING

They Are Coming From Various Points
Along the Mexican Boundary and
Threatening the Government.

Associated Press Dispatch by Special Wires.

Washington, May 29.—The Guatemala revolutionists who attacked Ocos have been driven back across the Mexican border, but small parties of revolutionists are appearing at various other points along the Mexican boundary and threatening the Guatemala government. This information was contained in a dispatch received at the State Department today from Mr. Combs, the American Minister to Guatemala and Honduras.

Mr. Munoz, the Guatemalan Minister, had a long conference at the State Department today with Secretary Root. He called to get information of the revolutionary movement in his country. So far he has had no advice whatever concerning the movement against President Cabrera. There is nothing in the dispatches Secretary Root has received which shows that the lives and property of American citizens are in danger, and no steps have been taken to send a warship to Ocosingo, the center of the revolution in Guatemala, and it is only three or four days from the scene of the insurrection, but which the unsettled political condition at present existing in Panama, it is not likely that the Maribachew will leave that port.

Mexico is doing everything in its power to protect its border to avoid becoming entangled in the Guatemalan revolution, according to a dispatch received today by the State Department from the American Embassy in the City of Mexico.
