EVENT OF WEEK.

McGraw's Going Leaves Orioles in a State of Chaos.

In the line of sensations Johnny Mc-Graw's desertion of the American League was the event of the week. His going leaves conditions in Baltimore in a state of chaos. The management of the Birds is somewhat rattled, and it would not surprise the fans to see one or two of the present flock of Birds grouped for younger and more willing men, as well as for players whose money demand is not so high.

Much has been said pro and con of Mae's jump, but those who know the little ex-Oriole are willing to bet that he is wise to his business.

He has always had an eye to what would penefit him, and his going to New York, it is safe to say, will mean much for McGraw and the Giants, With unlimited means back of him and the friendship of Andy Freedman, there's no telling what he may do next season

One thing is certain, Mac is going to put a good team in the field. If the ball-playing quality is there he is going to bring it out or learn why. It's a chance of a lifetime and no one knows it better than the former director-gen-
