MUNICIPAL WATERWORKS PLANT AT ST. AUGUSTINE

INTERESTING FIGURES SHOWING THAT PLANT HAS BEEN SELF-SUSTAINING—CITY FURNISHED WITH FREE WATER.

As many questions have been asked about the city waterworks lately, indicating that many have forgotten details of the installation of the plant, the cost, etc., information on the subject will be timely in view of the fact that another bond issue for an electric light plant is contemplated, says the St. Augustine Record.

The waterworks were established in 1897. The city was bonded for \$85,000 at the time to meet the cost of the plant, and to pay off floating indebtedness. The sum of \$65,000 was expended for the plant, and the balance of \$20,000 was used to pay off the outstanding warrants. The bonds mature thirty years from the date of issuance. Up to the present time the city has cancelled six bonds, amounting to \$6,000, and at the present time the sinking fund has a balance of \$1,100. Interest has been paid regularly up to date. The levy for maintaining the plant, interest on bonds and providing a sinking fund of \$1,000 per year is one half of one per cent. The bonds bear five per cent interest up to last year, when the city cancelled bonds to the amount of \$6,000, the city paid annually \$3,250 interest. This has been reduced by calling in the bonds mentioned. The interest on the \$20,000 applied to liquidating debts cannot be charged to the waterworks.

The report read by Mr. Eugene Masters at the Board of Trade meeting Monday night shows conclusively that the waterworks are self-sustaining if they are classed the same as would be a private system. In justice to the plant it should be credited with the hydrants supplied free to the city, also to other incidents. Betterments should also be taken into consideration.

Conditions are continually improving and each day shows a gain in the number of consumers. In time the plant will, as Mr. Masters says, be self-supporting without reckoning what the city owes for hydrants. Under the old board of bond trustees progress was identical with the present time. Each year found the board in better financial condition. It is possible some business has slipped past the management, but this will happen in any business, private or public.

The report of Mr. Masters shows that the board now in control on taking charge of the plant received from the old board a balance of \$233.12 in cash and \$200 in city warrants. The collections for the year ending in July, 1904, amounted to \$5,030. The board received from the city \$2,750, making a total of \$8,213.12. The total expenditures for all purposes amounted to \$7,825, leaving a balance for the fiscal year of \$388.12.

During the year 1904 and 1905 the receipts up to the present amount to \$4,475. Received from the city \$3,000, total \$7,475. The board has expended \$6,085, leaving a balance of \$1,390.

Nearly one hundred taps, costing about \$8 each, have been put in during the year 1904-05, costing between \$700 and \$800.

Extension of mains during the past two years cost the board \$1,400 and repainting and repairing the stand-pipe cost \$500.

The above will give the public a comprehensive idea of the working of the plant.

TURPENTINE MEN ARE NOW HAPPY

PRICES SOARING UPWARD AND OUTLOOK EXCEPTIONALLY BRIGHT.

The Savannah News says: "Just what developments are to be expected under the new order of things it is impossible to predict, but that a break in prices is one of them there is no reason to believe, for the present at any rate. Yesterday's developments would seem to preclude this idea for not only did spirits advance sharply, from 74 at the market's close to 74 1/2 @ 75 1/2 in the late trading, but another advance is certain today, bids having already been placed on the market for supplies at 76 cents.

"Another development is the sale of June-December futures at 62 cents, the highest price that has ever been either bid or paid in the history of the naval stores trade.

"The rosin department of the trade appears to be equally firm in prices for the market opened yesterday at a small advance on commons and another was recorded in the trading after the market's close. Whatever may be thought of the permanence of the present level of prices the fact remains that they are made and maintained not by small transactions intended for that purpose, but by a demand that daily clear away all offerings."

The Savannah News further says, editorially: "The situation in the naval stores trade is such as to cause great satisfaction throughout the turpentine producing belt. Never in the history of the trade have prices been so high or the demand stronger. As compared with the corresponding period of last season, spirits is now approximately 20 cents a gallon higher and rosin approximately \$1 a barrel higher. This means, of course, increased prosperity in the turpentine country and better profits for the factors. The turpentine producer who is not making 'good money' these days has only himself to blame."

Cuban Diarrhoea. U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One of these remedies cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by all druggists.

MARKETS

Naval Stores Market.

Savannah, Ga., June 2.—The naval stores market closed today as follows:

Table with 2 columns: Commodity and Price. Includes items like WG, N, M, K, I, H, G, E, D, C.

Spirits Turpentine 79 cents.

NEW YORK COTTON MARKET.

New York, June 2.—The cotton market opened weak at decline of 8 to 23 points under active selling for both accounts, promoted by good weather in the south, lower cables and continued expectations of a less bullish monthly crop, report by the government at midday, than had been discounted. The market was feverishly active and excited all the early trading, with the extra average month, shortly after the opening showing declines of 18@23 points. There was heavy covering at the decline and the market later rallied to a net loss of about 10 @ 14 points following which it ruled very nervous and irregular.

PRICE OF OIL REDUCED.

Cleveland, Ohio, June 2.—Standard Oil Company today reduced the price of naphtha and gasoline from 3/4 to 1/2 per gallon. On tank wagon naphtha and gasoline is reduced 1/2c per gallon, while on barrel goods the quotations are cut 1c per gallon.

COTTON CROP BULLETIN.

Washington, June 2.—A cotton crop bulletin issued by the department of agriculture today shows that the acreage for the entire belt has decreased 11.4 per cent; the average condition is given as 77.2.

BANKS TO CLOSE.

All the banks in this city will be closed on Saturday, June 3, account of Jeff Davis' birthday.

FIRST NATIONAL BANK.

Trolley Party!

Wednesday Night, June 7.

FROM 6 TO 8 O'CLOCK FOR CHILDREN AND 8 TO 11 O'CLOCK FOR GROWN PEOPLE.

This party is especially for the benefit of those who purchased tickets for the previous party, but did not use them.
