SENATOR BAILEY IS HOT AFTER ALDERMAN

Texas Statesman Criticizes University President for Attitude Toward South.

By Associated Press.

McGregor, Tex., Aug. 11.—United States Senator Bailey was the principal speaker at the Confederate reunion here yesterday, his subject being a defense of the south. His father was a Confederate and his grandfather a Federal soldier, being in one battle against each other. Among other things, Senator Bailey said:

"I have been pained within the past few months to learn that a southern man called to the presidency of the University of Virginia should speak disparagingly of southern traditions."

He remarked that the University of Virginia, having been founded by Thomas Jefferson and being in a state with such a history as Virginia, should of all educational institutions, be expected to teach the truth about the south. But Dr. Alderman, at a banquet in New York, had made a speech which Senator Bailey declared should have caused the blush of shame to mount to the cheek of every southern man at the table.

"Where are the Calhouns and Clays and Davises of the south?" Dr. Alderman inquired, "said Senator Bailey, I mournfully acknowledge that they are gone, but why didn't he ask where are the Websters and the Choates of the north?"

Senator Bailey related an incident of the last session of congress. A bill had been introduced to appropriate \$25,000 to pay the expenses of a congressional delegation to the Portland exposition. He opposed it and succeeded in cutting it down to \$5,000, about \$400 for each of the members of the party, more, he observed, than they would spend if they behaved themselves. One of the senators who was to make the trip came to him and insisted that \$5,000 was not enough, in response to which Senator Bailey said: "If I was as rich as you are, I would pay my own expenses."

That senator, he said, was the successor of Stephen A. Douglas.

"A nice old woman, who compares with Douglas as the glow worm compares with the eagle. Who represents Ohio? Mr. Dick, who didn't make a great success at running a feed store. Who comes from Pennsylvania? The creatures of corporations and cabals. Who is from the west? Deitrich, who was indicted; Burton, who was indicted and convicted, and Mitchell who was indicted, convicted and sent to prison. I regret that any senator should have disgraced his office, but I thank God that none of them was from the south or of the democratic party."

Root Out of Corporations

By Associated Press.

New York, Aug. 11.—Secretary of State Elihu Root, who recently entered President Roosevelt's cabinet, has, says the Times today, severed all connection with a number of financial institutions of which he was formerly a director. Mr. Root recently resigned, it became known yesterday, from the boards of the Morton Trust Company, the National Bank of Commerce, the Continental Fire Insurance Company, the Title Guaranty Trust Company and several other corporations.

This action was taken, the Times continues, in order that he might assume the secretaryship of state without being in any way allied with corporate interests. In conversation with his associates he is said to have expressed the opinion that it was better for him to be free of his former connection with these institutions as a director, and for this reason he resigned from them all.

Mr. Root had been director of some of these institutions for a number of years, including the period when he was secretary of war. Inquiry among his former fellow directors failed to reveal Mr. Root's reason for differentiating between the two positions in the cabinet so far as they affected his personal business affairs.

ONLY ONE EXCURSION TO BE RUN THIS YEAR.

By Associated Press.

Chicago, Aug. 11.—The executive committee of the Western Passenger association at a meeting held here yesterday, recommended to that association that roads may run one home visitors excursion this year at a fare of one and one-third for the round trip. Such excursion to be run either October 31 or November 1, 1905.

BIG STEAMER TO BE REPAIRED HERE

The Crown of Aragon Was Surveyed and Contract Awarded for Work.

The big steamer Crown of Aragon, which came over from quarantine Thursday morning, where she had been for several days, will be repaired in Pensacola, and it is anticipated that she will be ready for sea before Tuesday morning.

The board of survey completed its examination of the hull of the steamer yesterday, and found that only a few of the plates had been damaged by the steamer striking upon a coral reef while coming out of a Cuban harbor.

This damage, it was decided, could be repaired from the inside of the steamer, and the necessity of docking the vessel was therefore not considered. The steamer leaks considerably, but the surveyors of the vessel, among whom is Captain Jacob Kryger, Lloyd's surveyor, decided that this could be easily remedied and the steamer placed in a seaworthy condition within a short time.

The contract for the work was awarded to the Gulf Machine Works, and the terms are that it is to be completed by Tuesday morning.

The Crown Aragon will go to Port English for a part cargo of 3,500 tons of phosphate rock, and from there will proceed to New Orleans and fill out with general cargo for a foreign port.

When the Crown Aragon is filled with cargo, and the younger lady particularly spent a great deal of her time in silent weeping.

Motion For Continuance.

When court convened in the afternoon Judge Reeves, on behalf of the defendant, made a motion for a continuance of the case and presented the following reasons for so desiring it:

Now comes the defendant by his attorneys and moves the court to continue the above entitled cause until the next regular term of said court, and for cause says:

First—That it would very much embarrass the defendant in the preparation of his defense to be put upon trial at the present term of said court for the reason that he has been confined in jail ever since the 18th day of July, A. D. 1905, the date of the alleged offense, and has had no opportunity to locate all of his witnesses, or to ascertain definitely what he can prove by them, and for this reason is unable to state at this time the names of all of his witnesses, and what they would swear to if present. That the defendant had no reason to know or even to expect that a special term of said court would be called until the day following the date of the making of said order, and the defendant has not had sufficient time since the finding of said indictment to make necessary preparations for his defense in locating and procuring his witnesses.

Second—That the defendant, if put upon trial at this time, or at any early date in said county, would not be accorded a fair and impartial trial on account of the publicity and general notoriety given throughout said county of the alleged cause and manner of the alleged killing of John White and one Edwin Dansby, and the circumstances surrounding same, and the intense feeling of resentment and indignation aroused, and still entertained against this defendant, in the public mind generally in the community of said alleged killing, and throughout said county; and on account of the knowledge of the general public of the wide circulation in said court of various and numerous petitions asking for a special term of said court to be held for the purpose of indicting and putting this defendant upon trial for said alleged offense, and of the order made pursuant thereto calling said special term, and the general impression created and now entertained in the public mind that the real, primary and exclusive object of ordering said special term was to put this defendant upon trial for said alleged offense thereby, in the public estimation, singling this defendant out and imputing to him an unusual and extraordinary degree of criminality, requiring speedy punishment, all of which has so disparaged the defendant in the general public estimation, and has so prejudiced him generally in the community of the alleged offense and throughout said entire county, that this defendant cannot secure a fair and impartial trial in said county.

On arriving at Bunker Hill, half way between Micoosukie and Monticello, the negro cut the horse out of the harness, and rode horseback toward Monticello.

On arriving at Texas Hill, one mile from Monticello, he dismounted and took to the woods. The sheriff, D. B. Eird, had been notified to look out for the murderer, and finally came upon the negro on the east side of the town.

On seeing the officer, the negro ran away, and refusing to halt when ordered, the sheriff fired one shot which probably struck, but the fellow continued his flight.

It was thought the negro had gone toward Drifton, consequently the sheriff took the afternoon train for that place. About a quarter of the train was waved down and the sheriff was informed that the negro had passed there, going west, so the officer left the train and went in pursuit of his game.

He soon came upon him, and ordering him to halt, with no effect, the sheriff fired one shot. The negro then shot again, wounding the fugitive so badly that he lived only a few minutes.

Joe Taylor, the man who was killed, was one of the best negroes in Leon county, and was a good blacksmith.

The murderer was identified by Dr. Yarbrough's brother, Wayland Yarbrough, and had on Dr. Yarbrough's hat, and had the doctor's gloves in his pocket when killed.

TWELVE YEARS FOR BRITISH HERO

Man Who Was Decorated by Queen Victoria Sent Up for Burglary.

By Associated Press.

Salt Lake City, Utah, Aug. 11.—Twelve years in the penitentiary for burglary is the sentence pronounced on Samuel Griest, who almost thirty years ago saved the life of General Lord Roberts, the head of the British army. Griest for his bravery received at the hands of Queen Victoria the Victoria cross.

During the war with the Afghans in 1877 a force of British under command of General Roberts was almost surrounded by an overwhelming force of half savage tribesmen. General Roberts was caught between the lines and had his horse shot from under him, the beast pinning him down when he fell.

Griest, with bullets fairly raining about him, ran a distance of 600 yards and pulling General Roberts from under the animal, mounted him on his own horse and led the way back to the British lines. Roberts, seeing that the enemy was about to close in on him, ordered a retreat, but it soon became evident that the artillery would have to be sacrificed. Roberts called for a volunteer to go back and spike the guns. Griest responded and alone turned back from the hotly pursued army and with tribesmen shooting from all directions, spiked the nine guns that were by this time almost in the hands of the Afghans.

Griest fought in Africa, and about ten years ago came to Utah. He has since served a couple of terms in the penitentiary for burglary besides being sent to jail at different times for petty offenses.
